

or guaranteed loans of participating Federal programs of either agency. Authorized users place a telephone call to the system. The system provides a recorded message followed by a series of instructions, one of which is a requirement for the SSN of the loan applicant. The system then reports audibly whether the SSN is related to delinquent or defaulted Federal obligations for HUD or ED direct or guaranteed loans. As a result of the information produced by this match, the authorized users may not deny, terminate, or make a final decision of any loan assistance to an applicant or take other adverse action against such applicant, until an officer or employee of such agency has independently verified such information.

EFFECTIVE DATE: Computer matching is expected to begin July 19, 1995 and unless comments are received which will result in a contrary determination, will be accomplished 18 months from the beginning date.

Reporting

In accordance with Public Law 100-503, the Computer Matching and Privacy Protection Act of 1988, as amended, and Office of Management and Budget Bulletin 89-22, "Instructions on Reporting Computer Matching Programs to the Office of Management and Budget (OMB), Congress and the Public;" copies of this Notice and report, in duplicate, are being provided to the Committee on Governmental Affairs of the United States Senate, the Committee on Government Reform and Oversight of the House of Representatives, and the Office of Management and Budget.

Authority

The matching program may be conducted pursuant to Pub. L. 100-503, "The Computer Matching and Privacy Protection Act of 1988," as amended, and Office of Management and Budget (OMB) Circulars A-129 (Managing Federal Credit Programs) and A-70 (Policies and Guidelines for Federal Credit Programs). One of the purposes of all Executive departments and agencies—including HUD—is to implement efficient management practices for Federal credit programs. OMB Circulars A-129 and A-70 were issued under the authority of the Budget and Accounting Act of 1921, as amended; the Budget and Accounting Act of 1950, as amended; the Debt Collection Act of 1982, as amended; and, the Deficit Reduction Act of 1984, as amended.

Objectives To Be Met by the matching program

The matching program will allow ED access to a system which permits prescreening of applicants for loans or loans guaranteed by the Federal Government to ascertain if the applicant is delinquent in paying a debt owed to or insured by the Government. In addition, HUD will be provided access to ED debtor data for prescreening purposes.

Records To Be Matched

HUD will utilize its system of records entitled *HUD/DEPT-2, Accounting Records*. The debtor files for HUD programs involved are included in this system of records. HUD's debtor files contain information on borrowers and co-borrowers who are currently in default (at least 90 days delinquent on their loans); or who have any outstanding claims paid during the last three years on Title II insured or guaranteed home mortgage loans; or individuals who have defaulted on Section 312 rehabilitation loans; or individuals who have had a claim paid in the last three years on a Title I loan. For the CAIVRs match, HUD/DEPT-2, System of Records, receives its program inputs from HUD/DEPT-28, Property Improvement and Manufactured (Mobile) Home Loans—Default; HUD/DEPT-32, Delinquent/Default/Assigned Temporary Mortgage Assistance Payments (TMAP) Program; and HUD/CPD-1, Rehabilitation Loans—Delinquent/Default.

ED will provide HUD with debtor files contained in its system of records. HUD is maintaining ED's records only as a ministerial action on behalf of ED, not as a part of HUD's HUD/DEPT-2 system

of records. ED's data contain information on individuals who have defaulted on their guaranteed loans. ED will retain ownership and responsibility for their systems of records that they place with HUD. HUD serves only as a record location and routine use recipient for ED's data.

Notice Procedures

HUD and ED will notify individuals at the time of application (ensuring that routine use appears on the application form) for guaranteed or direct loans that their records will be matched to determine whether they are delinquent or in default on a Federal debt. HUD and ED will also publish notices concerning routine use disclosures in the **Federal Register** to inform individuals that a computer match may be performed to determine a loan applicant's credit status with the Federal Government.

Categories of records/individuals involved

The debtor records include these data elements: SSN, claim number, ED Regional Office Code, Collection Agency Code, program code, and indication of indebtedness. Categories of records include: Record of claims and defaults, repayment agreements, credit reports, financial statements, and records of foreclosures. Categories of individuals include: Former mortgagors and purchasers of HUD-owned properties, manufactured (mobile) home and home improvement loan debtors who are delinquent or in default on their loans, and rehabilitation loan debtors who are delinquent or in default on their loans.

Period of the Match

Matching will begin at least 40 days from the date copies of the signed (by both Data Integrity Boards) computer matching agreement are sent to both Houses of Congress or at least 30 days from a date this Notice is published in the **Federal Register**, whichever is later, providing no comments are received which would result in a contrary determination.
