- what cultural resources information the industry needs to file with the Commission before and after the Commission issues a certificate.

We encourage interested organizations and the public to take advantage of this course.

The course will include the following topics:

- Objectives and requirements of the Commission regarding compliance with § 106 of the NHPA and related historic preservation laws;
- Guidance for reporting on cultural resources investigations;
- Definition of cultural resources terms used by the Commission in the compliance process; and
- Efficient strategies for planning and conducting cultural resources investigations.
