

1995, the respondent alleged that the Department made an inadvertent spreadsheet error which resulted in the revised figures for certain ESP observations being moved to the wrong columns. On May 15, 1995, the petitioner alleged that we departed from our established practice and, for certain U.S. observations, applied a daily exchange rate instead of the quarterly rate to convert South African Rand to U.S. dollars. (For specific details of these allegations and our analysis thereof, see Memorandum from Gary Taverman to Barbara R. Stafford dated May 25, 1995).

We have reviewed the respondent's allegation and agree that we erred in moving the revised figures for certain variables to the adjacent spreadsheet columns. In accordance with 19 CFR 353.28, we have corrected the calculations for the final determination.

With respect to the petitioner's allegation, however, we disagree that our reliance on the daily exchange rate constitutes a departure from our established practice. It is the Department's practice to make currency conversions at the Federal Reserve certified quarterly exchange rate except where the daily exchange rate varies by five percent or more from the quarterly rate.

Inasmuch as the variance between the daily and quarterly rates equaled five percent, we followed our established practice and used the daily rate in the final determination. Accordingly, we determined that petitioner's allegation does not constitute a ministerial error.

Pursuant to 19 CFR 353.28, we have corrected the final dumping margins. The final dumping margin for Illovo Sugar Limited and "All Others" has been amended from 15.48 to 11.55 percent.

Scope of Order

The merchandise covered by this order is furfuryl alcohol (C₄H₃OCH₂OH). Furfuryl alcohol is a primary alcohol, and is colorless or pale yellow in appearance. It is used in the manufacture of resins and as a wetting agent and solvent for coating resins, nitrocellulose, cellulose acetate, and other soluble dyes.

The product subject to this order is classifiable under subheading 2932.13.00 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheading is provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

Antidumping Duty Order

On June 14, 1995, in accordance with section 735(d) of the Act, the U.S. International Trade Commission (ITC) notified the Department that imports of furfuryl alcohol from South Africa materially injure a U.S. industry. Therefore, in accordance with section 736 of the Act, the Department will direct United States Customs officers to assess, upon further advice by the administering authority pursuant to section 736(a)(1) of the Act, antidumping duties equal to the amount by which the foreign market value of the merchandise exceeds the United States price for all entries of furfuryl alcohol from South Africa. These antidumping duties will be assessed on all unliquidated entries of furfuryl alcohol from South Africa entered, or withdrawn from warehouse, for consumption on or after December 16, 1994, the date on which the Department published its preliminary determination notice in the **Federal Register** (59 FR 65012).

On or after the date of publication of this notice in the **Federal Register**, U.S. Customs officers must require, at the same time as importers would normally deposit estimated duties, the following cash deposits for the subject merchandise:

Manufacturer/producer/exporter	Weighted-average margin percentage
Illovo Sugar Company	11.55
All others	11.55

This notice constitutes the antidumping duty order with respect to furfuryl alcohol from South Africa, pursuant to section 736(a) of the Act. Interested parties may contact the Central Records Unit, Room B-099 of the Main Commerce Building, for copies of an updated list of antidumping duty orders currently in effect.

This order is published in accordance with section 736(a) of the Act and 19 CFR 353.21.

Dated: June 14, 1995.
