SUPPLEMENTARY INFORMATION:

Background

On November 15, 1994, the Animal and Plant Health Inspection Service (APHIS) received a petition (APHIS Petition No. 94-319-01p) from Ciba Seeds of Research Triangle Park, NC, seeking a determination that corn designated as Event 176 Corn that has been genetically engineered for insect resistance does not present a plant pest risk and, therefore, is not a regulated article under APHIS' regulations in 7 CFR part 340.

In the notice, APHIS solicited written comments from the public as to whether the subject corn posed a plant pest risk. The comments were to have been received by APHIS on or before April 24, 1995.

APHIS received 37 comments on the Ciba Seeds petition.
