

Pursuant to the provisions of § 35.11 of the Commission's Regulations, Midwest respectfully requests a waiver of Commission's Regulations and notice requirements to allow Amendment No. 1 to be effective on January 1, 1995.

Midwest states that copies of this filing were served on Cedar Falls Utilities and the Iowa Utilities Board.

*Comment date:* June 30, 1995, in accordance with Standard Paragraph E at the end of this notice.

#### Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

#### **Sandy Hollow Power Company, Inc.; Notice of Availability of Environmental Assessment**

June 16, 1995.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's Regulations, 18 CFR part 380 (Order No. 486, 52 FR 47910), the Office of Hydropower Licensing (OHL) reviewed the application for amendment for the Sandy Hollow Hydroelectric Project. The application proposes to install a 160 kilowatt turbine with a siphon-fed penstock on the Indian River, in Jefferson County, near the Village of Philadelphia, New York. The staff prepared an Environmental Assessment (EA) for the action. In the EA, staff concludes that approval of the licensee's amendment application would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Reference and Information Center, Room 3308, of the Commission's offices at 941 North Capitol Street, N.E., Washington, D.C. 20426.

#### [Docket No. CP95-109-000]

#### **CNG Transmission Corporation; Notice of Availability of the Environmental Assessment for the Proposed TL-470 Extension 5 Project**

June 16, 1995.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by CNG Transmission Corporation (CNG) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of about 4.73 miles of 30-inch-diameter natural gas pipeline loop in Rooterdam Township, Schenectady County, New York.

The proposed loop would be constructed parallel and adjacent to CNG's existing facilities and would begin at a new gate station on CNG's system near Gregg Road and end at a new gate station near Burdeck Street.

The purpose of the proposed facilities would be to maintain pressure requirements to meet CNG's delivery obligations to Niagara Mohawk Power Corporation's distribution system which serves the Albany, New York area.

The EA has been placed in the public files of the FERC and is available for public inspection at: Federal Energy Regulatory Commission, Public Reference and Files Maintenance Branch, 941 North Capitol Street, N.E., Room 3104, Washington, D.C. 20426, (202) 208-1371.

Copies of the EA have been mailed to Federal, state and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.

A limited number of copies of the EA are available from: Mr. Howard Wheeler, Environmental Project Manager, Environmental Review and

Compliance Branch II, Office of Pipeline Regulation, Room 7312, 825 North Capitol Street, N.E., Washington, D.C. 20426, (202) 208-2299.

Any person wishing to comment on the EA may do so. Written comments must reference Docket No. CP95-109-000, and be addressed to: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Comments should be filed as soon as possible, but must be received no later than July 17, 1995, to ensure consideration prior to a Commission decision on this proposal. A copy of any comments should also be sent to Mr. Howard Wheeler, Environmental Project Manager, Room 7312, at the above address.

Comments will be considered by the Commission but will not serve to make the commentator a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).

The date for filing timely motions to intervene in this proceeding has passed. Therefore, parties now seeking to file late interventions must show good cause, as required by Section 385.214(b)(3), why this time limitation should be waived. Environmental issues have been viewed as good cause for late intervention. You do not need intervenor status to have your comments considered.

Additional information about this project is available from Mr. Howard Wheeler, Environmental Project Manager.
