[Docket No. EG95-55-000, et al.]

**ABB Barranquilla Inc., et al.; Electric Rate and Corporate Regulation Filings**

June 15, 1995.

Take notice that the following filings have been made with the Commission:

**1. ABB Barranquilla Inc.**

[Docket No. EG95-55-000]

On June 2, 1995, ABB Barranquilla Inc. ("ABB BAQ") filed with the Federal Energy Regulatory Commission ("Commission") an application for determination of exempt wholesale generator status pursuant to Part 365 of the Commission's regulations. ABB BAQ states that its sole business purpose is to acquire and own a 25.74 percent interest in Termobarranquilla S.A., Empresa de Servicios Publicos ("TEBSA"), which will own and operate the Termobarranquilla generating facility ("Facility") near Barranquilla, Colombia.

The Commission has previously determined that TEBSA is an exempt wholesale generator ("EWG") and, therefore, that the Facility is an "eligible facility" under PUHCA. Termobarranquilla S.A., Empresa de Servicios Publicos, 69 FERC ¶ 61,295 (1994). ABB BAQ states that ABB BAQ's acquisition of an ownership interest in TEBSA will not affect that determination. ABB BAQ further states that ABB BAQ will be engaged indirectly (through TEBSA) and exclusively in the business of owning and operating an eligible facility and selling electric energy at wholesale. ABB BAQ concludes therefore that ABB BAQ qualifies as an EWG.

*Comment date:* July 5, 1995, in accordance with Standard Paragraph E at the end of this notice. The Commission will limit its consideration of comments to those that concern the adequacy or accuracy of the application.
