2. Natural Gas Pipeline Company of America

[Docket No. CP95-555-000]

Take notice that on June 9, 1995, Natural Gas Pipeline Company of America (Natural) 701 East 22nd Street, Lombard, Illinois 60148, filed in Docket No. CP95-555-000 an application pursuant to Section 7(b) of the Natural Gas Act, as amended, and Sections 157.7 and 157.18 of the Commission's Regulations thereunder for permission and approval to abandon a natural gas exchange service with Columbia Gulf Transmission Company (Columbia Gulf) all as more fully set forth in the application on file with the Commission and open to public inspection.

Natural proposes to abandon the exchange service between Natural and Columbia Gulf provided under Natural's Rate Schedule X-125. Natural states that pursuant to a gas transportation and exchange agreement (Agreement) between Natural and Columbia Gulf dated September 30, 1980, Natural made available for exchange up to 10,000 Mcf of natural gas per day to Columbia Gulf at Columbia Gulf's Pecan Island Plant located in Vermilion Parish, Louisiana. Natural explains that from Pecan Island, Columbia Gulf transported Natural's gas to Columbia Gulf's Rayne Compressor Station located in Acadia Parish, Louisiana at which point it became Columbia Gulf's by exchange. Natural further explains that Columbia Gulf then redelivered to Natural equivalent volumes of natural gas available to Columbia Gas Transmission Corporation at the outlet of Texaco Inc.'s Henry Plant located in Vermilion Parish, Louisiana.

Natural states that by settlement agreement between Natural and Columbia Gulf dated May 15, 1995, Natural and Columbia Gulf agreed to terminate the Agreement (and Natural's Rate Schedule X-125 exchange service)

through the payment of a negotiated exit fee by Natural to Columbia Gulf in consideration for Columbia Gulf's early termination and abandonment of, among other things, the transportation and exchange service performed under the exchange agreement.

3. CNG Transmission Corporation

[Docket No. CP95-562-000]

Take notice that on June 12, 1995, CNG Transmission Corporation (CNG), 445 West Main Street, Clarksburg, West Virginia 26301, filed in Docket No. CP95-562-000 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon by removal a 1.2 mile segment of 6-inch diameter pipeline located in Tyler County, West Virginia, all as more fully set forth in the application on file with the Commission and open to public inspection.

CNG states that the pipeline was installed by CNG's predecessor, Hope Natural Gas Company (Hope) in 1925 and authorized by the Commission under Hope's grandfather certificate in 1942 in Docket No. G-290. It is stated that the line was installed to provide service to a customer of Hope Gas, Inc. It is further stated that the pipeline segment had deteriorated and had to be closed off in May 1984, with the customer relocated to receive service from another line in the vicinity. It is asserted that the proposed abandonment would have no impact on service to any customer since the single customer being served has been relocated.
