BILLING CODE 4410-09-M

Federal Bureau of Prisons

Intent to Prepare a Draft Environmental Impact Statement (DEIS) for the Construction of a Detention Center in Oahu Island, Hawaii

AGENCY: Federal Bureau of Prisons, Justice.

ACTION: Notice of intent to prepare a draft environmental impact statement (DEIS).

SUMMARY

Proposed Action

The United States Department of Justice, Federal Bureau of Prisons has determined that a Detention Center is needed to provide Federal detention capacity in Oahu Island, Hawaii.

The four sites under consideration include the following:

Site A—An approximately four (4) acre tract located along Lagoon Drive and in close proximity to the Honolulu International Airport. The land is state controlled and is separated from Site B by Iolana Place. The land is currently being used as an airport employee parking lot.

Site B—An Approximately five (5) acre tract along Lagoon Drive and in close proximity to the Honolulu International Airport. The land is state controlled, and is separated from Site A by Iolana Place. The land is currently being used as an airport employee parking lot.

Site C—An approximately three (3) acre tract on the Makai side of Ualena Street, and bounded by Lagoon Drive and Ohohia Street (closer to Ohohia). The land is state controlled, and is also

near the Honolulu International Airport. The land is vacant and currently being used for the temporary storage of new automobiles.

Site D—An approximately four (4) acre tract at Fort Armstrong behind the INS Building on Ala Moana. The land is state (2½ acres) and Federally (1½ acres) controlled, and is currently being used for government employee parking.

The Federal Bureau of Prisons proposes to construct a 500 bed detention facility for individuals who are awaiting trial, sentencing, or having other business before the United States District Court. As such, the facility is considered an extension of the Federal judiciary and law enforcement activity.

The sites under consideration are of sufficient size to provide space for detainee housing, programs, services and support areas, as well as administration, staff training and parking.

The Process

In the process of evaluating the four sites, several aspects will receive detailed examination including: utilities, traffic patterns, noise levels, visual intrusion, threatened and endangered species, cultural resources and socio-economic impacts.

Alternatives

In developing the DEIS, the options of no action and alternative sites for the proposed facility will be fully and thoroughly examined.

Scoping Process

During the preparation of the DEIS, there will be numerous opportunities for public involvement. A public Scoping Meeting will be held at a time and location convenient to the citizens of Oahu. The meeting will be well-publicized and will be held at a time which will make it possible for the public and interested agencies or organizations to attend. In addition, a number of informal meetings will be conducted by representatives of the Bureau of Prisons with interested citizens, officials and community leaders.

DEIS Preparation

Public notice will be given concerning the availability of the DEIS for public review and comment.

Address

Questions concerning the proposed action and the DEIS can be answered by: David J. Dorworth, Acting Chief, Site Selection and Environmental Review Branch, Federal Bureau of Prisons, 320

First Street, NW., Washington, DC 20534, (202) 514-8697.

Dated: June 2, 1995.

David J. Dorworth,

Acting Chief, Site Selection and Environmental Review.
