

to the public, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting the cognizant ACRS staff engineer, Mr. Paul A. Boehnert (telephone 301/415-8065) between 7:30 a.m. and 4:15 p.m. (EDT). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any potential changes in the proposed agenda, etc., that may have occurred.

Dated: June 19, 1995.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards Subcommittee Meeting on Planning and Procedures; Notice of Meeting

The ACRS Subcommittee on Planning and Procedures will hold a meeting on July 12, 1995, Room T-2B1, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance, with the exception of a portion that may be closed pursuant to 5 U.S.C. 552b(c) (2) and (6) to discuss organizational and personnel matters that relate solely to internal personnel rules and practices of ACRS, and matters the release of which would constitute a clearly unwarranted invasion of personal privacy.

The agenda for the subject meeting shall be as follows: Wednesday, July 12, 1995—2:30 p.m. until the conclusion of business.

The Subcommittee will discuss proposed ACRS activities and related matters. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff person named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

Further information regarding topics to be discussed, the scheduling of

sessions open to the public, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted therefor can be obtained by contacting the cognizant ACRS staff person, Dr. John T. Larkins (telephone: 301/415-7360) between 7:30 a.m. and 4:15 p.m. (edt). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any changes in schedule, etc., that may have occurred.

Dated: June 16, 1995.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

BILLING CODE 7590-01-M

Final NUREG: Issuance, Availability

The Nuclear Regulatory Commission (NRC) has issued NUREG/CR-6112, "Impact of Reduced Dose Limits on NRC Licensed Activities—Major Issues in the Implementation of ICRP/NCRP Dose Limit Recommendations," as a final report. On May 21, 1991, the Nuclear Regulatory Commission (NRC) published a revision to 10 CFR Part 20, "Standards for Protection Against Radiation." The rule became effective in June, 1991, and licensees were required to implement the regulations on or before January 1, 1994.

The revised 10 CFR Part 20 is based upon the recommendations of the International Commission on Radiological Protection (ICRP) in Publication 26 (ICRP 1977). In 1991, the ICRP published revised recommendations in Publication 60. These recommendations were based upon revised dosimetry and epidemiology, including the information presented in reports such as the 1988 United Nations Scientific Committee on the Effects of Atomic Radiation (UNSCEAR). The new recommendations include a revised occupational dose limitation approach of 100 mSv (10 rem) in 5 years, with the additional limitation that no more than 50 mSv (5 rem) be received in any one year.

In 1991, the National Council on Radiation Protection and Measurements (NCRP) recommended a lifetime limit of 10 mSv (1 rem) times age in years (NCRP Report 91). This recommendation was continued in recommendations published in 1993 (NCRP Report 116).

In anticipation of these recommendations, and as a result of the epidemiological and dosimetric

information available in the last 5 years, the NRC staff initiated a study by Brookhaven National Laboratory (BNL) to analyze the potential impacts of reduced dose limits on its licensees. The results of this study are contained in this NUREG/CR. During the study period, a relatively small number of licensees responded to questionnaires and surveys, thereby limiting the extent to which the survey results can be assumed to be an accurate representation of the potential impacts of changed dose limits.

The NRC staff published these results in draft form in January 1994 to solicit further comments from interested parties regarding the impacts of the different possible dose limits discussed in the draft NUREG/CR.

NUREG/CR-6112 is not a substitute for NRC regulations, and compliance is not required. The approaches and/or methods described in this NUREG/CR are provided for information only. Publication of the report does not necessarily constitute NRC approval or agreement with the information cited therein.

Copies of NUREG/CR-6112 may be purchased from the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 37082, Washington, DC 20013-7082. Copies are also available from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161. A copy is also available for inspection and/or copying for a fee in the NRC Public Document Room, 2120 L Street, NW. (Lower Level), Washington, DC.

For further information contact George E. Powers, Radiation Protection and Health Effects Branch, Mail Stop NL/S-139, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone (301) 415-6212.

Dated at Rockville, Maryland, this 5th day of May 1995.

For the Nuclear Regulatory Commission.

Bill M. Morris,

Director, Division of Regulatory Applications, Office of Nuclear Regulatory Research.
