Title: Application for Quality Control Sample (QC) Request Form (OMB No. 2080-0016; EPA ICR No. 0941.05).

Abstract: This ICR is an extension of an existing information collection request to continue the use of EPA's QC Sample Request Form, a form that is used by laboratories to request biological, microbiological, and selected chemical samples from USEPA's QC Program. The requirements for QC sampling are set forth at 40 CFR Parts 136, 141, and 142 and described in EPA's *Manual for Certification of Laboratories Analyzing Public Drinking Water Supplies*.

Laboratories requesting chemical, biological or other reference samples from the EPA must complete the one page QC form that includes: (1) identification (name, address of laboratory) information, and (2) a check list of samples that are available from EPA. EPA will enter completed request forms into their automated system, prepare the samples, attach computer generated labels to these samples and send the samples to the requesting laboratory. The samples provided by EPA used by laboratories to evaluate their own data, validate their methods, and evaluate instruments and standards used in the laboratory.

Burden Statement: Public reporting burden for this collection of information is estimated to average 10 minutes per response, including the time for completing and reviewing the collection of information, and submitting the information to the EPA.

Respondents: State, local or private laboratories that perform drinking water testing.

Estimated Number of Respondents: 1,000.

Frequency of Collection: On occasion.
Estimated Number of Responses per Respondent: 4.

Estimated Total Annual Burden on Respondents: 600 hours.

Send comments regarding the burden estimate, or any other aspect of this collection of information, including suggestions for reducing the burden, (please refer to EPA ICR #0941.05 and OMB #2080-0016):

The Respondent has agreed to pay a total of \$78,624.99. The money will be used to reimburse the U.S. EPA for past costs and oversight costs which will be incurred during removal actions to be taken at the site. This action is being taken to settle all liability related to the Lead Battery Recycler site with this Respondent pursuant to the intent of Section 122(g) of CERCLA, as amended.

DATES: Comments on this proposed settlement must be received by no later than July 26, 1995.

ADDRESSES: A copy of the proposed settlement is available at the following address for review: (It is recommended that you telephone Richard Clarizio at (312) 886-0559, before visiting the Region V Office.) SUPPLEMENTARY INFORMATION: From 1981 to 1983, Detroit Lead Recyclers, a partnership doing business as Battery Recyclers of Detroit and Battery Recyclers of Toledo, operated the 2.75 acre site as a battery recycling facility. The site is located at 5715 Angola Road, Toledo, Lucas County, Ohio, in a mixed residential/industrial area. While in operation, the Lead Battery Recycler site received batteries from numerous locations and companies for recycling. The facility has been closed since 1983.

The Respondent, Dallas and Mavis Forwarding Co., Inc. arranged for disposal of spent batteries at the Lead Battery Recycler site. The Respondent's share of the waste delivered to the site is believed not to exceed 1.0% of the total waste delivered to the site. A similar settlement agreement for four other *de minimis* responsible parties was noticed in the **Federal Register** on August 24, 1994.

A 30-day period, beginning on the date of publication of today's notice, is open pursuant to Section 122(i) of CERCLA for comments on the proposed settlement with this Respondent.
