[Docket No. 95-50; Notice 01]

RIN 2127-AF74

Federal Motor Vehicle Safety Standards; Reflecting Surfaces

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: NHTSA proposes to rescind Federal Motor Vehicle Safety Standard No. 107, *Reflecting Surfaces*. This proposed action is part of NHTSA's efforts to implement the President's Regulatory Reinvention Initiative to remove unnecessary regulations. The agency has tentatively concluded that market forces and product liability concerns will achieve the same results as Standard No. 107. Therefore, the Standard can be rescinded without affecting safety. Eliminating the Standard will remove the need to certify compliance with it.

DATES: Comments must be received on or before July 26, 1995.

ADDRESSES: Comments must refer to the docket and notice numbers cited at the beginning of this notice and be submitted to: Docket Section, Room 5109, NHTSA, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested, but not required, that 10 copies of the comments be provided. The Docket Section is open on weekdays from 9:30 a.m. to 4 p.m.

FOR FURTHER INFORMATION CONTACT: Mr. Richard Van Iderstine, Office of Vehicle Safety Standards, Office of Safety Performance Standards, NHTSA, 400 Seventh Street, S.W., Washington, D.C. 20590. Mr. Van Iderstine's telephone number is (202) 366-5280, and his FAX number is (202) 366-4329.

SUPPLEMENTARY INFORMATION

President's Regulatory Reinvention Initiative

Pursuant to the March 4, 1995 directive "Regulatory Reinvention Initiative" from the President to the heads of departments and agencies, NHTSA has undertaken a review of its regulations and directives. During the course of this review, the agency identified several requirements and regulations that are potential candidates for rescission, including Federal Motor Vehicle Safety Standard No. 107, *Reflecting Surfaces* (49 CFR 571.107).

This document discusses why NHTSA believes Standard No. 107 can be rescinded without adversely affecting motor vehicle safety. That belief is based primarily on the vehicle manufacturers' established practice of using nonglossy materials and finishes on regulated and nonregulated components in the driver's forward field of view. Since the nonregulated components are not glossy, the agency believes that currently regulated components would not become glossy if they were deregulated.
