The letter must contain information pertaining to the carriers revenues, expenses, net income, assets, liabilities and owners' equity. The information is used by FCC staff to regulate and monitor the telephone industry and by the public to analyze the industry.

OMB Number: 3060-0166.

Title: Part 42 Preservation of Records of Communications Common Carriers.

Action: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Frequency of Response: On occasion.
Estimated Annual Burden: 68 responses; 2 hours burden per response; 136 hours total annual burden.

Needs and Uses: Part 42 of the Commission's Rules prescribes guidelines to ensure that carriers maintain the records needed by the FCC for its regulatory obligations. Section 42.4 requires carriers to maintain at its operating company headquarters a master index of the records identifying the records retained. Carriers must explain, by adding a certified statement to the index, the premature loss or destruction of records pursuant to Section 42.4. Section 42.6 requires the retention of telephone toll records for 18 months providing the following billing information about telephone toll calls: the name, address, and telephone number of the caller, telephone number called, date, time and length of the call. Pursuant to Section 42.7 carriers are allowed to establish their own retention periods, except for the case of telephone toll records and records relevant to complaint proceedings.

OMB Number: 3060-0504.

Title: Section 90.658 Loading data required for base station licensees of trunked specialized mobile radio systems to acquire additional channels.

Form No.: N/A.

Action: Extension of a currently approved collection.

Respondents: Business or other for-profit; Not-for-Profit Institutions; State, Local or Tribal Government.

Frequency of Response: On occasion
Estimated Annual Burden: 1,909 responses; 30 minutes burden per response; 955 hours total annual burden.

Needs and Uses: Section 90.658 requires licensees of trunked Specialized Mobile Radio (SMR) Systems to submit information regarding the number of mobile units served by each base station when applying for additional channels to

expand an existing system, or to renew a trunked SMR System licensed in a waiting list area before June 1, 1993. The Commission licensing personnel use the information to ensure that licensees of trunked SMR Systems that apply for additional spectrum or renew certain licenses have satisfied the FCC loading requirements.

OMB Number: 3060-0024.

Title: Section 76.12 Special

Temporary Authority.

Form No.: N/A.

Action: Extension of a currently approved collection.

Respondents: Businesses or other for-profit

Frequency of Response: On occasion
Estimated Annual Burden: 1 response; 3 hours burden per response; 3 hours total annual burden.

Needs and Uses: Section 76.12 states that a system community unit shall be authorized to commence operation only after filing a registration statement with the Commission. Section 76.12 states that in circumstances requiring the temporary use of community units for operations not authorized by the Commission's rules, a cable television system may request temporary authorization to operate. The Commission may grant temporary authority upon finding that the public interest would be served. The data is used by Commission staff to ensure that a grant of special temporary authority will not cause interference with other stations.

Mass Media Bureau

Assignment and Transfer Backlog Reduction and New Speed of Service Initiatives

The Mass Media Bureau has instituted a plan to eliminate the existing backlog of contested assignment and transfer applications and to reduce, to the maximum extent possible, the time between the filing of new assignment and transfer applications and action on such applications. Additionally, the Bureau is exploring improved procedural techniques to expedite review of all applications filed with it.

Backlog Reduction Effort

Under the sales backlog reduction plan the Bureau will:

- Maintain its current speed of service for all routine assignment and transfer applications (*i.e.*, applications
