

408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemptions does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transactional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application are true and complete and accurately describe all material terms of the transaction which is the subject of the exemption. In the case of continuing exemption transactions, if any of the material facts or representations described in the application change after the exemption is granted, the exemption will cease to apply as of the date of such change. In the event of any such change, application for a new exemption may be made to the Department.

Signed at Washington, D.C., this 21st day of June, 1995.

**Ivan Strasfeld,**

*Director of Exemption Determinations,  
Pension and Welfare Benefits Administration,  
U.S. Department of Labor.*

## NATIONAL SCIENCE FOUNDATION

### Collection of Information Submitted for OMB Review

In accordance with the Paperwork Reduction Act and OMB Guidelines, the National Science Foundation is posting an expedited notice of information collection that will affect the public. Interested persons are invited to submit comments by July 24, 1995. Copies of

materials may be obtained at the NSF address or telephone number shown below.

(A) *Agency Clearance Officer.* Herman G. Fleming, Division of Contracts, Policy and Oversight, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230, or by telephone (703) 306-1243. Comments may also be submitted to:

(B) *OMB Desk Office.* Office of Information and Regulatory Affairs, ATTN: Jonathan Winer, Desk Officer, OMB, 722 Jackson Place, Room 3208, NEOB, Washington, DC 20503.

*Title:* Evaluation of the Instrumentation and Laboratory Improvement Program.

*Affected Public:* Not for Profit institutions.

*Respondents/Reporting Burden:* 1,500 respondents; average 38 minutes per response.

*Abstract:* This study will evaluate NSF's Instrumentation and Laboratory Improvement Program in the years 1988-1994. It will document and evaluate the scope and coverage of the program during this period and will assess its impacts on affected students, faculty, and institutions.

Dated: June 20, 1995.

**Herman G. Fleming,**

*Reports Clearance Officer.*

BILLING CODE 7555-01-M

## NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8027]

### Sequoyah Fuels Corporation Facility in Gore, OK; Information Meeting

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of public meeting.

Information Meeting on the Remediation of Sequoyah Fuels Corporation Facility in Gore, Oklahoma.

**SUMMARY:** This notice is to inform the public of a meeting to share information related to the current status of and proposed decommissioning options for the Sequoyah Fuels Corporation (SFC) facility near Gore, OK. Interested individuals are invited to attend this meeting scheduled for June 27, 1995, at the Vian High School Auditorium. The purpose of the meeting is to bring together members of the U.S. Nuclear Regulatory Commission, U.S. Environmental Protection Agency (EPA) Region VI, SFC representatives, representatives from other Federal agencies, State officials, local officials,

Cherokee Nation, and citizen groups to share information related to current and future actions at the SFC facility.

**BACKGROUND:** The Sequoyah Fuels facility is located in Sequoyah County, approximately 2 miles southeast of Gore, Oklahoma, above the Arkansas and Illinois Rivers. From 1970 through 1992, the SFC facility was used to convert uranium oxide (yellow cake) to uranium hexafluoride (UF<sub>6</sub>) and from 1987 through 1993 to convert depleted UF<sub>6</sub> to depleted uranium tetrafluoride. In 1993, SFC ceased operations and submitted to NRC a preliminary plan that described a proposed remediation plan of the site.

During the operational period, radioactive materials generated at the Sequoyah Fuels facilities were disposed of on-site in accordance with the former 10 CFR 20.304, chemical and radioactively contaminated materials were transferred to on site ponds, and sludge and other process materials were disposed of by burial on-site. One remediation alternative under consideration by the licensee is an on-site disposal cell based on the criteria used at uranium mill tailings sites (10 CFR Part 40, Appendix A). SFC (the licensee) will be required to meet the NRC's decommissioning criteria, as described the Site Decommissioning Management Plan Action Plan (57 FR 13389, dated April 16, 1992) or the final requirements to be established through Enhanced Participatory Rulemaking (proposed rule published on August 22, 1994 [59 FR 43200]).

In 1990 and 1991, the licensee conducted characterization of the areas in the vicinity of the main process and solvent extraction buildings and the ponds. Results of this characterization effort are documented in the "Facility Environmental Investigation Findings Report" that was issued in July 1991. The licensee is currently performing characterization activities for the remainder of the site and will submit a Resource Conservation and Recovery Act Facility Investigation Report to EPA in December 1995, and a Site Characterization Report (SCR) to NRC in January 1996.

**CONDUCT OF MEETING:** NRC will conduct the first in a series of meetings on June 27, 1995, in the Vian High School Auditorium, 100 School St., Vian, OK (Exit 297 North from I-40). The meeting will begin at 7:00 p.m. and will end at 10:00 p.m. The meeting will be facilitated by F.X. Cameron, Special Counsel for Public Liaison at NRC. The purpose of this meeting is to share, with representative stakeholders and the public, information about the status of
