

DATES: Comments must be submitted on or before July 26, 1995.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, please refer to EPA ICR #0941.05.

SUPPLEMENTARY INFORMATION:

Office of Research and Development

Title: Application for Quality Control Sample (QC) Request Form (OMB No. 2080-0016; EPA ICR No. 0941.05).

Abstract: This ICR is an extension of an existing information collection request to continue the use of EPA's QC Sample Request Form, a form that is used by laboratories to request biological, microbiological, and selected chemical samples from USEPA's QC Program. The requirements for QC sampling are set forth at 40 CFR Parts 136, 141, and 142 and described in EPA's *Manual for Certification of Laboratories Analyzing Public Drinking Water Supplies*.

Laboratories requesting chemical, biological or other reference samples from the EPA must complete the one page QC form that includes: (1) identification (name, address of laboratory) information, and (2) a check list of samples that are available from EPA. EPA will enter completed request forms into their automated system, prepare the samples, attach computer generated labels to these samples and send the samples to the requesting laboratory. The samples provided by EPA used by laboratories to evaluate their own data, validate their methods, and evaluate instruments and standards used in the laboratory.

Burden Statement: Public reporting burden for this collection of information is estimated to average 10 minutes per response, including the time for completing and reviewing the collection of information, and submitting the information to the EPA.

Respondents: State, local or private laboratories that perform drinking water testing.

Estimated Number of Respondents: 1,000.

Frequency of Collection: On occasion.
Estimated Number of Responses per Respondent: 4.

Estimated Total Annual Burden on Respondents: 600 hours.

Send comments regarding the burden estimate, or any other aspect of this collection of information, including suggestions for reducing the burden, (please refer to EPA ICR #0941.05 and OMB #2080-0016):

Sandy Farmer, EPA ICR #941.05, U.S. Environmental Protection Agency, Regulatory Information Division (2136), 401 M Street, SW., Washington, DC 20460.

42 U.S.C. Section 122(g) Proposed Settlement of Administrative Order on Consent

AGENCY: U.S. Environmental Protection Agency (U.S. EPA).

ACTION: Proposed *de minimis* settlement.

SUMMARY: U.S. EPA is proposing to settle a claim under Section 122 of CERCLA with a *de minimis* potentially responsible party for past costs and costs that will be incurred during removal activities at the Lead Battery Recycler site in Toledo, Lucas County, Ohio. The Respondent has agreed to pay a total of \$78,624.99. The money will be used to reimburse the U.S. EPA for past costs and oversight costs which will be incurred during removal actions to be taken at the site. This action is being taken to settle all liability related to the Lead Battery Recycler site with this Respondent pursuant to the intent of Section 122(g) of CERCLA, as amended.

DATES: Comments on this proposed settlement must be received by no later than July 26, 1995.

ADDRESSES: A copy of the proposed settlement is available at the following address for review: (It is recommended that you telephone Richard Clarizio at (312) 886-0559, before visiting the Region V Office.) U.S. Environmental Protection Agency, Region V, Office of Superfund, Emergency and Enforcement Response Branch, 77 West Jackson Boulevard, Chicago, Illinois 60604-3590.

Comments on the proposed settlement should be addressed to: (Please submit an original and three copies, if possible.) Richard Clarizio, Assistant Regional Counsel, Office of Regional Counsel, U.S. Environmental Protection Agency, Region V, 77 West Jackson Boulevard (CS-29A), Chicago, Illinois 60604-3590 (312) 886-0559.

FOR FURTHER INFORMATION CONTACT: Richard Clarizio, Office of Regional Counsel, at (312) 886-0559.

SUPPLEMENTARY INFORMATION: From 1981 to 1983, Detroit Lead Recyclers, a partnership doing business as Battery Recyclers of Detroit and Battery Recyclers of Toledo, operated the 2.75 acre site as a battery recycling facility. The site is located at 5715 Angola Road, Toledo, Lucas County, Ohio, in a mixed residential/industrial area. While in operation, the Lead Battery Recycler site received batteries from numerous locations and companies for recycling. The facility has been closed since 1983.

The Respondent, Dallas and Mavis Forwarding Co., Inc. arranged for disposal of spent batteries at the Lead Battery Recycler site. The Respondent's share of the waste delivered to the site is believed not to exceed 1.0% of the total waste delivered to the site. A similar settlement agreement for four other *de minimis* responsible parties was noticed in the **Federal Register** on August 24, 1994.

A 30-day period, beginning on the date of publication of today's notice, is open pursuant to Section 122(i) of CERCLA for comments on the proposed settlement with this Respondent.

William E. Munro,

Director, Waste Management Division, U.S. Environmental Protection Agency, Region V.

Receipt of Request from Rhone-Poulenc for Waiver from Testing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of receipt of request for waiver from testing.

SUMMARY: Regulations issued by EPA under section 4 of the Toxic Substances Control Act require that specified chemical substances be tested to determine if they are contaminated with halogenated dibenzo-*p*-dioxins (HDDs) or halogenated dibenzofurans (HDFs), and that results be reported to EPA. However, provisions have been made for exclusion and waiver from these requirements if an appropriate application is submitted to EPA and is approved. EPA has received a request for a waiver from these requirements from Rhone-Poulenc and will accept comments on this request. EPA will publish another **Federal Register** notice announcing its decisions on this request.

DATES: Submit written comments on or before July 11, 1995.

ADDRESS: Submit written comments in triplicate, identified with the document
