

to support observations made in examination reports.

- The ability over time of a State banking department to achieve examination objectives. At a minimum, the Federal banking agencies will consider the adequacy of State budgeting, examiner staffing and training, and the overall review and follow-up examination process of a State banking department. Accreditation of a State banking department by the Conference of State Bank Supervisors is among the factors that also will be considered.

- The adequacy of any formal or informal arrangement or working agreement between a State banking department and a Federal banking agency.

The Federal banking agencies, as part of their routine review of State examination reports, will assess the quality and scope of the reports to determine whether they continue to meet the above general criteria. The Federal banking agencies retain the option in cases in which a State examination report appears insufficient or the condition of an insured institution, as indicated in the examination report or other sources, appears to be seriously deteriorating, to conduct a follow-up examination.

The appropriate Federal banking agency and State banking department will continue to share, discuss and work to resolve any problems or concerns regarding the acceptability of each other's work or the operation of these guidelines and the alternating examination program, as well as other issues of mutual interest.

Dated: June 22, 1995.

Joe M. Cleaver,

Executive Secretary/Federal Financial Institutions Examination Council.
