Cooperative Agreements with Commercial Firms

AGENCY: Office of Procurement, Contract Management Division, National Aeronautics and Space Administration.

ACTION: Proposed rule.

SUMMARY: Current NASA regulations at 14 CFR part 1260 describe the use of cooperative agreements with educational institutions and non-profit organizations. The proposed regulation will establish the requirements for cooperative agreements with commercial firms.

DATES: Comments are due on or before August 28, 1995.

ADDRESSES: Headquarters, NASA, Washington, DC 20546, ATTN: CODE HK/MR. T. Deback. Comments on the paperwork burden should also be addressed to the Office of Information and Regulatory Affairs, Attention: Desk Officer for NASA, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Mr. T. Deback, (202) 358–0431.

SUPPLEMENTARY INFORMATION:

Background

As a result of the National Performance Review, participation in

ARPA’s Technology Reinvestment Program, the High Performance Computing Initiative, and a strong sense within NASA that cooperative agreements with industry are an appropriate way to carry out certain assistance type activities, use of cooperative agreements is being increased. As part of this increase, cooperative agreements with industry are being utilized for the first time.

Regulatory Flexibility Act

NASA certifies that this regulation will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Paperwork Reduction Act

The information collection requirements in this proposed rule have been submitted to the Office of Management and Budget for review under 44 U.S.C. 3504(h). NASA requires certain reporting and recordkeeping of commercial firms in order to determine eligibility for selection and compliance with the provisions of the cooperative agreements. The estimated total annual reporting and recordkeeping burden is 6680 hours. The estimated average burden hours per response is 6 hours. The rule proposes annual reporting for patents, property, and technical results. Other reports are required at the conclusion of the agreement or the occurrence of other events. The estimated number of likely respondents is 175 firms submitting proposals per year resulting in the award of 50 cooperative agreements per year.
