

## DEPARTMENT OF DEFENSE

## 48 CFR Parts 211, 227, and 252

[Defense Acquisition Circular (DAC) 91-8]

## Defense Federal Acquisition Regulation Supplement; Rights in Technical Data

AGENCY: Department of Defense (DoD).

ACTION: Final rule.

**SUMMARY:** A proposed rule prescribing the final technical data regulations required by 10 U.S.C. 2320, Rights in Technical Data, was published in the **Federal Register** on June 20, 1994. Public comments were solicited. This final rule amends the Defense Federal Acquisition Regulation Supplement to prescribe those regulations. It includes changes to the proposed rule necessitated by the Federal Acquisition Streamlining Act of 1994 and changes made in response to public comments.

**DATES:** *Effective Date:* This rule is effective June 30, 1995.

*Applicability Date:* This rule is applicable for solicitations issued on or after September 29, 1995.

**FOR FURTHER INFORMATION CONTACT:** Ms. Angelena Moy, OUSD(A&T)DDP/MPI, Room 3E144, The Pentagon, Washington, DC 20301-3060, Telephone 703-604-5875. Please cite DAR Case 91-312.

## SUPPLEMENTARY INFORMATION:

## A. Background

A total of 286 comments were received from 43 commentors. Each comment was analyzed and, in some cases, the comments are incorporated in this final rule. Approximately 75% of the comments fell into fourteen general topic areas. The analysis and disposition of those comments, and a description of other changes made as a result of law or public comment, follow (Note: The DFARS subparts numbered as 227.4 and 227.5 in the proposed rule published on June 20, 1994, have been renumbered to 227.71 and 227.72, respectively, in this final rule):

## 1. Government Purpose/Government Purpose Rights

Forty comments address these topics.

## (a) Government Purpose

Several commentors suggested narrowing the definition of government purposes to U.S. Government contracts. One suggested expanding the definition to include the acquisition of replenishment parts, repair, and maintenance by third parties. These changes are not adopted. A more narrow

definition of government purpose ignores U.S. Government international responsibilities and foreign government or international organization development contributions made under cooperative agreements. The suggested expanded definition inappropriately converts third party commercial transactions to government purposes.

## (b) Government Purpose Rights

(i) *Time period.* Some commentors suggested the five year exclusivity period is too short, should be measured from contract or subcontract payment, closure, or completion rather than award, and there is no need for the government to obtain unlimited rights in mixed funded data upon expiration of the exclusivity period. One commentor suggested the final rule should require negotiations in mixed funded situations. Those comments are not adopted. As several commentors observed, the five year exclusivity period is not mandatory. Paragraphs 227.7103-5(b) and 227.7203-5(b) identify that period as a nominal period and describe the circumstances under which longer periods should be negotiated. A limited exclusivity period balances the private and public development contributions by providing the private developer the sole opportunity to use the data for commercial purposes for a private developer the sole opportunity to use the data for commercial purposes for a specified time while assuring that all persons will have the opportunity to use the data for commercial purposes within a reasonable time.

(ii) *Extent of development contribution.* Several commentors observed that a contractor could restrict the availability of data for commercial purposes by making a minimal development contribution. Some suggested requiring a 50% contractor contribution as the basis for a government purpose rights license. Conversely, one commentor observed that an insignificant government contribution would enable the government to obtain a government purpose rights license in an otherwise private expense development. A commentor proposed an incentive formula which would link the period of a government purpose rights license to the funding contributed by the developer. These comments are not accepted. Generally, the Government will obtain a government purpose license when the private and government development contributions cannot be segregated (when costs are segregable, the developer may provide data or software developed exclusively

at private expense with appropriate restrictions). It would be unnecessarily burdensome and extremely impracticable to attempt to measure the exact contribution by each party when development costs cannot be segregated. The suggested incentive formula raises similar problems. Each government purpose rights license must display an expiration date after which any applicable restrictions do not apply. That marking must appear on the data or software when they are delivered. But, late charges or other accounting corrections reported after data delivery might change the expiration date derived by the proposed formula resulting in copies of the same data marked with different expiration dates.

## 2. Indirect Cost Treatment

Twenty-four comments addressed this topic. Several commentors expressed concern that developers will use creative techniques, manipulate accounting systems, or find "loopholes" to restrict the Government's ability to make technical data available for procurement purposes. Such cost accounting practices would be inconsistent with the cost principles in FAR Part 31 and the cost accounting standards in FAR Appendix B. Therefore, the proposed regulations have not been changed to accommodate those concerns. Two commentors suggested that developers might restrict the Government's rights in data and, consequently, the amount of data available to the developers' potential competitors, by charging manufacturing and production engineering costs to indirect cost accounts. Manufacturing and production engineering costs that can be identified with a particular final cost objective are direct costs and cannot be allocated to indirect cost accounts. Although FAR 31.202 permits an exception for a direct cost of minor dollar amount, that exception must be consistently applied to all final cost objectives and produce substantially the same result as treating the cost as a direct cost.

A commentor suggests all contracts have indirect cost allocations and, consequently, the Government's rights in data will be affected. The comment overlooks the fact that the definition of "developed at private expense" deals only with development costs. The allocation of officers' salaries, guard services, employee benefits, or similar expenses will not affect the allocation of data rights.

Another commentor suggests establishing a government participation threshold. Indirect development costs (excluding independent research and

development and bid or proposal costs) charged in excess of the threshold would be considered mixed funding. The suggestion is not practicable. There is no basis for equitably estimating the government participation threshold prior to contract award. Burdensome accounting and audit surveillance procedures would be required to determine which item or items, and consequently data rights, were affected by the over threshold contribution.

### 3. Commercial Items

Twenty-two comments addressed this topic. A commentator suggests the proposed "Technical Data—Commercial Items" clause (252.227–7015) limits the data that DoD can acquire for commercial items and presumes that commercial items were developed at private expense. The clause in the proposed rule did neither but has been modified to provide that presumption as required by the Federal Acquisition Streamlining Act of 1994.

A commentator suggests modifying the clause to permit disclosure of commercial data to third parties so that those persons might operate or maintain the commercial item and contends that 227.7102–1(a)(1) prohibits DoD from acquiring technical data needed for rework and spare parts replacement. The suggestion and comment are not adopted. Paragraph 227.7102–1(a)(1) does not prohibit the acquisition of rework data. Disclosure to third parties might jeopardize a contractor's financial interest in its product and, therefore, is inconsistent with DoD policy to encourage contractors to offer commercial products to satisfy DoD requirements. However, DoD may negotiate to acquire the rights to do so under 252.227–7015(c). The commentator also suggests the definition of commercial items is too broad. The definition of commercial items has been modified to reflect the definition contained in the Federal Acquisition Streamlining Act of 1994. Several commentators suggest modifying 227.7102 to clarify that the restrictions in paragraph 227.7102–2(a) do not apply when the Government's data rights are not restricted. They also suggest modifying 252.227–7015(b)(1) to conform with 10 U.S.C. 2320 which does not permit a contractor to restrict the Government's rights in data necessary for operation, maintenance, installation, or training. The suggestions are adopted.

One commentator suggests the license rights granted the Government by the clause at 252.227–7015 are inconsistent with those granted to commercial customers. The suggestion is not

adopted. Rights under that clause are consistent with 10 U.S.C. 2320.

A commentator suggests substituting "written" for "express" in 227.7102–2(a) to provide a substantive record. The suggestion is adopted. The commentator's suggestion to conform the last sentence in 227.7102–2(b) with corresponding language in the clause at 252.227–7015 is partially adopted. That commentator's suggestions to: (i) add a new paragraph 227.7102–2(c) to require contractors subject to the clause at 252.227–7013 to use the clause at 252.227–7015 in its contracts with subcontractors or suppliers furnishing technical data for commercial items is partially adopted by modifying 252.227–7013(k); (ii) include "components" in 227.7102–3 and make editorial changes to 252.227–7015(a)(1) and (b)(1)(i) are adopted; (iii) expand the restriction in 252.227–7015(b)(2)(i) is partially adopted; (iv) limit form, fit, and function data to data describing the commercial end unit is inconsistent with the commentator's suggestion to include "components" in 227.7102–3 and consequently not adopted; (v) require written permission prior to a release, disclosure, or authorized use of technical data for emergency repair or overhaul is not adopted because it is impracticable in emergency situations; and, (vi) delete 252.227–7015(c) is not adopted because the paragraph, which permits the parties to negotiate suitable license rights, is consistent with commercial practice.

### 4. Markings

Eighteen comments addressed this topic. Several commentators suggested that the marking provisions at 252.227–7013 and 252.227–7014 are mandatory, overly complex, and burdensome. One commentator recommended replacing the prescribed markings with a single, simplified marking that would appear only on the "first page of the technical data or computer software." Other commentators also questioned the need to mark the portions of a page of printed material containing technical data or computer software for which restrictions are asserted.

Marking is not mandatory but contractors must mark when they desire to restrict the Government's rights to use, modify, reproduce, release, perform, display, or disclose data or software. Such markings are commonly used in commercial practice to protect proprietary data or trade secrets. The suggested simplified marking, which would be placed only on the first page of printed material is not practicable because it would unnecessarily restrict release or disclosure of unrestricted

information submitted with the restricted information.

A commentator suggests the clause at 252.227–7014 will require commercial software manufacturers to place government markings on such software and 227.7203–10(c) will result in the Government's obtaining unlimited rights in unmarked commercial computer software. Neither the clause at 252.227–7014 nor paragraph 227.7203–10(c) apply to commercial computer software. However, if a contractor intends to satisfy a government requirement for noncommercial computer software with derivative software created by integrating commercial computer software with computer software developed with Government funds under a contract that contains the clause at 252.227–7014, the contractor might consider using a marking authorized by 252.227–7014, or a marking agreed to by the contracting officer, to protect its commercial interests in the derivative software.

One commentator suggests the requirement to mark each page of technical data deliverable with less than unlimited rights will reduce the amount of useful information that might be displayed on a page. Marking each page enhances protection of the contractor's data. That commentator also suggests that the prohibition on marking non-commercial computer software with legends that might interfere with or delay the operation of the software places the contractor in an untenable position regarding protection of its software rights. As expressed in 227.7203–10(b)(1), the prohibition was intended only for non-commercial computer software that will or might be used in combat situations or under conditions that simulate combat situations. Therefore, 252.227–701(f)(1) has been modified accordingly.

Two commentators suggest the marking procedures will be unworkable in digital environments. They also suggest that data might not be protected adequately in a digital environment because the markings might be extracted from the data or not seen by the user. Those comments are not accepted. However, 252.227–7013(f)(1) and 252.227–7014(f)(1) have been changed to clarify markings when such data are transmitted. Extractable markings are not unique to the digital environment and contractors have appropriate forums for redress if their data or software are improperly used, released, or disclosed.

A suggestion to add "subcontractor/supplier" to each legend is not adopted. The first sentence of 252.227–7013(f) clearly covers subcontractors and suppliers.

A commentator suggests changing the phrase "correction or cancel" in 252.227-7013(h)(1) to "correct or strike". That suggestion is adopted. The commentator's suggestion to modify that paragraph by providing the Government the unilateral right to correct or strike nonconforming markings when it is impracticable to return technical data to the contractor is not adopted. The Government has that right under (h)(1) for unjustified markings and (h)(2) for nonconforming markings.

A commentator suggests modifying 227.7103-12(a)(2) to require contracting officers to go through the validation process before striking a nonconforming marking. The suggestion is not adopted. The validation procedures in 252.227-7037 are intended to resolve questions concerning asserted restrictions. The nonconforming marking procedures address only the proper format for a marking.

A commentator's suggested editorial changes to 227.7103-10(b)(2) and 227.7203-10(b) are considered unnecessary.

#### 5. Competition

Sixteen comments addressed competition. Most did not comment on specific portions of the regulations. One commentator recommended retaining the 1988 interim rule. That recommendation is not adopted. One commentator suggests that 227.7103-1(e) conflicts with 227.7103-2(b)(1) and the Competition in Contracting Act (CICA). The suggestion is not adopted. The policy in 227.7103-1(e) expresses requirements under 10 U.S.C. 2305 for major weapon systems and generally protects private expense development. It does not conflict with either 227.7103-2(b)(1) or CICA.

#### 6. License Rights

Fifteen comments addressed license rights generally. A commentator suggests including "release" or "disclose" in 227.7102-2 is confusing because those terms were traditionally used in connection with persons outside the government. The context in which the terms are used is clear and changes are not necessary.

A commentator suggests requiring a written justification requiring approval at a level above the contracting officer if the Government wants to acquire rights not conveyed under licenses customarily provided to the public. The suggestion is not adopted. Existing procedures for determining the Government's needs are adequate.

A commentator suggests all technical data and computer software should be delivered under a license that provides

government purpose rights for 5 years after which the data or software would be available with unlimited, government purpose, limited, or restricted rights as applicable. The suggestion is inconsistent with statutory requirements and not adopted.

A commentator suggests the provisions permitting negotiated licenses might preclude award without discussions, reduce opportunities to use sealed bidding procedures, and extend acquisition lead times. The comments are not adopted. If the Government knows it will require nonstandard license rights it might not be in a position to use sealed bidding procedures. When using other contracting methods, award without discussions is not precluded if the Government's requirements are articulated in the solicitation and responsive offers are received from responsible offerors.

A commentator suggests the basis for allocating data rights is acceptable if it is clear that government rights are conveyed by a license granted by the data creator. No change is required.

A commentator suggests that, although not improper, permitting third parties to have access to and modify noncommercial computer software will act as a disincentive to the private development of software intended only for the Government. The comment is not adopted. The clause at 252.227-7014 permits the Government, in a narrow range of circumstances and subject to considerable constraints, to have support service contractors modify computer software delivered with restricted rights. Two of the permitted circumstances deal with military exigencies. The other two circumstances reflect maintenance needs when the Government's rights are restricted in only a portion of the deliverable software.

A commentator suggests two changes to 227.7103-5(d)(1) that are intended to clarify the role of subcontractors when special license rights are negotiated and a change to 227.7103-5(d)(2) to identify the negotiation of long term procurement spare parts pricing agreements as an alternative to negotiating for additional rights in limited rights data. The clarifications are not necessary. The term "contractor" is defined to include subcontractors and suppliers at any tier and 227.7103-5 and the clause at 252.227-7013 make it clear that the prime contractor might not be the data owner or licensor. The suggested change to 227.7103-5(d)(2) is inconsistent with the circumstances under which negotiations for additional rights are permitted. The commentator

also suggests modifying 252.227-7013(b)(4) to clarify the role of subcontractors when negotiating special license rights. For the reasons discussed above, the comment is not adopted.

A commentator suggests modifying 227.7103-4(a)(1) to include the full listing of government rights. The modification is not necessary. The commentator also suggests expanding 227.7103-4(a)(2) to match the scope of 252.227-7013(b)(1)(ii) and (iii). The suggestion is not adopted. The situation covered in 252.227-7013(b)(1)(ii) is addressed in 227.7103-4(a)(1). The example in 227.7103-4(a)(2) applies to 252.227-7013(b)(1)(iii) only.

#### 7. Elimination of the "Required for Performance Criterion"

Fourteen comments addressed elimination of the required for performance criterion. DoD's 1988 regulations grant the Government unlimited rights in technical data pertaining to items, components, or processes developed at private expense if development was required for the performance of a government contract or subcontract. Seven commentators, submitted essentially identical comments suggesting that data resulting from development of a defense end product should not be the property of an original equipment manufacturer. Two commentators suggest eliminating the required for performance criterion will result in less data available without restrictions. In a similar comment, a commentator suggests that eliminating the "required for performance" criterion will reduce competition. Four comments were received from the American Bar Association, the Council of Government Relations, the Integrated Dual-Use Commercial companies, and a large manufacturer supporting the policies contained in the proposed rule. The suggestions to retain the criterion are not adopted. DoD believes that the criterion should be eliminated to protect private expense development, encourage developers of new technologies or products, many of whom are small businesses, to offer their products to the Government, encourage dual use development, and balance the interests of data users and data developers.

#### 8. Computer Software

Thirteen comments addressed computer software. Three commentators suggest the definition of "commercial computer software" is too broad. One also suggests that the definition's broad scope will make it difficult to understand and interpret and contractors will be able to restrict the

Government's rights in software developed exclusively at Government expense by satisfying one of the criteria that define commercial computer software. Those suggestions are not adopted. The definition of commercial computer software has been modified to reflect requirements in the Federal Acquisition Streamlining Act of 1994. The Government will not lose rights obtained in software developed at government expense if that software subsequently qualifies as commercial computer software. That situation is covered by 252.227-7014(b)(5) and (c).

Two commentors suggest GSA should amend its rules to permit these regulations to apply to DoD procurements under GSA schedule contracts. That suggestion cannot be accommodated in these DoD specific regulations.

Two commentors suggest the criterion for determining whether software is commercial should be the source of development funds rather than the market for which the software was developed. That suggestion is not consistent with the thrust of the Federal Acquisition Streamlining Act of 1994.

A commentor suggests there may be a conflict between the definition of commercial computer software, which might include software developed with Government funds, and the policy in 227.7202-1(a) to acquire commercial computer software and documentation under the licenses customarily provided to the public. If Government funds are used to develop software or documentation, the development contract will determine the Government's rights in that software or documentation. Those rights are protected if the software subsequently qualifies as commercial software. The commentor expresses concern that when both commercial and noncommercial software are deliverable under a contract, the requirements in 252.227-7014 will be applied to the commercial software. That result is not intended. The clause title, "Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation", clearly indicates that the clause is not applicable to commercial software or documentation. The commentor's suggestion to define commercial computer software documentation in terms of development at private expense is unnecessary and not adopted. The commentor also suggests modifying 227.7202-1(c)(1) to limit the paragraph's scope to modifications made at Government expense. The suggestion is partially adopted and a corresponding change made to 227.7102-1(a)(3). The

commentor observes that throughout 227.7203 the terms computer software and computer software documentation are used without the modifier "noncommercial." Generally, the modifier is not necessary because that paragraph only applies to noncommercial software or documentation. Where it is used, it is intended to provide additional, specific emphasis.

Two commentors suggest it might be inappropriate for the Government to obtain unlimited rights in all noncommercial computer software documentation required to be delivered under a contract. Computer software documentation is technical data. It is defined narrowly to include only owner's manuals, user's manuals, installation instructions, operating instructions, and similar items that explain the capabilities of computer software or provide instructions for using the software. Such data is necessary for operation, maintenance, installation, or training. Consequently, under 10 U.S.C. 2320, a contractor may not restrict the Government's rights to release or disclose such data or to permit others to use the data.

A commentor states that the definition of restricted rights in 252.227-7014(a)(14)(i) might not provide sufficient latitude to use software programs in military situations such as "the engine control aboard a fleet of aircraft." When the Government has a requirement to time share a program or have the program accessed by more than one terminal or central processing unit at a time, the requirement must be identified in the acquisition contract to permit proper program design and pricing. Therefore, the comment is not adopted.

A commentor suggests revising the definition of computer software in 252.211-7012 and 252.227-7013 by substituting "computer program" for "software" in the phrase "...and related material that would enable the software to be reproduced, recreated, or recompiled." The suggestion is not adopted. Computer programs are not the only software that can be reproduced, recreated, or recompiled.

#### 9. Identification of Asserted Restrictions

Twelve comments dealt with this topic. A commentor suggests modifying 252.227-7013(e) to make it clear that a failure to identify data that will be delivered with restricted rights does not prevent a contractor from asserting restrictions relevant to that data and contracting officers should be required to add data items to the list of data in which restrictions are asserted until the

Government has successfully challenged an assertion. Another contractor also suggested the mandatory listing of subsequent assertions. The suggestions are not adopted. The paragraph prevents delivery of such data but does not affect a contractor's right to assert restrictions. The constraints in 252.227-7013(e) are intended to discourage deliberate commissions that might affect source selection decisions.

A commentor suggests not requiring an identification of the item, component, or process. The suggestion is not adopted because the source of funds used to develop an item, component, or process generally determines whether a contractor may assert restrictions on the Government's rights in the data pertaining to the items, components, or processes.

A commentor suggests deleting the statement in 227.7103-10(a)(5) that information provided in response to the provision at 252.227-7017 may be used in the source selection processes because it is inconsistent with the portions of the regulation prohibiting the Government from requiring contractors to relinquish data rights in order to obtain a contract and modifying the solicitation provision accordingly. Another commentor suggested modifying 252.227-7013(e)(3) because the source selection constraint is inconsistent with 10 U.S.C. 2320(a)(2)(F). Those suggestions are not adopted. Considering data rights during the source selection process is neither inconsistent with the policy expressed in the regulations nor the requirements of 10 U.S.C. 2320(a).

A commentor suggested editorial changes in the format of the Attachment including a statement that the explanatory notes need not be repeated on the attachment. The suggestions are not adopted. Paragraph (e)(3) requires only an identification of the technical data.

A commentor suggests modifying 252.227-7017(b) by replacing "notification and identification" with "identification and assertion." The suggestion is adopted. The commentor also suggests adding the phrase "and after request by the contracting officer" following the word "offer" in 252.227-7017(e) and adding a new paragraph at the end of 252.227-7017 that would provide for post award assertions. The suggestions are not adopted. The addition to 252.227-7017(e) is not necessary and post award assertions are addressed in the clause at 252.227-7013.

### 10. Unlimited Rights

Eleven comments dealt with this topic. A commentator suggests the Government have unlimited rights in technical data only when work was exclusively funded with direct Government contract funds. The suggestion is inconsistent with 10 U.S.C. 2320 and not adopted.

A commentator suggests that the term "publicly available" in 252.227-7014(b)(1)(iv) and 227.7203-5(a)(4) might provide the Government unlimited rights in commercial computer software. The suggestion is not adopted. Those portions of the regulations only apply to non-commercial computer software.

A commentator expresses concern that 252.227-7013(b)(1)(ii) might provide the Government unlimited rights in third party material. The third party copyright owner is not required to grant a license. Paragraph 252.227-7013(d) prohibits the use of third party copyrighted data in deliverable technical data unless the contracting officer's approval to do so has been obtained and the contractor has obtained from the copyright owner a license of appropriate scope.

A commentator suggests expanding 227.7103-5(a)(3) to provide unlimited rights in all data created exclusively with government funds whether or not the contract requires development, manufacture, construction, or production of items, components, or processes. For technical data that pertain to items or processes, the suggestion is inconsistent with 10 U.S.C. 2320 and, consequently, not adopted.

A commentator suggests that government purpose rights convey all rights needed by the Government and unlimited rights should be eliminated because they have an adverse affect on businesses, including small businesses, that are data or software creators. The suggestion is not adopted. When the taxpayer exclusively funds development of an item or process, it is difficult to appreciate the suggested adverse affect on data or software creators.

A commentator suggests that there is no affirmative guidance encouraging contractors to commercialize technology it develops with federal funds. The contractor also suggests that when the Government has unlimited rights in technical data or computer software, the data or software might be lost to foreign competition. The suggestions are not adopted. Many other commentators observed that opportunities to commercialize federally funded technologies are maximized when the Government has unlimited rights in

technical data. The fact that data or software might be available, if otherwise properly releasable, to foreign governments, foreign nationals, or international organizations does not diminish domestic commercialization opportunities.

A commentator suggests modifying 227.7103-5(a)(2) and 252.227-7013(b)(1)(ii) to permit the Government to obtain unlimited rights in the identified data only when the data will be developed exclusively with Government funds. The suggestions are not adopted. Those paragraphs provide the Government unlimited rights in studies, analyses, test data, or similar data produced in the performance of a contract and specified as an element of performance. The "produced in" and "specified as" criteria clearly indicate that the Government intends to exclusively fund development of the data. The commentator suggests 227.7103-5(a)(3) and 227.7103-5(b)(1)(ii) are not clear because they convey rights based upon specific contractual situations. The suggestion is not adopted. Except for 227.7103-5(a)(1) and 227.7103(b)(1)(i), all other circumstances in which the Government will be granted unlimited or government purpose rights address specific situations or types of data. The commentator also recommends deleting 227.7103-5(a)(9). The recommendation is not adopted. When restrictions on the Government's rights have expired, the Government has unlimited rights in the data.

A commentator recommends changing 227.7103-4(b) to permit a contractor to assert limited rights in data that otherwise qualify for unlimited rights. The recommendation is not adopted. It is inconsistent with 10 U.S.C. 2320 and would result in unnecessary, burdensome, and costly data challenges.

### 11. Use and Non-disclosure Agreements

Ten comments were received in this area. A commentator suggests the indemnification liabilities under 252.227-7025 should be shifted from the contractor who has been provided the information to the third party who has improperly used, released, or disclosed the information. The suggestion is not adopted. The contractor faces similar liabilities in nongovernmental transactions.

A commentator suggests: (i) The requirement at 227.7103-5(b)(4)(i) to provide prior notification, other than in emergency situations, of an intended release or disclosure of its limited rights data is not necessary; (ii) the format prescribed at 227.7103-7(c) for non-disclosure agreements is not appropriate

for foreign governments; (iii) a contractor's permission should not be required to release or disclose limited rights data; (iv) deleting the requirements at 227.7103-16 and 227.7203-16 for foreign governments, foreign contractors, and international organizations to have executed a use and non-disclosure agreement containing the provisions included in 227.7103-7(c), and the requirements in 252.227-7013 satisfied, prior to a release or disclosure to a foreign entity; (v) it is impossible for contractors needing access to the major data bases to notify all persons asserting restrictions; (vi) in 227.7103-7(c)(8), the specific ending date for the non-disclosure agreement should be replaced with "at such time as the data are no longer required for the performance of work under the contract, the contract is completed or terminated, or access is terminated for cause."; and, (vii) the clause at 252.227-7025 should be expanded to require contractors to sign any non-disclosure agreement that is required by a Government agency. The suggestions are not adopted. The reasons are keyed to the comment number: (i) The Government, with two exceptions, is required by 10 U.S.C. 2320 to obtain a contractor's permission prior to releasing or disclosing the contractor's limited rights data. Except in emergency situations, there is no logical reason to not provide prior notification of an intended release of limited rights data; (ii) 227.7103-16 permits the use of the non-disclosure agreements with foreign governments, foreign contractors, or international organizations that are not in the prescribed format; (iii) The suggestion is inconsistent with 10 U.S.C. 2320; (iv) The suggested revisions to 227.7103-16(b) and 227.7203-16(b) do not adequately address constraints on the recipient regarding further release or disclosure of information in which the U.S. Government has limited rights in data or restricted rights in software; (v) Paragraph (a) of the prescribed non-disclosure agreement requires a contractor to specifically identify the data it needs. If the Government agrees to provide that data, it is listed in an attachment to the agreement. Therefore, the notification requirements in paragraphs (b) and (c) should not be difficult to comply with. Furthermore, information provided to the Government with asserted restrictions should not be included in a generally accessible database. Such data must be protected in accordance with 252.227-7013, 252.227-7014, and 252.227-7018; (vi) The prescribed non-disclosure

agreement is not limited to contracts but covers all requests for data or software in which restrictions have been asserted; and, (vii) The clause at 252.227-7025 addresses government furnished information that will be provided to a contractor for performance of a specific contract. These regulations should not address agency peculiar requirements or technical data that does not pertain to items, components, or processes developed for the U.S. Government.

A commentator suggests the requirement at 227.7103-7(c)(8) to destroy the data covered by a non-disclosure agreement does not provide adequate flexibility. The comment is not adopted. Destroying the data avoids packaging and shipping costs and significantly reduces the possibility of an inadvertent unauthorized release or disclosure.

A commentator suggests that the notification requirement in 227.7103-7(c)(1) gives the item manufacturer a competitive advantage by making the manufacturer aware of competitive requirements and its potential competitor's identity. The suggestion is not adopted. The notification requirement applies only to limited rights data. Such data cannot be used for competitive purposes without the owner's or licensor's permission.

A commentator suggests modifying 227.7103-7(c)(1)(b) by replacing "Contractor" with "owner of the data" and making the Government rather than the recipient responsible for notification. The suggestions are not adopted. The term "owner" does not include a licensor. As used in the agreement, 227.7103-7(c)(1)(a), the term "Contractor" refers to the person whose name appears on the restrictive legend. The recipient's notification supplements the Government's notification. It gives the person asserting limited rights additional information that person might need to monitor the subsequent use, release, or disclosure of its data.

### 12. Effect on Older Systems Through Upgrades

Eight commentators addressed this topic. Seven submitted essentially identical suggestions that the spare parts market might be affected because these regulations will apply to upgrades or enhancements of existing systems. One suggested that minor revisions to manufacturing processes charged as indirect expense would prevent alternate sources from competing. The suggestions are not adopted. Contractors are required to allocate expenses in a consistent manner. FAR 31.203(a) does not permit an indirect cost allocation

“\* \* \* if other costs incurred for the same purpose in like circumstances have been included as a direct cost of that or any other final cost objective.”

### 13. Policy

Nine comments addressed this topic. A commentator suggests modifying 227.7102-1(a) to permit the acquisition of the data and rights necessary to satisfy agency needs. The suggestion is not adopted. The concept is covered in 252.227-7015(c) and 227.7102-2(b). The commentator also suggests modifying 227.7103-1(e) to indicate that the Government may request a contractor to sell data rights. The suggestion is not adopted. The concept is addressed in 252.227-7013(b)(3)(iii), (b)(4), 227.7103-5, and 227.7103-5(d)(2).

A commentator suggests modifying 227.7103-1 and 227.7203-1 to encourage contractors to identify more cost efficient alternatives to the Government's proposed data rights requirements, require solicitations to include as much information regarding the Government's needs for technical data rights as is practicable, and require resolution of all requirements, restrictions, and limitations prior to contract award. Most of the suggestions are embodied in this final rule. If the Government needs data rights that differ from the standard license rights conveyed by the contract, it must negotiate for those rights. But, it often is impracticable to require a resolution of all restrictions on the Government's right prior to contract award. Most items, processes, or software will not be developed at that time and, consequently, rights in the pertinent technical data or computer software are not determinable completely. The justification and challenge process required by 10 U.S.C. 2321 will, in many cases, preclude an early resolution of restrictions.

Two commentators, in essentially identical comments, contend the requirement in 227.7103-1(b)(2) is vague and suggest an alternative. The suggestion is not adopted. The requirement is clear. But, procedures and specific criteria must vary to accommodate the particular contracting situation. Consequently, the regulations should not provide greater specificity.

A commentator suggests modifying 227.7103-1(e) because it believes the paragraph conflicts with 227.7103-2(b)(1) and adding "and associated life cycle costs" at the end of the first sentence in 227.7103-2(b)(1). The paragraphs do not conflict and the comment is not adopted. Proposals that would enable the Government to acquire competitively items identical to

items developed at private expense would entail significantly more detailed information than form, fit, or function data. Generally, form, fit, or function data will produce functionally equivalent but not identical items. The suggested additional language is not necessary. The concept is addressed within the paragraph. The commentator also suggests that these regulations do not address the Government's ability to evaluate data rights during the source selection process. The suggestion is not adopted. The concept is addressed at 227.7103-10(a)(5).

### 14. Validation of Asserted Restrictions

Eight comments addressed this topic. A commentator objects to the requirement to issue a contracting officer's final decision when an asserted restriction has been justified. Section 2321(f)(1) of Title 10 U.S.C. requires contracting officers to issue a decision when a contractor fails to submit a justification for an asserted restriction. Section (f)(2) requires a contracting officer's decision within sixty days following receipt of any submitted justification.

A commentator suggests modifying 227.7103-13(a) and 227.7203-13(a) to require contracting officers, when using provisioning procedures to acquire replenishment parts, to carefully examine during the challenge period the need to initiate challenge and validation procedures. The suggestion is not adopted. Adequate procedures are contained in 227.7103-13(c) and 227.7203-13(d).

A commentator's suggestions to modify 227.7103-13(c)(2)(i) by replacing the phrase "determine the validity of the assertion" with "ascertain the basis of the restrictive markings" and modify 227.7103-13(c)(2)(ii) by adding "any other available information pertaining to the validity of a restrictive marking" are adopted.

### 15. Typographical and Editorial Comments

A commentator identified several typographical errors and recommended some minor editorial changes. The typographical errors have been corrected and some of the editorial recommendations adopted. The recommended change to 227.7103-10(a) is not adopted because there might be more than one successful offer. The recommendation to reverse the order of the second and third sentences in 227.7103-12(a)(1) is not adopted. The existing second sentence conveys emphasis the recommendation lacks. The comment regarding the reference to 227.7103-13 within 227.7203-13(d)(2) ignores the fact that computer software

documentation is technical data. The reference is appropriate because technical data challenge and validation procedures are in 227.7103-13.

#### 16. Changes Required by Statute

##### (a) Subpart 227.71

The Federal Acquisition Streamlining Act of 1994 defines commercial items, modifies 10 U.S.C. 2320(b) to provide a presumption of development at private expense for commercial items, and adds a new subsection (f) to 10 U.S.C. 2321 that, under contracts for commercial items, requires a contracting officer to presume private expense development whether or not the contractor submits a justification in response to a challenge notice. The subsection also provides that challenges under contracts for commercial can be sustained only if information provided by the Department of Defense demonstrates that the item was not developed exclusively at private expense. The clause at 252.227-7037 has been modified accordingly and corresponding changes made to 227.7102-2.

##### (b) Subpart 211.70

A process action team has been formed to draft FAR implementation of the Federal Acquisition Streamlining Act's commercial products provisions. Therefore, the changes to Subpart 211.70 contemplated by the proposed rule, other than deletion of the DFARS 211 technical data provisions, will not be made.

#### B. Regulatory Flexibility Act

The Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* applies to this final rule and a Final Regulatory Flexibility Analysis has been performed. A copy of the Analysis may be obtained from Ms. Angelena Moy, OUSD(A&T)DDP/MPI, Room 3E144, The Pentagon, Washington, DC 20301-3060 (telephone 703-604-5875, facsimile 703-604-6709).

#### C. Paperwork Reduction Act

The Office of Management and Budget has approved the information collection requirements associated with Subparts 227.71 and 227.72 through September 30, 1995 (OMB Control Number 0704-0369).

Defense Acquisition Circular (DAC) 91-8 amends the Defense FAR Supplement (DFARS) 1991 edition. The amendments are summarized as follows:

##### Item I—Rights In Technical Data And Computer Software

This final rule revises the existing DFARS guidance on rights in technical data, and adds new guidance on rights

in computer software and computer software documentation. The following is a summary and explanation of the regulatory changes contained in this final rule.

#### 1. Rights in Technical Data

##### a. General

DFARS Subpart 227.4, Rights in Data and Copyrights, is deleted and replaced with Subpart 227.71, Rights in Technical Data. The Government's rights are identified as specific, non-exclusive license rights. All rights not granted the Government are retained by the contractor.

##### b. Commercial Items or Processes

(1) Section 227.7102 provides guidance on the acquisition of technical data pertaining to commercial items, components, or processes. For data rights purposes, the term "commercial item" is defined in the clause at 252.227-7015, Technical Data—Commercial Items. The definition is consistent with Section 8001 of the Federal Acquisition Streamlining Act of 1994 (Pub. L. 103-355), but specifically excludes computer software. Under 10 U.S.C. 2320, contractors may not restrict the Government's rights in certain technical data pertaining to items or processes developed at private expense. However, 10 U.S.C. 2320 does not apply to computer software. The modified definition of "commercial item" is intended to prevent misapplication of the technical data provisions to computer software.

(2) The clause at 252.227-7015 provides the Government specific license rights in technical data pertaining to commercial items, components, or processes. Generally, such data may be used, modified, reproduced, released, performed, displayed, or disclosed only within the Government, may not be used to manufacture additional quantities of the commercial items, and, except for emergency repair or overhaul, may not be released or disclosed to third parties without the contractor's written permission. In accordance with 10 U.S.C. 2320, these restrictions do not apply to publicly available data, form, fit, or function data, data necessary for operation, maintenance, installation, or training, or changes or corrections to Government-furnished data. The Government must negotiate to obtain additional license rights and may not require contractors to relinquish or provide additional rights except under mutually acceptable terms.

##### c. Noncommercial Items or Processes

(1) Section 227.7103 provides guidance on the acquisition of technical data pertaining to noncommercial items, components, or processes. Standard license rights (unlimited, government purpose, or limited rights) are based upon the source of development funds for the item, component, or process. When data are created during performance of a contract for a conceptual design or similar effort that does not require manufacture, construction, or production of items, components, or processes, the Government's license rights are determined by the source of funds used to create the data.

(2) When the standard license rights are not appropriate for a particular procurement, the parties can negotiate non-standard license rights. Rights in copyrighted material are contained within the data rights licenses. The final rule eliminates the requirement for the Government to obtain unlimited rights in technical data if development of the data was required for the performance of a Government contract or subcontract. The treatment of indirect costs is revised to identify all indirect development costs as private expenses. Other indirect costs do not affect the determination that an item, component, or process was developed at Government, private, or mixed expense. Technical data provided to the Government with restrictions on use, modification, reproduction, release, performance, display, or disclosure may not be released to other persons unless, prior to receipt, the recipient has completed a use and non-disclosure agreement or is a Government contractor receiving access to the data for performance of a Government contract that contains the clause at 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

#### 2. Rights in Computer Software and Computer Software Documentation

##### a. General

A new subpart is added at DFARS 227.72 to provide separate guidance for computer software and computer software documentation, notwithstanding that such documentation is considered technical data. The definition of "computer software documentation" is limited to manuals, instructions, and similar items. The definitions of "commercial computer software," "computer data base," "computer program," "computer software," and "computer software

documentation" are substantially different from those previously contained in DFARS Subpart 227.4, and the definition of "computer" is deleted.

**b. Commercial Computer Software and Computer Software Documentation**

The guidance at 227.7202 is intended to replicate commercial practice. Commercial computer software and commercial computer software documentation shall be acquired under the licenses customarily provided to the public unless such licenses are inconsistent with Federal procurement law or do not otherwise satisfy user needs. In those situations, contracting officers may negotiate licenses of an appropriate scope. However, offerors and contractors are not required to relinquish rights to the Government or provide the Government with rights to use, modify, reproduce, release, or disclose commercial software or documentation that is not customarily provided to the public unless a transfer of such rights is mutually agreed upon. A specific contract clause is not prescribed because the Government's rights will be specified in a license.

**c. Noncommercial Computer Software and Computer Software Documentation**

(1) The guidance at 227.7203 parallels the non-commercial technical data guidance at 227.7103. Any Government rights in software or documentation are license rights. The contractor or licensor retains all rights not granted to the Government. The scope of the Government's software license generally depends upon the source of funds used to develop the software. Standard license rights are unlimited rights (developed exclusively at Government expense), restricted rights (developed exclusively at private expense), and government purpose rights (mixed development). Computer software documentation is defined as manuals, operating instructions, and similar items. The Government's rights in such technical data may not be restricted under 10 U.S.C. 2320 regardless of the source of development funds. Therefore, documentation licenses generally provide unlimited rights. When the standard license rights are not appropriate for a particular procurement, special licenses can be negotiated.

(2) The clause at 252.227-7014 defines "developed" for computer programs, computer software, and computer software documentation; "minor modification"; and "noncommercial computer software." The definition of "restricted rights" is substantially revised. The link between

software and a particular computer is replaced with the common commercial practice of permitting a computer program to be used with one computer at a time. The Government is permitted to modify restricted rights software and, under certain conditions which include tactical situations and emergency repairs or overhauls, have contractors or subcontractors performing service contracts in support of a procurement use or modify the software. The third-party use and modification rights are intended to balance protection for privately developed portions of noncommercial software with the Government's need to use the software as a complete item for its intended purpose, particularly in military situations.

**3. Contracting for Commercial Items**

DFARS Subpart 211.70 is amended for consistency with the technical data requirements in Subparts 227.71 and 227.72.

**4. Solicitation Provisions and Contract Clauses**

New provisions/clauses are added at 252.227-7014, 252.227-7015, 252.227-7016, 252.227-7017, and 252.227-7025. Revisions are made in the provisions/clauses at 252.211-7021, 252.227-7013, 252.227-7018, 252.227-7019, 252.227-7020, 252.227-7028, and 252.227-7037. The following clauses are deleted: 252.211-7015, 252.211-7016, 252.211-7017, 252.227-7029, and 252.227-7031.

**List of Subjects in 48 CFR Parts 211, 227 and 252**

Government procurement.

**Michele P. Peterson,**

*Executive Editor, Defense Acquisition Regulations Council.*

**Amendments to 48 CFR Chapter 2 (Defense FAR Supplement)**

48 CFR Chapter 2 (the Defense FAR Supplement) is amended as set forth below.

1. The authority citation for 48 CFR Parts 211, 227, 252 is revised to read as follows:

**Authority:** 41 U.S.C. 421 and 48 CFR chapter 1.

**PART 211—ACQUISITION AND DISTRIBUTION OF COMMERCIAL PRODUCTS**

**211.7004-1 [Amended]**

2. Section 211.7004-1 is amended by removing and reserving paragraph (h); and by revising in paragraph (p)(2)(ii) in the title in the clause list under the clause number FAR 52.223-1 the word "Clear" to read "Clean."

**211.7004-6 [Amended]**

3. Section 211.7004-6(a)(3) is amended to revise the word "parts" to read "part."

**211.7005 [Amended]**

4. Section 211.7005 is amended by removing paragraph (a)(29) and by redesignating paragraphs (a)(30) through (a)(33) as paragraphs (a)(29) through (32), respectively; by revising in paragraph (b)(18) the name "Healy" to read "Healey;" by removing paragraphs (b)(34 and (35); by redesignating paragraphs (b)(36) through (51) as paragraphs (b)(34) through (49), respectively; by redesignating paragraphs (b)(52) through (54) as paragraphs (b)(51) through (53), respectively; by adding a new paragraph (b)(50); and by revising in paragraph (c)(6) the name "Healy" to read "Healey;" and by revising in paragraph (c)(10) the word "Clear" to read "Clean" to read as follows:

**211.7005 Contract clauses**

(a) \* \* \*

(b) \* \* \*

(50) 252.227-7015 Technical Data—

Commercial Items.

\* \* \* \* \*

**PART 227—PATENTS, DATA, AND COPYRIGHTS**

5. Subpart 227.4 is revised to read as follows:

**Subpart 227.4—Rights in Data and Copyrights**

227.400 Scope of subpart.

DoD activities shall use the guidance in subparts 227.71 and 227.72 instead of the guidance in FAR subpart 27.4.

6. Subpart 227.71 is added to read as follows:

**Subpart 227.71—Rights in Technical Data**

Sec.  
227.7100 Scope of subpart.  
227.7101 Definitions.  
227.7102 Commercial items, components, or processes.  
227.7102-1 Policy.  
227.7102-2 Rights in technical data.  
227.7102-3 Contract clause.  
227.7103 Noncommercial items or processes.  
227.7103-1 Policy.  
227.7103-2 Acquisition of technical data.  
227.7103-3 Early identification of technical data to be furnished to the Government with restrictions on use, reproduction or disclosure.  
227.7103-4 License rights.  
227.7103-5 Government rights.  
227.7103-6 Contract clauses.  
227.7103-7 Use and non-disclosure agreement.  
227.7103-8 Deferred delivery and deferred ordering of technical data.

- 227.7103-9 Copyright.
- 227.7103-10 Contractor identification and marking of technical data to be furnished with restrictive markings.
- 227.7103-11 Contractor procedures and records.
- 227.7103-12 Government right to establish conformity of markings.
- 227.7103-13 Government right to review, verify, challenge and validate asserted restrictions.
- 227.7103-14 Conformity, acceptance, and warranty of technical data.
- 227.7103-15 Subcontractor rights in technical data.
- 227.7103-16 Providing technical data to foreign governments, foreign contractors, or international organizations.
- 227.7103-17 Overseas contracts with foreign sources.
- 227.7104 Contracts under the Small Business Innovative Research (SBIR) Program.
- 227.7105 Contracts for the acquisition of existing works.
- 227.7105-1 General.
- 227.7105-2 Acquisition of existing works without modification.
- 227.7105-3 Acquisition of modified existing works.
- 227.7106 Contracts for special works.
- 227.7107 Contracts for architect-engineer services.
- 227.7107-1 Architectural designs and data clauses for architect-engineer or construction contracts.
- 227.7107-2 Contracts for construction supplies and research and development work.
- 227.7107-3 Approval of restricted designs.
- 227.7108 Contractor data repositories.

### Subpart 227.71—Rights in Technical Data

#### 227.7100 Scope of subpart.

This subpart—

(a) Prescribes policies and procedures for the acquisition of technical data and the rights to use, modify, reproduce, release, perform, display, or disclose technical data. It implements requirements in the following laws and Executive Order:

- (1) 10 U.S.C. 2302(4).
- (2) 10 U.S.C. 2305 (subsection (d)(4)).
- (3) 10 U.S.C. 2320.
- (4) 10 U.S.C. 2321.
- (5) 10 U.S.C. 2325.
- (6) Pub. L. 103-355.
- (7) Executive Order 12591 (Subsection 1(b)(6)).

(b) Does not apply to computer software or technical data that is computer software documentation (see subpart 227.72).

#### 227.7101 Definitions.

(a) As used in this subpart, unless otherwise specifically indicated, the terms "offeror" and "contractor" include an offeror's or contractor's subcontractors, suppliers, or potential subcontractors or suppliers at any tier.

(b) The terms "commercial items" and "minor modification," as those terms are used with commercial items, are defined in the clause at 252.227-7015, Technical Data—Commercial Items.

(c) Other terms used in this subpart are defined in the clause at 252.227-7013, Rights in Technical Data—Noncommercial Items.

#### 227.7102 Commercial items, components, or processes.

Section 2320(b)(1) of Title 10 U.S.C. establishes a presumption that commercial items are developed at private expense whether or not a contractor submits a justification in response to a challenge notice. Therefore, do not challenge a contractor's assertion that a commercial item, component, or process was developed at private expense unless the Government can demonstrate that it contributed to development of the item, component or process. Follow the procedures in 227.7103-13 and the clause at 252.227-7037, Validation of Restrictive Markings on Technical Data, when information provided by the Department of Defense demonstrates that an item, component, or process was not developed exclusively at private expense. However, when a challenge is warranted, a contractor's or subcontractor's failure to respond to the challenge notice cannot be the sole basis for issuing a final decision denying the validity of an asserted restriction.

#### 227.7102-1 Policy.

(a) DoD shall acquire only the technical data customarily provided to the public with a commercial item or process, except technical data that—

- (1) Are form, fit, or function data;
- (2) Are required for repair or

maintenance of commercial items or processes, or for the proper installation, operating, or handling of a commercial item, either as a stand alone unit or as a part of a military system, when such data are not customarily provided to commercial users or the data provided to commercial users is not sufficient for military purposes; or

(3) Describe the modifications made at Government expense to a commercial item or process in order to meet the requirements of a Government solicitation.

(b) To encourage offerors and contractors to offer or use commercial products to satisfy military requirements, offerors, and contractors shall not be required, except for the technical data described in paragraph (a) of this subsection, to—

- (1) Furnish technical information related to commercial items or processes

that is not customarily provided to the public; or

(2) Relinquish to, or otherwise provide, the Government rights to use, modify, reproduce, release, perform, display, or disclose technical data pertaining to commercial items or processes except for a transfer of rights mutually agreed upon.

#### 227.7102-2 Rights in technical data.

(a) The clause at 252.227-7015, Technical Data—Commercial Items, provides the Government specific license rights in technical data pertaining to commercial items or processes. DoD may use, modify, reproduce, release, perform, display, or disclose data only within the Government. The data may not be used to manufacture additional quantities of the commercial items and, except for emergency repair or overhaul, may not be released or disclosed to, or used by, third parties without the contractor's written permission. Those restrictions do not apply to the technical data described in 227.7102-1(a).

(b) If additional rights are needed, contracting activities must negotiate with the contractor to determine if there are acceptable terms for transferring such rights. The specific additional rights granted to the Government shall be enumerated in a license agreement made part of the contract.

#### 227.7102-3 Contract clause.

(a) Except as provided in paragraph (b) of this subsection, use the clause at 252.227-7015, Technical Data—Commercial Items, in all solicitations and contracts when the contractor will be required to deliver technical data pertaining to commercial items, components, or processes.

(b) Use the clause at 252.227-7013, Rights in Technical Data—Noncommercial Items, in lieu of the clause at 252.227-7015 if the Government will pay any portion of the development costs.

(c) Use the clause at 252.227-7037, Validation of Restrictive Markings on Technical Data, in all solicitations and contracts for commercial items that include the clause at 252.227-7015 or the clause at 252.227-7013.

#### 227.7103 Noncommercial items or processes.

##### 227.7103-1 Policy.

(a) DoD policy is to acquire only the technical data, and the rights in that data, necessary to satisfy agency needs.

(b) Solicitations and contracts shall—

- (1) Specify the technical data to be delivered under a contract and delivery schedules for the data;

(2) Establish or reference procedures for determining the acceptability of technical data;

(3) Establish separate contract line items, to the extent practicable, for the technical data to be delivered under a contract and require offerors and contractors to price separately each deliverable data item; and

(4) Require offerors to identify, to the extent practicable, technical data to be furnished with restrictions on the Government's rights and require contractors to identify technical data to be delivered with such restrictions prior to delivery.

(c) Offerors shall not be required, either as a condition of being responsive to a solicitation or as a condition for award, to sell or otherwise relinquish to the Government any rights in technical data related to items, components or processes developed at private expense except for the data identified at 227.7103-5(a)(2) and (a)(4) through (9).

(d) Offerors and contractors shall not be prohibited or discouraged from furnishing or offering to furnish items, components, or processes developed at private expense solely because the Government's rights to use, modify, release, reproduce, perform, display, or disclose technical data pertaining to those items may be restricted.

(e) As provided in 10 U.S.C. 2305, solicitations for major systems development contracts shall not require offerors to submit proposals that would permit the Government to acquire competitively items identical to items developed at private expense unless a determination is made at a level above the contracting officer that—

(1) The offeror will not be able to satisfy program schedule or delivery requirements; or (2) The offeror's proposal to meet mobilization requirements does not satisfy mobilization needs.

#### **227.7103-2 Acquisition of technical data.**

(a) Contracting officers shall work closely with data managers and requirements personnel to assure that data requirements included in solicitations are consistent with the policy expressed in 227.7103-1.

(b)(1) Data managers or other requirements personnel are responsible for identifying the Government's minimum needs for technical data. Data needs must be established giving consideration to the contractor's economic interests in data pertaining to items, components, or processes that have been developed at private expense; the Government's costs to acquire, maintain, store, retrieve, and protect the data; reprourement needs; repair,

maintenance and overhaul philosophies; spare and repair part considerations; and whether procurement of the items, components, or processes can be accomplished on a form, fit, or function basis. When it is anticipated that the Government will obtain unlimited or government purpose rights in technical data that will be required for competitive spare or repair parts procurements, such data should be identified as deliverable data items. Reprourement needs may not be a sufficient reason to acquire detailed manufacturing or process data when items or components can be acquired using performance specifications, form, fit and function data, or when there are a sufficient number of alternate sources which can reasonably be expected to provide such items on a performance specification or form, fit, or function basis.

(2) When reviewing offers received in response to a solicitation or other request for data, data managers must balance the original assessment of the Government's data needs with data prices contained in the offer.

(c) Contracting officers are responsible for ensuring that, wherever practicable, solicitations and contracts—

(1) Identify the type and quantity of the technical data to be delivered under the contract and the format and media in which the data will be delivered;

(2) Establish each deliverable data item as a separate contract line item (this requirement may be satisfied by listing each deliverable data item on an exhibit to the contract);

(3) Identify the prices established for each deliverable data item under a fixed-price type contract;

(4) Include delivery schedules and acceptance criteria for each deliverable data item; and

(5) Specifically identify the place of delivery for each deliverable item of technical data.

#### **227.7103-3 Early identification of technical data to be furnished to the Government with restrictions on use, reproduction or disclosure.**

(a) 10 U.S.C. 2320 requires, to the maximum extent practicable, an identification prior to delivery of any technical data to be delivered to the Government with restrictions on use.

(b) Use the provision at 252.227-7017, Identification and Assertion of Use, Release, or Disclosure Restrictions, in all solicitations that include the clause at 252.227-7013, Rights in Technical Data—Noncommercial Items. The provision requires offerors to identify any technical data for which restrictions, other than copyright, on

use, release, or disclosure are asserted and to attach the identification and assertions to the offer.

(c) Subsequent to contract award, the clause at 252.277-7013 permits a contractor, under certain conditions, to make additional assertions of use, release, or disclosure restrictions. The prescription for the use of that clause and its alternate is at 227.7103-6 (a) and (b).

#### **227.7103-4 License rights.**

(a) *Grant of license.* The Government obtains rights in technical data, including a copyright license, under and irrevocable license granted or obtained for the Government by the contractor. The contractor or licensor retains all rights in the data not granted to the Government. For technical data that pertain to items, components, or processes, the scope of the license is generally determined by the source of funds used to develop the item, component, or process. When the technical data do not pertain to items, components, or processes, the scope of the license is determined by the source of funds used to create the data.

(1) *Technical data pertaining to items, components, or processes.* Contractors or licensors may, with some exceptions (see 227.7103-5(a)(2) and (a)(4) through (9)), restrict the Government's rights to use, modify, release, reproduce, perform, display or disclose technical data pertaining to items, components, or processes developed exclusively at private expense (limited rights). They may not restrict the Government's rights in items, components, or processes developed exclusively at Government expense (unlimited rights) without the Government's approval. When an item, component, or process is developed with mixed funding, the Government may use, modify, release, reproduce, perform, display or disclose the data pertaining to such items, components, or processes within the Government without restriction but may release or disclose the data outside the Government only for government purposes (government purpose rights).

(2) *Technical data that do not pertain to items, components, or processes.* Technical data may be created during the performance of a contract for a conceptual design or similar effort that does not require the development, manufacture, construction, or production of items, components or processes. The Government generally obtains unlimited rights in such data when the data were created exclusively with Government funds, government purpose rights when the data were created with mixed funding, and limited

rights when the data were created exclusively at private expense.

(b) *Source of funds determination.* The determination of the source of development funds for technical data pertaining to items, components, or processes should be made at any practical sub-item or subcomponent level or for any segregable portion of a process. Contractors may assert limited rights in a segregable sub-item, sub-component, or portion of a process which otherwise qualifies for limited rights under the clause at 252.227-7013, Rights in Technical Data—Noncommercial Items.

#### 227.7103-5 Government rights.

The standard license rights that a licensor grants to the Government are unlimited rights, government purpose rights, or limited rights. Those rights are defined in the clause at 252.227-7013, Rights in Technical Data—Noncommercial Items. In unusual situations, the standards rights may not satisfy the Government's needs or the Government may be willing to accept lesser rights in data in return for other consideration. In those cases, a special license may be negotiated. However, the licensor is not obligated to provide the Government greater rights and the contracting officer is not required to accept lesser rights than the rights provided in the standard grant of license. The situations under which a particular grant of license applies are enumerated in paragraphs (a) through (d) of this subsection.

(a) *Unlimited rights.* The Government obtains unlimited rights in technical data that are—

(1) Data pertaining to an item, component, or process which has been or will be developed exclusively with Government funds;

(2) Studies, analyses, test data, or similar data produced in the performance of a contract when the study, analysis, test, or similar work was specified as an element of performance;

(3) Created exclusively with Government funds in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes;

(4) Form, fit, and function data;

(5) Necessary for installation, operation, maintenance, or training purposes (other than detailed manufacturing or process data);

(6) Corrections or changes to technical data furnished to the contractor by the Government;

(7) Publicly available or have been released or disclosed by the contractor or subcontractor without restrictions on

further use, release or disclosure other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the software to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(8) Data in which the Government has obtained unlimited rights under another Government contract or as a result of negotiations; or

(9) Data furnished to the Government, under a Government contract or subcontract thereunder, with—

(i) Government purpose license rights or limited rights and the restrictive condition(s) has/have expired; or

(ii) Government purpose rights and the contractor's exclusive right to use such data for commercial purposes has expired.

(b) *Government purpose rights.* (1) The Government obtains government purpose rights in technical data—

(i) That pertain to items, components, or processes developed with mixed funding except when the Government is entitled to unlimited rights as provided in paragraphs (a)(2) and (a)(4) through (9) of this subsection; or

(ii) Created with mixed funding in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes.

(2) The period during which government purpose rights are effective is negotiable. The clause at 252.227-7013 provides a nominal five-year period. Either party may request a different period. Changes to the government purpose rights period may be made at any time prior to delivery of the technical data without consideration from either party. Longer periods should be negotiated when a five-year period does not provide sufficient time to apply the data for commercial purposes or when necessary to recognize subcontractors' interests in the data.

(3) The government purpose rights period commences upon execution of the contract, subcontract, letter contract (or similar contractual instrument), contract modification, or option exercise that required the development. Upon expiration of the Government rights period, the Government has unlimited rights in the data including the right to authorize others to use the data for commercial purposes.

(4) During the government purpose rights period, the government may not use, or authorize other persons to use, technical data marked with government purpose rights legends for commercial purposes. The Government shall not release or disclose data in which it has government purpose rights to any

person, or authorize others to do so, unless—

(i) Prior to release or disclosure, the intended recipient is subject to the use and non-disclosure agreement at 227.7103-7; or

(ii) The intended recipient is a Government contractor receiving access to the data for performance of a Government contract that contains the clause at 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(5) When technical data marked with government purpose rights legends will be released or disclosed to a Government contractor performing a contract that does not include the clause at 252-227-7025, the contract may be modified, prior to release or disclosure, to include that clause in lieu of requiring the contractor to complete a use and non-disclosure agreement.

(6) Contracting activities shall establish procedures to assure that technical data marked with government purpose rights legends are released or disclosed, including a release or disclosure through a Government solicitation, only to persons subject to the use and non-disclosure restrictions. Public announcements in the Commerce Business Daily or other publications must provide notice of the use and non-disclosure requirements. Class use and non-disclosure agreements (e.g., agreements covering all solicitations received by the XYZ company within a reasonable period) are authorized and may be obtained at any time prior to release or disclosure of the government purpose rights data. Documents transmitting government purpose rights data to persons under class agreements shall identify the technical data subject to government purpose rights and the class agreement under which such data are provided.

(c) *Limited rights.* (1) The Government obtains limited rights in technical data—

(i) That pertain to items, components, or processes developed exclusively at private expense except when the Government is entitled to unlimited rights as provided in paragraphs (a)(2) and (a)(4) through (9) of this subsection; or

(ii) Created exclusively at private expense in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes.

(2) Data in which the Government has limited rights may not be used, released, or disclosed outside the Government without the permission of the contractor

asserting the restriction except for a use, release or disclosure that is—

(i) Necessary for emergency repair and overhaul; or

(ii) To a foreign government, other than detailed manufacturing or process data, when use, release, or disclosure is in the interest of the United States and is required for evaluation or informational purposes.

(3) The person asserting limited rights must be notified of the Government's intent to release, disclose, or authorize others to use such data prior to release or disclosure of the data except notification of an intended release, disclosure, or use for emergency repair or overhaul which shall be made as soon as practicable.

(4) When the person asserting limited rights permits the Government to release, disclose, or have others use the data subject to restrictions on further use, release, or disclosure, or for a release under paragraph (c)(2)(i) or (ii) of this subsection, the intended recipient must complete the use and non-disclosure agreement at 227.7103-7 prior to release or disclosure of the limited rights data.

(d) *Specifically negotiated license rights.* (1) Negotiate specific licenses when the parties agree to modify the standard license rights granted to the government or when the government wants to obtain rights in data in which it does not have rights. When negotiating to obtain, relinquish, or increase the Government's rights in technical data, consider the acquisition strategy for the item, component, or process, including logistics support and other factors which may have relevance for a particular procurement. The Government may accept lesser rights when it has unlimited or government purpose rights in data but may not accept less than limited rights in such data. The negotiated license rights must stipulate what rights the Government has to release or disclose the data to other persons or to authorize others to use the data. Identify all negotiated rights in a license agreement made part of the contract.

(2) When the Government needs additional rights in data acquired with government purpose or limited rights, the contracting officer must negotiate with the contractor to determine whether there are acceptable terms for transferring such rights. Generally, such negotiations should be conducted only when there is a need to disclose the data outside the Government or if the additional rights are required for competitive procurement and the anticipated savings expected to be obtained through competition are

estimated to exceed the acquisition cost of the additional rights. Prior to negotiating for additional rights in limited rights data, consider alternatives such as—

(i) Using performance specifications and form, fit, and function data to acquire or develop functionally equivalent items, components, or processes;

(ii) Obtaining a contractor's contractual commitment to qualify additional sources and maintain adequate competition among the sources; or

(iii) Reverse engineering, or providing items from Government inventories to contractors who request the items to facilitate the development of equivalent items through reverse engineering.

#### **227.7103-6 Contract clauses.**

(a) Use the clause at 252.227-7013, Rights in Technical Data—Noncommercial Items, in solicitations and contracts when the successful offeror(s) will be required to deliver technical data to the Government. Do not use the clause when the only deliverable items are computer software or computer software documentation (see 227.72), commercial items (see 227.7102-3), existing works (see 227.7105), special works (see 227.7106), or when contracting under the Small Business Innovative Research Program (see 227.7104). Except as provided in 227.7107-2, do not use the clause in architect-engineer and construction contracts.

(b) Use the clause at 252.227-7013 with its Alternate I in research contracts when the contracting officer determines, in consultation with counsel, that public dissemination by the contractor would be—

(1) In the interest of the government; and  
(2) Facilitated by the Government; and

Facilitated by the Government relinquishing its right to publish the work for sale, or to have others publish the work for sale on behalf of the Government.

(c) Use the clause at 252.227-7025, Limitations on the Use or Disclosure of Government Furnished Information Marked with Restrictive Legends, in solicitations and contracts when it is anticipated that the Government will provide the contractor, for performance of its contract, technical data marked with another contractor's restrictive legend(s).

(d) Use the provision at 252.227-7028, Technical Data or Computer Software Previously Delivered to the Government, in solicitations when the

resulting contract will require the contractor to deliver technical data. The provision requires offerors to identify any technical data specified in the solicitations as deliverable data items that are the same or substantially the same as data items the offeror has delivered or is obligated to deliver, either as a contractor or subcontractor, under any other federal agency contract.

(e) Use the following clauses in solicitations and contracts that include the clause at 252.227-7013:

(1) 252.227-7016, Rights in Bid or Proposal Information;

(2) 252.227-7030, Technical Data—Withholding of Payment;

(3) 252.227-7036, Certification of Technical Data Conformity; and

(4) 252.227-7037, Validation of Restrictive Markings on Technical Data (paragraph (e) of the clause contains information that must be included in a challenge).

#### **227.7103-7 Use and non-disclosure agreement.**

(a) Except as provided in paragraph (b) of this subsection, technical data or computer software delivered to the Government with restrictions on use, modification, reproduction, release, performance, display, or disclosure may not be provided to third parties unless the intended recipient completes and signs the use and non-disclosure agreement at paragraph (c) of this subsection prior to release, or disclosure of the data.

(1) The specific conditions under which an intended recipient will be authorized to use, modify, reproduce, release, perform, display, or disclose technical data subject to limited rights or computer software subject to restricted rights must be stipulated in an attachment to the use and non-disclosure agreement.

(2) For an intended release, disclosure, or authorized use of technical data or computer software subject to special license rights, modify paragraph (1)(d) of the use and non-disclosure agreement to enter the conditions, consistent with the license requirements, governing the recipient's obligations regarding use, modification, reproduction, release, performance, display or disclosure of the data or software.

(b) The requirement for use and non-disclosure agreements does not apply to Government contractors which require access to a third party's data or software for the performance of a Government contract that contains the clause at 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished

Information Marked with Restrictive Legends.

(c) The prescribed use and non-disclosure agreement is:

Use and Non-Disclosure Agreement

The undersigned, \_\_\_\_\_ (Insert Name) \_\_\_\_\_, an authorized representative of the \_\_\_\_\_ (Insert Company Name) \_\_\_\_\_, (which is hereinafter referred to as the "Recipient") requests the Government to provide the Recipient with technical data or computer software (hereinafter referred to as "Data") in which the Government's use, modification, reproduction, release, performance, display or disclosure rights are restricted. Those Data are identified in an attachment to this Agreement. In consideration for receiving such Data, the Recipient agrees to use the Data strictly in accordance with this Agreement:

(1) The Recipient shall—

(a) Use, modify, reproduce, release, perform, display, or disclose Data marked with government purpose rights or SBIR data rights legends only for government purposes and shall not do so for any commercial purpose. The Recipient shall not release, perform, display, or disclose these Data, without the express written permission of the contractor whose name appears in the restrictive legend (the "Contractor"), to any person other than its subcontractors or suppliers, or prospective subcontractors or suppliers, who require these Data to submit offers for, or perform, contracts with the Recipient. The Recipient shall require its subcontractors or suppliers, or prospective subcontractors or suppliers, to sign a use and non-disclosure agreement prior to disclosing or releasing these Data to such persons. Such agreement must be consistent with the terms of this agreement.

(b) Use, modify, reproduce, release, perform, display, or disclose technical data marked with limited rights legends only as specified in the attachment to this Agreement. Release, performance, display, or disclosure to other persons is not authorized unless specified in the attachment to this Agreement or expressly permitted in writing by the Contractor. The Recipient shall promptly notify the Contractor of the execution of this Agreement and identify the Contractor's Data that has been or will be provided to the Recipient, the date and place the Data were or will be received, and the name and address of the Government office that has provided or will provide the Data.

(c) Use computer software marked with restricted rights legends only in performance of Contract Number \_\_\_\_\_ (insert contract number(s)) \_\_\_\_\_. The recipient shall not, for example, enhance, decompile, disassemble, or reverse engineer the software; time share, or use a computer program with more than one computer at a time. The recipient may not release, perform, display, or disclose such software to others unless expressly permitted in writing by the licensor whose name appears in the restrictive legend. The Recipient shall promptly notify the software licensor of the execution of this Agreement and identify the software that has been or will be provided to

the Recipient, the date and place the software were or will be received, and the name and address of the Government office that has provided or will provide the software.

(d) Use, modify, reproduce, release, perform, display, or disclose Data marked with special license rights legends (To be completed by the contracting officer. See 227.7103-7(a)(2). Omit if none of the Data requested is marked with special license rights legends).

(2) The Recipient agrees to adopt or establish operating procedures and physical security measures designed to protect these Data from inadvertent release or disclosure to unauthorized third parties.

(3) The Recipient agrees to accept these Data "as is" without any Government representation as to suitability for intended use or warranty whatsoever. This disclaimer does not affect any obligation the Government may have regarding Data specified in a contract for the performance of that contract.

(4) The Recipient may enter into any agreement directly with the Contractor with respect to the use, modification, reproduction, release, performance, display, or disclosure of these Data.

(5) The Recipient agrees to indemnify and hold harmless the Government, its agents, and employees from every claim or liability, including attorneys fees, court costs, and expenses arising out of, or in any way related to, the misuse or unauthorized modification, reproduction, release, performance, display, or disclosure of Data received from the Government with restrictive legends by the Recipient or any person to whom the Recipient has released or disclosed the Data.

(6) The Recipient is executing this Agreement for the benefit of the Contractor. The Contractor is a third party beneficiary of this Agreement who, in addition to any other rights it may have, is intended to have the rights of direct action against the Recipient or any other person to whom the Recipient has released or disclosed the Data, to seek damages from any breach of this Agreement or to otherwise enforce this Agreement.

(7) The Recipient agrees to destroy these Data, and all copies of the Data in its possession, no later than 30 days after the date shown in paragraph (8) of this Agreement, to have all persons to whom it released the Data do so by that date, and to notify the Contractor that the Data have been destroyed.

(8) This Agreement shall be effective for the period commencing with the Recipient's execution of this Agreement and ending upon \_\_\_\_\_ (Insert Date) \_\_\_\_\_. The obligations imposed by this Agreement shall survive the expiration or termination of the Agreement.

**227.7103-8 Deferred delivery and deferred ordering of technical data.**

(a) *Deferred delivery.* Use the clause at 252.227-7026, Deferred Delivery of Technical Data or Computer Software, when it is in the Government's interests to defer the delivery of technical data.

The clause permits the contracting officer to require the delivery of technical data identified as "deferred delivery" data at any time until two years after acceptance by the Government of all items (other than technical data or computer software) under the contract or contract termination, whichever is later. The obligation of subcontractors or suppliers to deliver such technical data expires two years after the date the prime contractor accepts the last item from the subcontractor or supplier for use in the performance of the contract. The contract must specify which technical data is subject to deferred delivery. The contracting officer shall notify the contractor sufficiently in advance of the desired delivery date for such data to permit timely delivery.

(b) *Deferred ordering.* Use the clause at 252.227-7027, Deferred Ordering of Technical Data or Computer Software, when a firm requirement for a particular data item(s) has not been established prior to contract award but there is a potential need for the data. Under this clause, the contracting officer may order any data that has been generated in the performance of the contract or any subcontract thereunder at any time until three years after acceptance of all items (other than technical data or computer software) under the contract or contract termination, whichever is later. The obligation of subcontractors to deliver such data expires three years after the date the contractor accepts the last item under the subcontract. When the data are ordered, the delivery dates shall be negotiated and the contractor compensated only for converting the data into the prescribed form, reproduction costs, and delivery costs.

**227.7103-9 Copyright.**

(a) *Copyright license.* (1) The clause at 252.227-7013, Rights in Technical Data—Noncommercial Items, requires a contractor to grant or obtain for the Government license rights which permit the Government to reproduce data, distribute copies of the data, publicly perform or display the data or, through the right to modify data, prepare derivative works. The extent to which the Government, and others acting on its behalf, may exercise these rights varies for each of the standard data rights licenses obtained under the clause. When non-standard license rights in

technical data will be negotiated, negotiate the extent of the copyright license concurrent with negotiations for the data rights license. Do not negotiate a copyright license that provides less rights than the standard limited rights license in technical data.

(2) The clause at 252.227-7013 does not permit a contractor to incorporate a third party's copyrighted data into a deliverable data item unless the contractor has obtained an appropriate license for the Government and, when applicable, others acting on the Government's behalf, or has obtained the contracting officer's written approval to do so. Grant approval to use third party copyrighted data in which the Government will not receive a copyright license only when the Government's requirements cannot be satisfied without the third party material or when the use of the third party material will result in cost savings to the Government which outweigh the lack of a copyright license.

(b) *Copyright considerations—acquisition of existing and special works.* See 227.7105 or 227.7106 for copyright considerations when acquiring existing or special works.

**227.7103-10 Contractor identification and marking of technical data to be furnished with restrictive markings.**

(a) *Identification requirements.* (1) The solicitation provision at 252.227-7017, Identification and Assertion of Use, Release, or Disclosure Restrictions, requires offerors to identify to the contracting officer, prior to contract award, any technical data that the offeror asserts should be provided to the Government with restrictions on use, modification, reproduction, release or disclosure. This requirement does not apply to restrictions based solely on copyright. The notification and identification must be submitted as an attachment to the offer. If an offeror fails to submit the attachment or fails to complete the attachment in accordance with the requirements of the solicitation provision, such failure shall constitute a minor informality. Provide offerors an opportunity to remedy a minor informality in accordance with the procedures at FAR 14.405 or 15.607. An offeror's failure to correct the informality within the time prescribed by the contracting officer shall render the offer ineligible for award.

(2) The procedures for correcting minor informalities shall not be used to obtain information regarding asserted restrictions or an offeror's suggested asserted rights category. Questions regarding the justification for an asserted restriction or asserted rights

category must be pursued in accordance with the procedures at 227.7103-13.

(3) The restrictions asserted by a successful offeror shall be attached to its contract unless, in accordance with the procedures at 227.7103-13, the parties have agreed that an asserted restriction is not justified. The contract attachment shall provide the same information regarding identification of the technical data, the asserted rights category, the basis for the assertion, and the name of the person asserting the restrictions as required by paragraph (d) of the solicitation provision at 252.227-7017. Subsequent to contract award, the clause at 252.227-7013, Rights in Technical Data—Noncommercial Items, permits the contractor to make additional assertions under certain conditions. The additional assertions must be made in accordance with the procedures and in the format prescribed by that clause.

(4) Neither the pre- or post-award assertions made by the contractor, nor the fact that certain assertions are identified in the attachment to the contract, determine the respective rights of the parties. As provided at 227.7103-13, the Government has the right to review, verify, challenge and validate restrictive markings.

(5) Information provided by offerors in response to the solicitation provision may be used in the source selection process to evaluate the impact on evaluation factors that may be created by restrictions on the Government's ability to use or disclose technical data. However, offerors shall not be prohibited from offering products for which the offeror is entitled to provide the Government limited rights in the technical data pertaining to such products and offerors shall not be required, either as a condition of being responsive to a solicitation or as a condition for award, to sell or otherwise relinquish any greater rights in technical data when the offeror is entitled to provide the technical data with limited rights.

(b) *Contractor marking requirements.* The clause at 252.227-7013, Rights in Technical Data—Noncommercial Items—

(1) Requires a contractor that desires to restrict the Government's rights in technical data to place restrictive markings on the data, provides instructions for the placement of the restrictive markings, and authorizes the use of certain restrictive markings; and

(2) Requires a contractor to deliver, furnish, or otherwise provide to the Government any technical data in which the Government has previously obtained rights with the Government's

pre-existing rights in that data unless the parties have agreed otherwise or restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose the data have expired. When restrictions are still applicable, the contractor is permitted to mark the data with the appropriate restrictive legend for which the data qualified.

(c) *Unmarked technical data.* (1) Technical data delivered or otherwise provided under a contract without restrictive markings shall be presumed to have been delivered with unlimited rights and may be released or disclosed without restriction. To the extent practicable, if a contractor has requested permission (see paragraph (c)(2) of this subsection) to correct an inadvertent omission of markings, do not release or disclose the technical data pending evaluation of the request.

(2) A contractor may request permission to have appropriate legends placed on unmarked technical data at its expense. The request must be received by the contracting officer within six months following the furnishing or delivery of such data, or any extension of that time approved by the contracting officer. The person making the request must:

(i) Identify the technical data that should have been marked;

(ii) Demonstrate that the omission of the marking was inadvertent, the proposed marking is justified and conforms with the requirements for the marking of technical data contained in the clause at 252.227-7013; and

(iii) Acknowledge, in writing, that the Government has no liability with respect to any disclosure, reproduction, or use of the technical data made prior to the addition of the marking or resulting from the omission of the marking.

(3) Contracting officers should grant permission to mark only if the technical data were not distributed outside the Government or were distributed outside the Government with restrictions on further use or disclosure.

**227.7103-11 Contractor procedures and records.**

(a) The clause at 252.227-7013, Rights in Technical Data—Noncommercial Items, requires a contractor, and its subcontractors or suppliers that will deliver technical data with other than unlimited rights, to establish and follow written procedures to assure that restrictive markings are used only when authorized and to maintain records to justify the validity of asserted restrictions on delivered data.

(b) The clause at 252.227-7037, Validation of Restrictive Markings on Technical Data requires contractors and their subcontractors at any tier to maintain records sufficient to justify the validity of restrictive markings on technical data delivered or to be delivered under a Government contract.

**227.7103-12 Government right to establish conformity of markings.**

(a) *Nonconforming markings.* (1) Authorized markings are identified in the clause at 252.227-7013, Rights in Technical Data—Noncommercial Items. All other markings are nonconforming markings. An authorized marking that is not in the form, or differs in substance, from the marking requirements in the clause at 252.227-7013 is also a nonconforming marking.

(2) The correction of nonconforming markings on technical data is not subject to 252.227-7037, Validation of Restrictive Markings on Technical Data. To the extent practicable, the contracting officer should return technical data bearing nonconforming markings to the person who has placed the nonconforming markings on such data to provide that person an opportunity to correct or strike the nonconforming marking at that person's expense. If that person fails to correct the nonconformity and return the corrected data within 60 days following the person's receipt of the data, the contracting officer may correct or strike the nonconformity at that person's expense. When it is impracticable to return technical data for correction, contracting officers may unilaterally correct any nonconforming markings at Government expense. Prior to correction, the data may be used in accordance with the proper restrictive marking.

(b) *Unjustified markings.* (1) An unjustified marking is an authorized marking that does not depict accurately restrictions applicable to the Government's use, modification, reproduction, release, performance, display, or disclosure of the marked technical data. For example, a limited rights legend placed on technical data pertaining to items, components, or processes that were developed under a Government contract either exclusively at Government expense or with mixed funding (situations under which the Government obtains unlimited or government purpose rights) is an unjustified marking.

(2) Contracting officers have the right to review and challenge the validity of unjustified markings. However, at any time during performance of a contract and notwithstanding existence of a

challenge, the contracting officer and the person who has asserted a restrictive marking may agree that the restrictive marking is not justified. Upon such agreement, the contracting officer may, at his or her election, either—

- (i) Strike or correct the unjustified marking at that person's expense; or
- (ii) Return the technical data to the person asserting the restriction for correction at that person's expense. If the data are returned and that person fails to correct or strike the unjustified restriction and return the corrected data to the contracting officer within 60 days following receipt of the data, the unjustified marking shall be corrected or stricken at that person's expense.

**227.7103-13 Government right to review, verify, challenge and validate asserted restrictions.**

(a) *General.* An offeror's assertion(s) of restrictions on the Government's rights to use, modify, reproduce, release, or disclose technical data do not, by themselves, determine the extent of the Government's rights in the technical data. Under 10 U.S.C. 2321, the Government has the right to challenge asserted restrictions when there are reasonable grounds to question the validity of the assertion and continued adherence to the assertion would make it impractical to later procure competitively the item to which the data pertain.

(b) *Pre-award considerations.* The challenge procedures required by 10 U.S.C. 2321 could significantly delay awards under competitive procurements. Therefore, avoid challenging asserted restrictions prior to a competitive contract award unless resolution of the assertion is essential for successful completion of the procurement.

(c) *Challenge and validation.* Contracting officers must have reasonable grounds to challenge the current validity of an asserted restriction. Before issuing a challenge to an asserted restriction, carefully consider all available information pertaining to the assertion. All challenges must be made in accordance with the provisions of the clause at 252.227-7037, Validation of Restrictive Markings on Technical Data.

(1) *Challenge period.* Asserted restrictions should be reviewed before acceptance of technical data deliverable under the contract. Assertions must be challenged within three years after final payment under the contract or three years after delivery of the data, whichever is later. However, restrictive markings may be challenged at any time if the technical data—

(i) Are publicly available without restrictions;

(ii) Have been provided to the United States without restriction; or

(iii) Have been otherwise made available without restriction other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the technical data to another party or the sale or transfer of some or all of a business entity or its assets to another party.

(2) *Pre-challenge requests for information.* (i) After consideration of the situation described in paragraph (c)(3) of this subsection, contracting officers may request the person asserting a restriction to furnish a written explanation of the facts and supporting documentation for the assertion in sufficient detail to enable the contracting officer to ascertain the basis of the restrictive markings. Additional supporting documentation may be requested when the explanation provided by the person making the assertion does not, in the contracting officer's opinion, establish the validity of the assertion.

(ii) If the person asserting the restriction fails to respond to the contracting officer's request for information or additional supporting documentation, or if the information submitted or any other available information pertaining to the validity of a restrictive marking does not justify the asserted restriction, a challenge should be considered.

(3) *Transacting matters directly with subcontracts.* The clause at 252.227-7037 obtains the contractor's agreement that the Government may transact matters under the clause directly with a subcontractor, at any tier, without creating or implying privity of contract. Contracting officers should permit a subcontractor or supplier to transact challenge and validation matters directly with the Government when—

(i) A subcontractor's or supplier's business interests in its technical data would be compromised if the data were disclosed to a higher tier contractor;

(ii) There is reason to believe that the contractor will not respond in a timely manner to a challenge and an untimely response would jeopardize a subcontractor's or suppliers right to assert restrictions; or

(iii) Requested to do so by a subcontractor or supplier.

(4) *Challenge notice.* Do not issue a challenge notice unless there are reasonable grounds to question the validity of an assertion. Assertions may be challenged whether or not supporting documentation was requested from the person asserting the restriction.

Challenge notices must be in writing and issued to the contractor or, after consideration of the situations described in paragraph (c)(3) of this subsection, the person asserting the restriction. The challenge notice must include the information in paragraph (e) of the clause at 252.227-7037.

(5) *Extension of response time.* The contracting officer, at his or her discretion, may extend the time for response contained in a challenge notice, as appropriate, if the contractor submits a timely written request showing the need for additional time to prepare a response.

(6) *Contracting officer's final decision.* Contracting officers must issue a final decision for each challenged assertion, whether or not the assertion has been justified.

(i) A contracting officer's final decision that an assertion is not justified must be issued as soon as practicable following the failure of the person asserting the restriction to respond to the contracting officer's challenge within 60 days, or any extension to that time granted by the contracting officer.

(ii) A contracting officer who, following a challenge and response by the person asserting the restriction, determines that an asserted restriction is justified, shall issue a final decision sustaining the validity of the asserted restriction. If the asserted restriction was made subsequent to submission of the contractor's offer, add the asserted restriction to the contract attachment.

(iii) A contracting officer who determine that the validity of an asserted restriction has not been justified shall issue a contracting officer's final decision within the time frames prescribed in 252.227-7037. As provided in paragraph (g) of that clause, the Government is obligated to continue to respect the asserted restrictions through final disposition of any appeal unless the agency head notifies the person asserting the restriction that urgent or compelling circumstances do not permit the Government to continue to respect the asserted restriction.

(7) *Multiple challenges to an asserted restriction.* When more than one contracting officer challenges an asserted restriction, the contracting officer who made the earliest challenge is responsible for coordinating the Government challenges. That contracting officer shall consult with all other contracting officers making challenges, verify that all challenges apply to the same asserted restriction and, after consulting with the contractor, subcontractor, or supplier asserting the restriction, issue a schedule that provides that person a

reasonable opportunity to respond to each challenge.

(8) *Validation.* Only a contracting officer's final decision, or actions of an agency board of contract appeals or a court of competent jurisdiction, that sustain the validity of an asserted restriction constitute validation of the asserted restriction.

**227.7103-14 Conformity, acceptance, and warranty of technical data.**

(a) *Statutory requirements.* 10 U.S.C. 2320—

(1) Requires contractors to furnish written assurance, at the time technical data are delivered or are made available to the Government, that the technical data are complete, accurate, and satisfy the requirements of the contract concerning such data;

(2) Provides for the establishment of remedies applicable to technical data found to be incomplete, inadequate, or not to satisfy the requirements of the contract concerning such data; and

(3) Authorizes agency heads to withhold payments (or exercise such other remedies an agency head considers appropriate) during any period if the contractor does not meet the requirements of the contract pertaining to the delivery of technical data.

(b) *Conformity and acceptance.* (1) Solicitations and contracts requiring the delivery of technical data shall specify the requirements the data must satisfy to be acceptable. Contracting officers, or their authorized representatives, are responsible for determining whether technical data tendered for acceptance conform to the contractual requirements.

(2) The clause at 252.227-7030, Technical Data—Withholding of Payment, provides for withholding up to 10 percent of the contract price pending correction or replacement of the nonconforming technical data or negotiation of an equitable reduction in contract price. The amount subject to withholding may be expressed as a fixed dollar amount or as a percentage of the contract price. In either case, the amount shall be determined giving consideration to the relative value and importance of the data. For example—

(i) When the sole purpose of a contract is to produce the data, the relative value of that data may be considerably higher than the value of data produced under a contract where the production of the data is a secondary objective; or

(ii) When the Government will maintain or repair items, repair and maintenance data may have a considerably higher relative value than

data that merely describe the item or provide performance characteristics.

(3) Do not accept technical data that do not conform to the contractual requirements in all respects. Except for nonconforming restrictive markings (see paragraph (b)(4) of this subsection), correction or replacement of nonconforming data or an equitable reduction in contract price when correction or replacement of the nonconforming data is not practicable or is not in the Government's interests, shall be accomplished in accordance with—

(i) The provisions of a contract clause providing for inspection and acceptance of deliverables and remedies for nonconforming deliverables; or

(ii) The procedures at FAR 46.407(c) through (g), if the contract does not contain an inspection clause providing remedies for nonconforming deliverables.

(4) Follow the procedures at 227.7103-12(a)(2) if nonconforming markings are the sole reason technical data fail to conform to contractual requirements. The clause at 252.227-7030 may be used to withhold an amount for payment, consistent with the terms of the clause, pending correction of the nonconforming markings.

(c) *Warranty.* (1) The intended use of the technical data and the cost, if any, to obtain the warranty should be considered before deciding to obtain a data warranty (see FAR 46.703). The fact that a particular item, component, or process is or is not warranted is not a consideration in determining whether or not to obtain a warranty for the technical data that pertain to the item, component, or process. For example, a data warranty should be considered if the Government intends to repair or maintain an item and defective repair or maintenance data would impair the Government's effective use of the item or result in increased costs to the Government.

(2) As prescribed in 246.710, use the clause at 252.246-7001, Warranty of Data, and its alternates, or a substantially similar clause when the Government needs a specific warranty of technical data.

**227.7103-15 Subcontractor rights in technical data.**

(a) 10 U.S.C. 2320 provides subcontractors at all tiers the same protection for their rights in data as is provided to prime contractors. The clauses at 252.227-7013, Rights in Technical Data—Noncommercial Items, and 252.227-7037, Validation of Restrictive Markings on Technical Data, implement the statutory requirements.

(b) 10 U.S.C. 2321 permits a subcontractor to transact directly with the Government matters relating to the validation of its asserted restrictions on the Government's rights to use or disclose technical data. The clause at 252.227-7037 obtains a contractor's agreement that the direct transaction of validation or challenge matters with subcontractors at any tier does not establish or imply privity of contract. When a subcontractor or supplier exercise its right to transact validation matters directly with the Government, contracting officers shall deal directly with such persons, as provided at 227.7103-13(c)(3).

(c) Require prime contractors whose contracts include the following clauses to include those clauses, without modification except for appropriate identification of the parties, in contracts with subcontractors or suppliers, at all tiers, who will be furnishing technical data in response to a Government requirement:

(1) 252.227-7013, Rights in Technical Data—Noncommercial Items;

(2) 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;

(3) 252.227-7028, Technical Data or Computer Software Previously Delivered to the Government; and

(4) 252.227-7037, Validation of Restrictive Markings on Technical Data.

(d) Do not require contractors to have their subcontractors or suppliers at any tier relinquish rights in technical data to the contractor, a higher tier subcontractor, or to the Government, as a condition for award of any contract, subcontract, purchase order, or similar instrument except for the rights obtained by the Government under the Rights in Technical Data—Noncommercial Items clause contained in the contractor's contract with the Government.

**227.7103-16 Providing technical data to foreign governments, foreign contractors, or international organizations.**

Technical data may be released or disclosed to foreign governments, foreign contractors, or international organizations only if release or disclosure is otherwise permitted both by Federal export controls and other national security laws or regulations. Subject to such laws and regulations, the Department of Defense—

(a) May release or disclose technical data in which it has obtained unlimited rights to such foreign entities or authorize the use of such data by those entities; and

(b) Shall not release or disclose technical data for which restrictions on use, release, or disclosure have been asserted to foreign entities, or authorize the use of technical data by those entities, unless the intended recipient is subject to the same provisions as included in the use and non-disclosure agreement at 227.7103-7 and the requirements of the clause at 252.227-7103, Rights in Technical Data—Noncommercial Items, governing use, modification, reproduction, release, performance, display, or disclosure of such data have been satisfied.

**227.7103-17 Overseas contracts with foreign sources.**

(a) The clause at 252.227-7032, Rights in Technical Data and Computer Software (Foreign), may be used in contracts with foreign contractors to be performed overseas, except Canadian purchases (see paragraph (c) of this subsection), in lieu of the clause at 252.227-7013, Rights in Technical Data—Noncommercial Items, when the Government requires the unrestricted right to use, modify, reproduce, perform, display, release or disclose all technical data to be delivered under the contract. Do not use the clause in contracts for existing or special works.

(b) When the Government does not require unlimited rights, the clause at 252.227-7032 may be modified to accommodate the needs of a specific overseas procurement situation. The Government should obtain rights in the technical data that are not less than the rights the Government would have obtained under the data rights clause(s) prescribed in this part for a comparable procurement performed within the United States or its possessions.

(c) Contracts for Canadian purchases shall include the appropriate data rights clause prescribed in this part for a comparable procurement performed within the United States or its possessions.

**227.7104 Contracts under the Small Business Innovative Research (SBIR) Program.**

(a) Use the clause at 252.227-7018, Rights in Noncommercial Technical Data and Computer Software—Small Business Innovative Research (SBIR) Program, when technical data or computer software will be generated during performance of contracts under the SBIR program.

(b) Under the clause at 252.227-7018, the Government obtains a royalty-free license to use technical data marked with an SBIR data rights legend only for government purposes during the period commencing with contract award and

ending five years after completion of the project under which the data were generated. Upon expiration of the five-year restrictive license, the Government has unlimited rights in the SBIR data. During the license period, the Government may not release or disclose SBIR data to any person other than its support services contractors except—

(1) For evaluational purposes;

(2) As expressly permitted by the contractor; or

(3) A use, release, or disclosure that is necessary for emergency repair or overhaul of items operated by the Government.

(c) Do not make any release or disclosure permitted by paragraph (b) of this section unless, prior to release or disclosure, the intended recipient is subject to the use and nondisclosure agreement at 227.7103-7.

(d) Use the clause at 252.227-7018 with its Alternate I in research contracts when the contracting officer determines, in consultation with counsel, that public dissemination by the contractor would be—

(1) In the interest of the Government; and

(2) Facilitated by the Government relinquishing its right to publish the work for sale, or to have others publish the work for sale on behalf of the Government.

(e) Use the following provision and clauses in SBIR solicitations and contracts that include the clause at 252.227-7018:

(1) 252.227-7016, Rights in Bid or Proposal Information;

(2) 252.227-7017, Identification and Assertion of Use, Release, or Disclosure Restrictions;

(3) 252.227-7019, Validation of Asserted Restrictions—Computer Software;

(4) 252.227-7030, Technical Data—Withholding of Payment;

(5) 252.227-7036, Certification of Technical Data Conformity; and

(6) 252.227-7037, Validation of Restrictive Markings on Technical Data (paragraph (e) of the clause contains information that must be included in a challenge).

(f) Use the following clauses and provision in SBIR solicitations and contracts in accordance with the guidance at 227.7103-6 (c) and (d):

(1) 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends; and

(2) 252.227-7028, Technical Data or Computer Software Previously Delivered to the Government.

**227.7105 Contracts for the acquisition of existing works.****227.7105-1 General.**

(a) Existing works include motion pictures, television recordings, video recordings, and other audiovisual works in any medium; sound recordings in any medium; musical, dramatic, and literary works; pantomimes and choreographic works; pictorial, graphic, and sculptural works; and works of a similar nature. Usually, these or similar works were not first created, developed, generated, originated, prepared, or produced under a Government contract. Therefore, the Government must obtain a license in the work if it intends to reproduce the work, distribute copies of the work, prepare derivative works, or perform or display the work publicly. When the Government is not responsible for the content of an existing work, it should require the copyright owner to indemnify the Government for liabilities that may arise out of the content, performance, use, or disclosure of such data.

(b) Follow the procedures at 227.7106 for works which will be first created, developed, generated, originated, prepared, or produced under a Government contract and the Government needs to control distribution of the work or has a specific need to obtain indemnity for liabilities that may arise out of the creation, content, performance, use, or disclosure of the work or from libelous or other unlawful material contained in the work. Follow the procedures at 227.7103 when the Government does not need to control distribution of such works or obtain such indemnities.

**227.7105-2 Acquisition of existing works without modification**

(a) Use the clause at 252.227-7021, Rights in Data—Existing Works, in lieu of the clause at 252.227-7013, Rights in Technical Data—Noncommercial Items, in solicitations and contracts exclusively for existing works when—

- (1) The existing works will be acquired without modification; and
- (2) The Government requires the right to reproduce, prepare derivative works, or publicly perform or display the existing works; or
- (3) The Government has a specific need to obtain indemnity for liabilities that may arise out of the content, performance, use, or disclosure of such data.

(b) The clause at 252.227-7021 provides the Government, and others acting on its behalf, a paid-up, non-exclusive, irrevocable, world-wide license to reproduce, prepare derivative

works and publicly perform or display the works called for by a contract and to authorize others to do so for government purposes.

(c) A contract clause is not required to acquire existing works such as books, magazines and periodicals, in any storage or retrieval medium, when the Government will not reproduce the books, magazines or periodicals, or prepare derivative works.

**227.7105-3 Acquisition of modified existing works.**

Use the clause at 252.227-7020, Rights in Special Works, in solicitations and contracts for modified existing works in lieu of the clause at 252.227-7021, Rights in Data—Existing Works.

**227.7106 Contracts for special works.**

(a) Use the clause at 252.227-7020, Rights in Special Works, in solicitations and contracts where the Government has a specific need to control the distribution of works first produced, created, or generated in the performance of a contract and required to be delivered under that contract, including controlling distribution by obtaining an assignment of copyright, or a specific need to obtain indemnity for liabilities that may arise out of the creation, delivery, use, modification, reproduction, release, performance, display, or disclosure of such works. Use the clause—

(1) In lieu of the clause at 252.227-7013, Rights in Technical Data—Noncommercial Items, when the Government must own or control copyright in all works first produced, created, or generated and required to be delivered under a contract; or

(2) In addition to the clause at 252.227-7013 when the Government must own or control copyright in a portion of a work first produced, created, or generated and required to be delivered under a contract. The specific portion in which the Government must own or control copyright must be identified in a special contract requirement.

(b) Although the Government obtains an assignment of copyright and unlimited rights in a special work under the clause at 252.227-7020, the contractor retains use and disclosure rights in that work. If the Government needs to restrict a contractor's rights to use or disclose a special work, it must also negotiate a special license which specifically restricts the contractor's use or disclosure rights.

(c) The clause at 252.227-7020 does not permit a contractor to incorporate into a special work any works copyrighted by others unless the

contractor obtains the contracting officer's permission to do so and obtains for the Government a non-exclusive, paid up, world-wide license to make and distribute copies of that work, to prepare derivative works, to perform or display publicly any portion of the work, and to permit others to do so for government purposes. Grant permission only when the Government's requirements cannot be satisfied unless the third party work is included in the deliverable work.

(d) Examples of works which may be procured under the Rights in Special Works clause include, but are not limited, to audiovisual works, computer data bases, computer software documentation, scripts, soundtracks, musical compositions, and adaptations; histories of departments, agencies, services or units thereof; surveys of Government establishments; instructional works or guidance to Government officers and employees on the discharge of their official duties; reports, books, studies, surveys or similar documents; collections of data containing information pertaining to individuals that, if disclosed, would violate the right of privacy or publicity of the individuals to whom the information relates; or investigative reports.

**227.7101 Contracts for architect-engineer services.**

This section sets forth policies and procedures, pertaining to data, copyrights, and restricted designs unique to the acquisition of construction and architect-engineer services.

**227.7101-1 Architectural designs and data clauses for architect-engineer or construction contracts.**

(a) Except as provided in paragraph (b) of this subsection and in 227.7107-2, use the clause at 252.227-7022, Government Rights (Unlimited), in solicitations and contracts for architect-engineer services and for construction involving architect-engineer services.

(b) When the purpose of a contract for architect-engineer services, or for construction involving architect-engineer services, is to obtain a unique architectural design of a building, a monument, or construction of similar nature, which for artistic, aesthetic or other special reasons the Government does not want duplicated, the Government may acquire exclusive control of the data pertaining to the design by including the clause at 252.227-7023, Drawings and Other Data to Become Property of Government, in solicitations and contracts.

(c) The Government shall obtain unlimited rights in shop drawings for construction. In solicitations and contracts calling for delivery of shop drawings, include the clause at 252.227-7033, Rights in Shop Drawings.

**227.7102-2 Contracts for construction supplies and research and development work.**

Use the provisions and clauses required by 227-7103-6 and 227.7203-6 when the acquisition is limited to—

- (a) Construction supplies or materials;
- (b) Experimental, developmental, or research work, or test and evaluation studies of structures, equipment, processes, or materials for use in construction; or
- (c) Both.

**227.7107-3 Approval of restricted designs.**

The clause at 252.227-7024, Notice and Approval of Restricted Designs, may be included in architect-engineer contracts to permit the Government to make informed decisions concerning noncompetitive aspects of the design.

**227.7108 Contractor data repositories.**

(a) Contractor data repositories may be established when permitted by agency procedures. The contractual instrument establishing the data repository must require, as a minimum, the data repository management contractor to—

- (1) Establish and maintain adequate procedures for protecting technical data delivered to or stored at the repository from unauthorized release or disclosure;
  - (2) Establish and maintain adequate procedures for controlling the release or disclosure of technical data from the repository to third parties consistent with the Government's rights in such data;
  - (3) When required by the contracting officer, deliver data to the Government on paper or in other specified media;
  - (4) Be responsible for maintaining the currency of data delivered directly by Government contractors or subcontractors to the repository;
  - (5) Obtain use and non-disclosure agreements (see 227.7103-7) from all persons to whom government purpose rights data is released or disclosed; and
  - (6) Indemnify the Government from any liability to data owners or licensors resulting from, or as a consequence of, a release or disclosure of technical data made by the data repository contractor or its officers, employees, agents, or representatives.
- (b) If the contractor is or will be the data repository manager, the contractor's data management and distribution responsibilities must be

identified in the contract or the contract must reference the agreement between the Government and the contractor that establishes those responsibilities.

(c) If the contractor is not and will not be the data repository manager, do not require a contractor or subcontractor to deliver technical data marked with limited rights legends to a data repository managed by another contractor unless the contractor or subcontractor who has asserted limited rights agrees to release the data to the repository or has authorized, in writing, the Government to do so.

(d) Repository procedures may provide for the acceptance, delivery, and subsequent distribution of technical data in storage media other than paper, including direct electronic exchange of data between two computers. The procedures must provide for the identification of any portions of the data provided with restrictive legends, when appropriate. The acceptance criteria must be consistent with the authorized delivery format.

**Subpart 227.72—Rights in Computer Software and Computer Software Documentation**

7. A new subpart 227.72 is added to read as follows:

**Subpart 227.72—Rights in Computer Software and Computer Software Documentation**

Sec.

- 227.7200 Scope of subpart.
- 227.7201 Definitions.
- 227.7202 Commercial computer software and commercial computer software documentation.
- 227.7202-1 Policy.
- 227.7202-2 Obtaining commercial computer software or commercial computer software documentation.
- 227.7202-3 Rights in commercial computer software or commercial computer software documentation.
- 227.7202-4 Contract clause.
- 227.7203 Noncommercial computer software and noncommercial computer software documentation.
- 227.7203-1 Policy.
- 227.7203-2 Acquisition of noncommercial computer software and computer software documentation.
- 227.7203-3 Early identification of computer software or computer software documentation to be furnished to the Government with restrictions on use, reproduction or disclosure.
- 227.7203-4 License rights.
- 227.7203-5 Government rights.
- 227.7203-6 Contract clauses.
- 227.7203-7 Reserved.
- 227.7203-8 Deferred delivery and deferred ordering or computer software and computer software documentation.
- 227.7203-9 Copyright.

- 227.7203-10 Contractor identification and marking of computer software or computer software documentation to be furnished with restrictive markings.
- 227.7203-11 Contractor procedures and records.
- 227.7203-12 Government right to establish conformity of markings.
- 227.7203-13 Government right to review, verify, challenge and validate asserted restrictions.
- 227.7203-14 Conformity, acceptance, and warranty of computer software and computer software documentation.
- 227.7203-15 Subcontractor rights in computer software or computer software documentation.
- 227.7203-16 Providing computer software or computer software documentation to foreign governments, foreign contractors, or international organizations.
- 227.7203-17 Overseas contracts with foreign sources.
- 227.7204 Contracts under the Small Business Innovative Research Program.
- 227.7205 Contracts for special works.
- 227.7206 Contracts for architect-engineer services.
- 227.7207 Contractor data repositories.

**Subpart 227.72—Rights in Computer Software and Computer Software Documentation**

**227.7200 Scope of subpart.**

This subpart—

(a) Prescribes policies and procedures for the acquisition of computer software and computer software documentation, and the rights to use, modify, reproduce, release, perform, display, or disclose such software or documentation. It implements requirements in the following laws and Executive Order:

- (1) 10 U.S.C. 2302(4).
- (2) 10 U.S.C. 2305 (subsection (d)(4)).
- (3) 10 U.S.C. 2320.
- (4) 10 U.S.C. 2321.
- (5) 10 U.S.C. 2325.
- (6) Executive Order 12591 (subsection 1(b)(6)).

(b) Does not apply to computer software or computer software documentation acquired under GSA schedule contracts.

**227.7201 Definitions.**

- (a) As used in this subpart, unless otherwise specifically indicated, the terms "offeror" and "contractor" include an offeror's or contractor's subcontractors, suppliers, or potential subcontractors or suppliers at any tier.
- (b) Other terms used in this subpart are defined in the clause at 252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation.

**227.7202 Commercial computer software and commercial computer software documentation.****227.7202-1 Policy.**

(a) Commercial computer software or commercial computer software documentation shall be acquired under the licenses customarily provided to the public unless such licenses are inconsistent with Federal procurement law or do not otherwise satisfy user needs.

(b) Commercial computer software and commercial computer software documentation shall be obtained competitively, to the maximum extent practicable, using firm-fixed-price contracts or firm-fixed-priced orders under available pricing schedules.

(c) Offerors and contractors shall not be required to—

(1) Furnish technical information related to commercial computer software or commercial computer software documentation that is not customarily provided to the public except for information documenting the specific modifications made at Government expense to such software or documentation to meet the requirements of a Government solicitation; or

(2) Relinquish to, or otherwise provide, the Government rights to use, modify, reproduce, release, perform, display, or disclose commercial computer software or commercial computer software documentation except for a transfer of rights mutually agreed upon.

**227.7202-2 Obtaining commercial computer software or commercial computer software documentation.**

Commercial computer software or commercial computer software documentation shall be acquired, to the maximum extent practicable, using the procedures in subpart 211.70.

**227.7202-3 Rights in commercial computer software or commercial computer software documentation.**

(a) The Government shall have only the rights specified in the license under which the commercial computer software or commercial computer software documentation was obtained.

(b) If the Government has a need for rights not conveyed under the license customarily provided to the public, the Government must negotiate with the contractor to determine if there are acceptable terms for transferring such rights. The specific rights granted to the Government shall be enumerated in the contract license agreement or an addendum thereto.

**227.7202-4 Contract clause.**

A specific contract clause governing the Government's rights in commercial computer software or commercial computer software documentation is not prescribed. As required by 227.7202-3, the Government's rights to use, modify, reproduce, release, perform, display, or disclose computer software or computer software documentation shall be identified in a license agreement.

**227.7203 Noncommercial computer software and noncommercial computer software documentation.****227.7203-1 Policy.**

(a) DoD policy is to acquire only the computer software and computer software documentation, and the rights in such software or documentation, necessary to satisfy agency needs.

(b) Solicitations and contracts shall—

(1) Specify the computer software or computer software documentation to be delivered under a contract and the delivery schedules for the software or documentation;

(2) Establish or reference procedures for determining the acceptability of computer software or computer software documentation;

(3) Establish separate contract line items, to the extent practicable, for the computer software or computer software documentation to be delivered under a contract and require offerors and contractors to price separately each deliverable data item; and

(4) Require offerors to identify, to the extent practicable, computer software or computer software documentation to be furnished with restrictions on the Government's rights and require contractors to identify computer software or computer software documentation to be delivered with such restrictions prior to delivery.

(c) Offerors shall not be required, either as a condition of being responsive to a solicitation or as a condition for award, to sell or otherwise relinquish to the Government any rights in computer software developed exclusively at private expense except for the software identified at 227.7203-5(a) (3) through (6).

(d) Offerors and contractors shall not be prohibited or discouraged from furnishing or offering to furnish computer software developed exclusively at private expense solely because the Government's rights to use, modify, release, reproduce, perform, display, or disclose the software may be restricted.

**227.7203-2 Acquisition of noncommercial computer software and computer software documentation.**

(a) Contracting officers shall work closely with data managers and requirements personnel to assure that computer software and computer software documentation requirements included in solicitations are consistent with the policy expressed in 227.7203-1.

(b)(1) Data managers or other requirements personnel are responsible for identifying the Government's minimum needs. In addition to desired software performance, compatibility, or other technical considerations, needs determinations should consider such factors as multiple site or shared use requirements, whether the Government's software maintenance philosophy will require the right to modify or have third parties modify the software, and any special computer software documentation requirements.

(2) When reviewing offers received in response to a solicitation or other request for computer software or computer software documentation, data managers must balance the original assessment of the Government's needs with prices offered.

(c) Contracting officers are responsible for ensuring that, wherever practicable, solicitations and contracts—

(1) Identify the types of computer software and the quantity of computer programs and computer software documentation to be delivered, any requirements for multiple users at one site or multiple site licenses, and the format and media in which the software or documentation will be delivered;

(2) Establish each type of computer software or computer software documentation to be delivered as a separate contract line item (this requirement may be satisfied by an exhibit to the contract);

(3) Identify the prices established for each separately priced deliverable item of computer software or computer software documentation under a fixed-price type contract;

(4) Include delivery schedules and acceptance criteria for each deliverable item; and

(5) Specifically identify the place of delivery for each deliverable item.

**227.7203-3 Early identification of computer software or computer software documentation to be furnished to the Government with restrictions on use, reproduction or disclosure.**

(a) Use the provision at 252.227-7017, Identification and Assertion of Use, Release, or Disclosure Restrictions, in all solicitation that include the clause at

252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation. The provision requires offerors to identify any computer software or computer software documentation for which restrictions, other than copyright, on use, modification, reproduction, release, performance, display, or disclosure are asserted and to attach the identification and assertion to the offer.

(b) Subsequent to contract award, the clause at 252.227-7014 permits a contractor, under certain conditions, to make additional assertions of restrictions. The prescriptions for the use of that clause and its alternates are at 227.7203-6(a).

#### 227.7203-4 License rights.

(a) *Grant of license.* The Government obtains rights in computer software or computer software documentation, including a copyright license, under an irrevocable license granted or obtained by the contractor which developed the software or documentation or the licensor of the software or documentation if the development contractor is not the licensor. The contractor or licensor retains all rights in the software or documentation not granted to the Government. The scope of a computer software license is generally determined by the source of funds used to develop the software. Contractors or licensors may, with some exceptions, restrict the Government's rights to use, modify, reproduce, release, perform, display, or disclose computer software developed exclusively or partially at private expense (see 227.7203-5 (b) and (c)). They may not, without the Government's agreement (see 227.7203-5(d)), restrict the Government's rights in computer software developed exclusively with Government funds or in computer software documentation required to be delivered under a contract.

(b) *Source of funds determination.* The determination of the source of funds used to develop computer software should be made at the lowest practicable segregable portion of the software or documentation (e.g., a software sub-routine that performs a specific function). Contractors may assert restricted rights in a segregable portion of computer software which otherwise qualifies for restricted rights under the clause at 252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation.

#### 227.7203-5 Government rights.

The standard license rights in computer software that a licensor grants

to the Government are unlimited rights, government purpose rights, or restricted rights. The standard license in computer software documentation conveys unlimited rights. Those rights are defined in the clause at 252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation. In unusual situations, the standard rights may not satisfy the Government's needs or the Government may be willing to accept lesser rights in return for other consideration. In those cases, a special license may be negotiated. However, the licensor is not obligated to provide the Government greater rights and the contracting officer is not required to accept lesser rights than the rights provided in the standard grant of license. The situations under which a particular grant of license applies are enumerated in paragraphs (a) through (d) of this subsection.

(a) *Unlimited rights.* The Government obtains an unlimited rights license in—

(1) Computer software developed exclusively with Government funds;

(2) Computer software documentation required to be delivered under a Government contract;

(3) Corrections or changes to computer software or computer software documentation furnished to the contractor by the Government;

(4) Computer software or computer software documentation that is otherwise publicly available or has been released or disclosed by the contractor or subcontractor without restrictions on further use, release or disclosure other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the software to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(5) Computer software or computer software documentation obtained with unlimited rights under another Government contract or as a result of negotiations; or

(6) Computer software or computer software documentation furnished to the Government, under a Government contract or subcontract with—

(i) Restricted rights in computer software, limited rights in technical data, or government purpose license rights and the restrictive conditions have expired; or

(ii) Government purpose rights and the contractor's exclusive right to use such software or documentation for commercial purposes has expired.

(b) *Government purpose rights.* (1) Except as provided in paragraph (a) of this subsection, the Government obtains

government purpose rights in computer software developed with mixed funding.

(2) The period during which government purpose rights are effective is negotiable. The clause at 252.227-7014 provides a nominal five-year period. Either party may request a different period. Changes to the government purpose rights period may be made at any time prior to delivery of the software without consideration from either party. Longer periods should be negotiated when a five-year period does not provide sufficient time to commercialize the software or, for software developed by subcontractors, when necessary to recognize the subcontractors' interests in the software.

(3) The government purpose rights period commences upon execution of the contract, subcontract, letter contract (or similar contractual instrument), contract modification, or option exercise that required development of the computer software. Upon expiration of the government purpose rights period, the Government has unlimited rights in the software including the right to authorize others to use data for commercial purposes.

(4) During the government purpose rights period, the Government may not use, or authorize other persons to use, computer software marked with government purpose rights legends for commercial purposes. The Government shall not release or disclose, or authorize others to release or disclose, computer software in which it has government purpose rights to any person unless—

(i) Prior to release or disclosure, the intended recipient is subject to the use and non-disclosure agreement at 227.7103-7; or

(ii) The intended recipient is a Government contractor receiving access to the software for performance of a Government contract that contains the clause at 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(5) When computer software marked with government purpose rights legends will be released or disclosed to a Government contractor performing a contract that does not include the clause at 252.227-7025, the contract may be modified, prior to release or disclosure, to include such clause in lieu of requiring the contractor to complete a use and non-disclosure agreement.

(6) Contracting activities shall establish procedures to assure that computer software or computer software documentation marked with government purpose rights legends are released or disclosed, including a

release or disclosure through a Government solicitation, only to persons subject to the use and non-disclosure restrictions. Public announcements in the Commerce Business Daily or other publications must provide notice of the use and non-disclosure requirements. Class use and non-disclosure agreements (e.g., agreements covering all solicitations received by the XYZ company within a reasonable period) are authorized and may be obtained at any time prior to release or disclosure of the government purpose rights software or documentation. Documents transmitting government purpose rights software or documentation to persons under class agreements shall identify the specific software or documentation subject to government purpose rights and the class agreement under which such software or documentation are provided.

(c) *Restricted rights.* (1) The Government obtains restricted rights in noncommercial computer software required to be delivered or otherwise provided to the Government under a contract that were developed exclusively at private expense.

(2) Contractors are not required to provide the Government additional rights in computer software delivered or otherwise provided to the Government with restricted rights. When the Government has a need for additional rights, the Government must negotiate with the contractor to determine if there are acceptable terms for transferring such rights. List or describe all software in which the contractor has granted the Government additional rights in a license agreement made part of the contract (see paragraph (d) of this subsection). The license shall enumerate the specific additional rights granted to the Government.

(d) *Specifically negotiated license rights.* Negotiate specific licenses when the parties agree to modify the standard license rights granted to the Government or when the Government wants to obtain rights in computer software in which it does not have rights. When negotiating to obtain, relinquish, or increase the Government's rights in computer software, consider the planned software maintenance philosophy, anticipated time or user sharing requirements, and other factors which may have relevance for a particular procurement. If negotiating to relinquish rights in computer software documentation, consider the administrative burden associated with protecting documentation subject to restrictions from unauthorized release or disclosure. The negotiated license rights must stipulate the rights granted

the Government to use, modify, reproduce, release, perform, display, or disclose the software or documentation and the extent to which the Government may authorize others to do so. Identify all negotiated rights in a license agreement made part of the contract.

(e) *Rights in derivative computer software or computer software documentation.* The clause at 252.227-7014 protects the Government's rights in computer software, computer software documentation, or portions thereof that the contractor subsequently uses to prepare derivative software or subsequently embeds or includes in other software or documentation. The Government retains the rights it obtained under the development contract in the unmodified portions of the derivative software or documentation.

#### **227.7203-6 Contract clauses.**

(a)(1) use the clause at 252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, in solicitations and contracts when the successful offeror(s) will be required to deliver computer software or computer software documentation. Do not use the clause when the only deliverable items are technical data (other than computer software documentation), commercial computer software or commercial computer software documentation, commercial items (see 227.7102-3), special works (see 227.7205), or contracts under the Small Business Innovative Research Program (see 227.7104). Except as provided in 227.7107-2, do not use the clause in architect-engineer and construction contracts..

(2) Use the clause at 252.227-7014 with its Alternate I in research contracts when the contracting officer determines, in consultation with counsel, that public dissemination by the contractor would be—

(i) In the interest of the Government; and

(ii) Facilitated by the Government relinquishing its right to publish the work for sale, or to have others publish the work for sale on behalf of the Government.

(b) Use the clause at 252.227-7016, Rights in Bid or Proposal Information, in solicitations and contracts that include the clause at 252.227-7014.

(c) Use the clause at 252.227-7019, Validation of Asserted Restrictions—Computer Software, in solicitations and contracts that include the clause at 252.227-7014. The clause provides procedures for the validation of asserted restrictions on the Government's rights

to use, release, or disclose computer software.

(d) Use the provision at 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends, in solicitations and contracts when it is anticipated that the Government will provide the contractor, for performance of its contract, computer software or computer software documentation marked with another contractor's restrictive legend(s).

(e) Use the provision at 252.227-7028, Technical Data or Computer Software Previously Delivered to the Government, in solicitations when the resulting contract will require the contractor to deliver computer software or computer software documentation. The provision requires offerors to identify any software or documentation specified in the solicitation as deliverable items that are the same or substantially the same as software or documentation which the offeror has delivered or is obligated to deliver, either as a contractor or subcontractor, under any other federal agency contract.

(f) Use the clause at 252.227-7037, Validation of Restrictive Markings on Technical Data, in solicitations and contracts that include the clause at 252.227-7014 when the contractor will be required to deliver noncommercial computer software documentation (technical data). The clause implements statutory requirements under 10 U.S.C. 2321. Paragraph (e) of the clause contains information that must be included in a formal challenge.

#### **227.7203-7 [Reserved]**

#### **227.7203-8 Deferred delivery and deferred ordering of computer software and computer software documentation.**

(a) *Deferred delivery.* Use the clause at 252.227-7026, Deferred Delivery of Technical Data or Computer Software, when it is in the Government's interests to defer the delivery of computer software or computer software documentation. The clause permits the contracting officer to require the delivery of data identified as "deferred delivery" data or computer software at any time until two years after acceptance by the Government of all items (other than technical data or computer software) under the contract or contract termination, whichever is later. The obligation of subcontractors or suppliers to deliver such data expires two years after the date the prime contractor accepts the last item from the subcontractor or supplier for use in the performance of the contract. The contract must specify the computer

software or computer software documentation that is subject to deferred delivery. The contracting officer shall notify the contractor sufficiently in advance of the desired delivery date for such software or documentation to permit timely delivery.

(b) *Deferred ordering.* Use the clause at 252.227-7027, Deferred Ordering of Technical Data or Computer Software, when a firm requirement for software or documentation has not been established prior to contract award but there is a potential need for computer software or computer software documentation. Under this clause the contracting officer may order any computer software or computer software documentation generated in the performance of the contract or any subcontract thereunder at any time until three years after acceptance of all items (other than technical data or computer software) under the contract or contract termination, whichever is later. The obligation of subcontractors to deliver such technical data or computer software expires three years after the date the contractor accepts the last item under the subcontract. When the software or documentation are ordered, the delivery dates shall be negotiated and the contractor compensated only for converting the software or documentation into the prescribed form, reproduction costs, and delivery costs.

#### **227.7203-9 Copyright.**

(a) *Copyright license.* (1) The clause at 252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, requires a contractor to grant, or obtain for the Government license rights which permit the Government to reproduce the software or documentation, distribute copies, perform or display the software or documentation and, through the right to modify data, prepare derivative works. The extent to which the Government, and others acting on its behalf, may exercise these rights varies for each of the standard data rights licenses obtained under the clause. When non-standard license rights in computer software or computer software documentation will be negotiated, negotiate the extent of the copyright license concurrent with negotiations for the data rights license. Do not negotiate copyright licenses for computer software that provide less rights than the standard restricted rights in computer software license. For computer software documentation, do not negotiate a copyright license that provides less rights than the standard limited rights in technical data license.

(2) The clause at 252.227-7013, Rights in Technical Data—Noncommercial Items, does not permit a contractor to incorporate a third party's copyrighted software into a deliverable software item unless the contractor has obtained an appropriate license for the Government and, when applicable, others acting on the Government's behalf, or has obtained the contracting officer's written approval to do so. Grant approval to use third party copyrighted software in which the Government will not receive a copyright license only when the Government's requirements cannot be satisfied without the third party material or when the use of the third party material will result in cost savings to the Government which outweigh the lack of a copyright license.

(b) *Copyright considerations—special works.* See 227.7205 for copyright considerations when acquiring special works.

#### **227.7203-10 Contractor identification and marking of computer software or computer software documentation to be furnished with restrictive markings.**

(a) *Identification requirements:* (1) The solicitation provision at 252.227-7017, Identification and Assertion of Use, Release, or Disclosure Restrictions, requires offerors to identify, prior to contract award, any computer software or computer software documentation that an offeror asserts should be provided to the Government with restrictions on use, modification, reproduction, release or disclosure. This requirement does not apply to restrictions based solely on copyright. The notification and identification must be submitted as an attachment to the offer. If an offeror fails to submit the attachment or fails to complete the attachment in accordance with the requirements of the solicitation provision, such failure shall constitute a minor informality. Provide offerors an opportunity to remedy a minor informality in accordance with the procedures at FAR 14.405 or 15.607. An offeror's failure to correct an informality within the time prescribed by the contracting officer shall render the offer ineligible for award.

(2) The procedures for correcting minor informalities shall not be used to obtain information regarding asserted restrictions or an offeror's suggested asserted rights category. Questions regarding the justification for an asserted restriction or asserted rights category must be pursued in accordance with the procedures at 227.7203-13.

(3) The restrictions asserted by a successful offeror shall be attached to its contract unless, in accordance with the

procedures at 227.7203-13, the parties have agreed that an asserted restriction is not justified. The contract attachment shall provide the same information regarding identification of the computer software or computer software documentation, the asserted rights category, the basis for the assertion, and the name of the person asserting the restrictions as required by paragraph (d) of the solicitation provision at 252.227-7017. Subsequent to contract award, the clause at 252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, permits a contractor to make additional assertions under certain conditions. The additional assertions must be made in accordance with the procedures and in the format prescribed by that clause.

(4) Neither the pre- or post-award assertions made by the contractor nor the fact that certain assertions are identified in the attachment to the contract, determine the respective rights of the parties. As provided at 227.7203-13, the Government has the right to review, verify, challenge and validate restrictive markings.

(5) Information provided by offerors in response to the solicitation provision at 252.227-7017 may be used in the source selection process to evaluate the impact on evaluation factors that may be created by restrictions on the Government's ability to use or disclose computer software or computer software documentation.

(b) *Contractor marking requirements.* The clause at 252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation—

(1) Requires a contractor who desires to restrict the Government's rights in computer software or computer software documentation to place restrictive markings on the software or documentation, provides instructions for the placement of the restrictive markings, and authorizes the use of certain restrictive markings. When it is anticipated that the software will or may be used in combat or situations which simulate combat conditions, do not permit contractors to insert instructions into computer programs that interfere with or delay operation of the software to display a restrictive rights legend or other license notice; and

(2) Requires a contractor to deliver, furnish, or otherwise provide to the Government any computer software or computer software documentation in which the Government has previously obtained rights with the Government's pre-existing rights in that software or documentation unless the parties have

agreed otherwise or restrictions on the Government's rights to use, modify, produce, release, or disclose the software or documentation have expired. When restrictions are still applicable, the contractor is permitted to mark the software or documentation with the appropriate restrictive legend.

(c) *Unmarked computer software or computer software documentation.* (1) Computer software or computer software documentation delivered or otherwise provided under a contract without restrictive markings shall be presumed to have been delivered with unlimited rights and may be released or disclosed without restriction. To the extent practicable, if a contractor has requested permission (see paragraph (c)(2) of this subsection) to correct an inadvertent omission of markings, do not release or disclose the software or documentation pending evaluation of the request.

(2) A contractor may request permission to have appropriate legends placed on unmarked computer software or computer software documentation at its expense. The request must be received by the contracting officer within six months following the furnishing or delivery of such software or documentation, or any extension of that time approved by the contracting officer. The person making the request must—

(i) Identify the software or documentation that should have been marked;

(ii) Demonstrate that the omission of the marking was inadvertent, the proposed marking is justified and conforms with the requirements for the marking of computer software or computer software documentation contained in the clause at 252.227-7014; and

(iii) Acknowledge, in writing, that the Government has no liability with respect to any disclosure, reproduction, or use of the software or documentation made prior to the addition of the marking or resulting from the omission of the marking.

(3) Contracting officers should grant permission to mark only if the software or documentation were not distributed outside the Government or were distributed outside the Government with restrictions on further use or disclosure.

**227.7203-11 Contractor procedures and records.**

(a) The clause at 252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, requires a contractor, and its subcontractors or suppliers that

will deliver computer software or computer software documentation with other than unlimited rights, to establish and follow written procedures to assure that restrictive markings are used only when authorized and to maintain records to justify the validity of restrictive markings.

(b) The clause at 252.227-7019, Validation of Asserted Restrictions—Computer Software, requires contractors and their subcontractors or suppliers at any tier to maintain records sufficient to justify the validity of markings that assert restrictions on the use, modification, reproduction, release, performance, display, or disclosure of computer software.

**227.7203-12 Government right to establish conformity of markings.**

(a) *Nonconforming markings.* (1) Authorized markings are identified in the clause at 252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation. All other markings are nonconforming markings. An authorized marking that is not in the form, or differs in substance, from the marking requirements in the clause at 252.227-7014 is also a nonconforming marking.

(2) The correction of nonconforming markings on computer software is not subject to 252.227-7019, Validation of Asserted Restrictions—Computer Software, and the correction of nonconforming markings on computer software documentation (technical data) is not subject to 252.227-7037, Validation of Restrictive Markings on Technical Data. To the extent practicable, the contracting officer should return computer software or computer software documentation bearing nonconforming markings to the person who has placed the nonconforming markings on the software or documentation to provide that person an opportunity to correct or strike the nonconforming markings at that person's expense. If that person fails to correct the nonconformity and return the corrected software or documentation within 60 days following the person's receipt of the software or documentation, the contracting officer may correct or strike the nonconformity at the person's expense. When it is impracticable to return computer software or computer software documentation for correction, contracting officers may unilaterally correct any nonconforming markings at Government expense. Prior to correction, the software or documentation may be used in

accordance with the proper restrictive marking.

(b) *Unjustified markings.* (1) An unjustified marking is an authorized marking that does not depict accurately restrictions applicable to the Government's use, modification, reproduction, release, or disclosure of the marked computer software or computer software documentation. For example, a restricted rights legend placed on computer software developed under a Government contract either exclusively at Government expense or with mixed funding (situations under which the Government obtains unlimited or government purpose rights) is an unjustified marking.

(2) Contracting officers have the right to review and challenge the validity of unjustified markings. However, at any time during performance of a contract and notwithstanding existence of a challenge, the contracting officer and the person who has asserted a restrictive marking may agree that the restrictive marking is not justified. Upon such agreement, the contracting officer may, at his or her election, either—

(i) Strike or correct the unjustified marking at that person's expense; or

(ii) Return the computer software or computer software documentation to the person asserting the restriction for correction at that person's expense. If the software or documentation are returned and that person fails to correct or strike the unjustified restriction and return the corrected software or documentation to the contracting officer within 60 days following receipt of the software or documentation, the unjustified marking shall be corrected or stricken at that person's expense.

**227.7203-13 Government right to review, verify, challenge and validate asserted restrictions.**

(a) *General.* An offeror's or contractor's assertion(s) of restrictions on the Government's rights to use, modify, reproduce, release, or disclose computer software or computer software documentation do not, by themselves, determine the extent of the Government's rights in such software or documentation. The Government may require an offeror or contractor to submit sufficient information to permit an evaluation of a particular asserted restriction and may challenge asserted restrictions when there are reasonable grounds to believe that an assertion is not valid.

(b) *Requests for information.* Contracting officers should have a reason to suspect that an asserted restriction might not be correct prior to requesting information. When

requesting information, provide the offeror or contractor the reason(s) for suspecting that an asserted restriction might not be correct. A need for additional license rights is not, by itself, a sufficient basis for requesting information concerning an asserted restriction. Follow the procedures at 227.7203-5(d) when additional license rights are needed but there is no basis to suspect that an asserted restriction might not be valid.

(c) *Transacting matters directly with subcontractors.* The clause at 252.227-7019, Validation of Asserted Restrictions—Computer Software, obtains the contractor's agreement that the Government may transact matters under the clause directly with a subcontractor or supplier, at any tier, without creating or implying privity of contract. Contracting officers should permit a subcontractor or supplier to transact challenge and validation matters directly with the Government when—

(1) A subcontractor's or supplier's business interests in its technical data would be compromised if the data were disclosed to a higher tier contractor.

(2) There is reason to believe that the contractor will not respond in a timely manner to a challenge and an untimely response would jeopardize a subcontractor's or supplier's right to assert restrictions; or

(3) Requested to do so by a subcontractor or supplier.

(d) *Challenging asserted restrictions.*

(1) *Pre-award considerations.* The challenge procedures in the clause at 252.227-7019 could significantly delay competitive procurements. Therefore, avoid challenging asserted restrictions prior to a competitive contract award unless resolution of the assertion is essential for successful completion of the procurement.

(2) *Computer software documentation.* Computer software documentation is technical data. Challenges to asserted restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose computer software documentation must be made in accordance with the clause at 252.227-7037, Validation of Restrictive Markings on Technical Data, and the guidance at 227.7103-13. The procedures in the clause at 252.227-7037 implement requirements contained in 10 U.S.C. 2321. Resolution of questions regarding the validity of asserted restrictions using the process described at 227.7103-12(b)(2) is strongly encouraged.

(3) *Computer software.* (i) Asserted restrictions should be reviewed before acceptance of the computer software

deliverable under a contract. The Government's right to challenge an assertion expires three years after final payment under the contract or three years after delivery of the software, whichever is later. Those limitations on the Government's challenge rights do not apply to software that is publicly available, has been furnished to the Government without restrictions, or has been otherwise made available without restrictions.

(ii) Contracting officers must have reasonable grounds to challenge the current validity of an asserted restriction. Before challenging an asserted restriction, carefully consider all available information pertaining to the asserted restrictions. Resolution of questions regarding the validity of asserted restrictions using the process described at 227.7203-12(b)(2) is strongly encouraged. After consideration of the situations described in paragraph (c) of this subsection, contracting officers may request the person asserting a restriction to furnish a written explanation of the facts and supporting documentation for the assertion in sufficient detail to enable the contracting officer to determine the validity of the assertion. Additional supporting documentation may be requested when the explanation provided by that person does not, in the contracting officer's opinion, establish the validity of the assertion.

(iii) Assertions may be challenged whether or not supporting documentation was requested. Challenges must be in writing and issued to the person asserting the restriction.

(4) *Extension of response time.* The contracting officer, at his or her discretion, may extend the time for response contained in a challenge, as appropriate, if the contractor submits a timely written request showing the need for additional time to prepare a response.

(e) *Validating or denying asserted restrictions.* (1) Contracting officers must promptly issue a final decision denying or sustaining the validity of each challenged assertion unless the parties have agreed on the disposition of the assertion. When a final decision denying the validity of an asserted restriction is made following a timely response to a challenge, the Government is obligated to continue to respect the asserted restrictions through final disposition of any appeal unless the agency head notifies the person asserting the restriction that urgent or compelling circumstances do not permit the Government to continue to respect the asserted restriction. See 252.227-

7019(g) for restrictions applicable following a determination of urgent and compelling circumstances.

(2) Only a contracting officer's final decision, or actions of an agency Board of Contract Appeals or a court of competent jurisdiction, that sustain the validity of an asserted restriction constitute validation of the restriction.

(f) *Multiple challenges to an asserted restriction.* When more than one contracting officer challenges an asserted restriction, the contracting officer who made the earliest challenge is responsible for coordinating the Government challenges. That contracting officer shall consult with all other contracting officers making challenges, verify that all challenges apply to the same asserted restriction and, after consulting with the contractor, subcontractor, or supplier asserting the restriction, issue a schedule that provides that person a reasonable opportunity to respond to each challenge.

**227.7203-14 Conformity, acceptance, and warranty of computer software and computer software documentation.**

(a) *Computer software documentation.* Computer software documentation is technical data. See 227.7103-14 for appropriate guidance and statutory requirements.

(b) *Computer software.* (1) *Conformity and acceptance.* Solicitations and contracts requiring the delivery of computer software shall specify the requirements the software must satisfy to be acceptable. Contracting officers, or their authorized representatives, are responsible for determining whether computer software tendered for acceptance conforms to the contractual requirements. Except for nonconforming restrictive markings (follow the procedures at 227.7203-12(a) if nonconforming markings are the sole reason computer software tendered for acceptance fails to conform to contractual requirements), do not accept software that does not conform in all respects to applicable contractual requirements. Correction or replacement of nonconforming software, or an equitable reduction in contract price when correction or replacement of the nonconforming data is not practicable or is not in the Government's interests, shall be accomplished in accordance with—

(i) The provisions of a contract clause providing for inspection and acceptance of deliverables and remedies for nonconforming deliverables; or

(ii) The procedures at FAR 46.407(c) through (g), if the contract does not contain an inspection clause providing

remedies for nonconforming deliverables.

(2) *Warranties.* (i) *Weapon systems.* Computer software that is a component of a weapon system or major subsystem should be warranted as part of the weapon system warranty. Follow the procedures at 246.770.

(ii) *Non-weapon systems.* Approval of the chief of the contracting office must be obtained to use a computer software warranty other than a weapon system warranty. Consider the factors at FAR 46.703 in deciding whether to obtain a computer software warranty. When approval for a warranty has been obtained, the clause at 252.246-7001, Warranty of Data, and its alternates, may be appropriately modified for use with computer software or a procurement specific clause may be developed.

**227.7203-15 Subcontractor rights in computer software or computer software documentation.**

(a) Subcontractors and suppliers at all tiers should be provided the same protection for their rights in computer software or computer software documentation as are provided to prime contractors.

(b) The clauses at 252.227-7019, Validation of Asserted Restrictions—Computer Software, and 252.227-7037, Validation of Restrictive Markings on Technical Data, obtain a contractor's agreement that the Government's transaction of validation or challenge matters directly with subcontractors at any tier does not establish or imply privity of contract. When a subcontractor or supplier exercises its right to transact validation matters directly with the Government, contracting officers shall deal directly with such persons, as provided at 227.7203-13(c) for computer software and 227.7103-13(c)(3) for computer software documentation (technical data).

(c) Require prime contractors whose contracts include the following clauses to include those clauses, without modification except for appropriate identification of the parties, in contracts with subcontractors or suppliers who will be furnishing computer software in response to a Government requirement (see 227.7103-15(c) for clauses required when subcontractors or suppliers will be furnishing computer software documentation (technical data)):

(1) 252.227.7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation;

(2) 252.227.7019, Validation of Asserted Restrictions—Computer Software;

(3) 252.227.7025, Limitations on the Use or Disclosure of Government Furnished Information Marked with Restrictive Legends; and

(4) 252.227.7028, Technical Data or Computer Software Previously Delivered to the Government.

(d) Do not require contractors to have their subcontractors or suppliers at any tier relinquish rights in technical data to the contractor, a higher tier subcontractor, or to the Government, as a condition for award of any contract, subcontract, purchase order, or similar instrument except for the rights obtained by the Government under the provisions of the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause contained in the contractor's contract with the Government.

**227.7203-16 Providing computer software or computer software documentation to foreign governments, foreign contractors, or international organizations.**

Computer software or computer software documentation may be released or disclosed to foreign governments, foreign contractors, or international organizations only if release or disclosure is otherwise permitted both by Federal export controls and other national security laws or regulations. Subject to such laws and regulations, the Department of Defense—

(a) May release or disclose computer software or computer software documentation in which it has obtained unlimited rights to such foreign entities or authorize the use of such data by those entities; and

(b) Shall not release or disclose computer software or computer software documentation for which restrictions on use, release, or disclosure have been asserted to such foreign entities or authorize the use of such data by those entities, unless the intended recipient is subject to the same provisions as included in the use and non-disclosure agreement at 227.7103-7 and the requirements of the clause at 252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, governing use, modification, reproduction, release, performance, display, or disclosure of such data have been satisfied.

**227.7203-17 Overseas contracts with foreign sources.**

(a) The clause at 252.227-7032, Rights in Technical Data and Computer Software (Foreign), may be used in contracts with foreign contractors to be

performed overseas, except Canadian purchases (see paragraph (c) of this subsection) in lieu of the clause at 252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, when the Government requires the unrestricted right to use, modify, reproduce, release, perform, display, or disclose all computer software or computer software documentation to be delivered under the contract. Do not use the clause in contracts for special works.

(b) When the Government does not require unlimited rights, the clause at 252.227-7032 may be modified to accommodate the needs of a specific overseas procurement situation. The Government should obtain rights to the computer software or computer software documentation that are not less than the rights the Government would have obtained under the software rights clause(s) prescribed in this part for a comparable procurement performed within the United States or its possessions.

(c) Contracts for Canadian purchases shall include the appropriate software rights clause prescribed in this part for a comparable procurement performed within the United States or its possessions.

**227.7204 Contracts under the Small Business Innovative Research Program.**

When contracting under the Small Business Innovative Research Program, follow the procedures at 227-7104.

**227.7205 Contracts for special works.**

(a) Use the clause at 252.227-7020, Rights in Special Works, in solicitations and contracts where the Government has a specific need to control the distribution of computer software or computer software documentation first produced, created, or generated in the performance of a contract and required to be delivered under that contract, including controlling distribution by obtaining an assignment of copyright, or a specific need to obtain indemnity for liabilities that may arise out of the creation, delivery, use, modification, reproduction, release, performance, display, or disclosure of such software or documentation. Use the clause—

(1) In lieu of the clause at 252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, when the Government must own or control copyright in all computer software or computer software documentation first produced, created, or generated and required to be delivered under a contract; or

(2) In addition to the clause at 252.227-7014 when the Government must own or control copyright in some of the computer software or computer software documentation first produced, created, or generated and required to be delivered under a contract. The specific software or documentation in which the Government must own or control copyright must be identified in a special contract requirement.

(b) Although the Government obtains an assignment of copyright and unlimited rights in the computer software or computer software documentation delivered as a special work under the clause at 252.227-7020, the contractor retains use and disclosure rights in that software or documentation. If the Government needs to restrict a contractor's rights to use or disclose a special work, it must also negotiate a special license which specifically restricts the contractor's use or disclosure rights.

(c) The clause at 252.227-7020 does not permit a contractor to incorporate into a special work any work copyrighted by others unless the contractor obtains the contracting officer's permission to do so and obtains for the Government a non-exclusive, paid up, world-wide license to make and distribute copies of that work, to prepare derivative works, to perform or display any portion of that work, and to permit others to do so for government purposes. Grant permission only when the Government's requirements cannot be satisfied unless the third party work is included in the deliverable work.

(d) Examples of other works which may be procured under the clause at 252.227-7020 include, but are not limited to, audiovisual works, scripts, soundtracks, musical compositions, and adaptations; histories of departments, agencies, services or units thereof; surveys of Government establishments; instructional works or guidance to Government officers and employees on the discharge of their official duties; reports, books, studies, surveys or similar documents; collections of data containing information pertaining to individuals that, if disclosed, would violate the right of privacy or publicity of the individuals to whom the information relates; or investigative reports.

**227.7206 Contracts for architect-engineer services.**

Follow 227.7107 when contracting for architect-engineer services.

**227.7207 Contractor data repositories.**

Follow 227.7108 when it is in the Government's interests to have a data

repository include computer software or to have a separate computer software repository. Contractual instruments establishing the repository requirements must appropriately reflect the repository manager's software responsibilities.

**PART 252—SOLICITATION PROVISIONS AND CONTRACT CLAUSES**

**252.211-7015 [Removed and Reserved]**

8. Section 252.211-7015 is removed and reserved.

**252.211-7016 [Removed and Reserved]**

9. Section 252.211-7016 is removed and reserved.

**252.211-7017 [Removed and Reserved]**

10. Section 252.211-7017 is removed and reserved.

**252.211-7021 [Amended]**

11. Section 252.211-7021 is amended by revising the clause date to read "(JUN 1995)" in lieu of "(MAY 1991); by revising in paragraph (b)(1) in the title in the clause list under the clause number 252.225-7001 the word "Payment" to read "Payments;" by adding in paragraph (b)(1) an additional clause at the end of the clause list to read "252.227-7015 Technical Data—Commercial Items;" and by revising in paragraph (b)(2) in the title in the clause list under the clause number FAR 52.223-1 the word "Clear" to read "Clean;"

12. Section 252.227-7013 is revised to read as follows:

**252.227-7013 Rights in technical data—Noncommercial items.**

As prescribed in 227.7103-6(a), use the following clause:

Rights in Technical Data—Noncommercial Items (June 1995)

(a) *Definitions.* As used in this clause:

(1) *Computer data base* means a collection of data recorded in a form capable of being processed by a computer. The term does not include computer software.

(2) *Computer program* means a set of instructions, rules, or routines recorded in a form that is capable of causing a computer to perform a specific operation or series of operations.

(3) *Computer software* means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer data bases or computer software documentation.

(4) *Computer software documentation* means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain

the capabilities of the computer software or provide instructions for using the software.

(5) *Detailed manufacturing or process data* means technical data that describe the steps, sequences, and conditions of manufacturing, processing or assembly used by the manufacturer to produce an item or component or to perform a process.

(6) *Developed* means that an item, component, or process exists and is workable. Thus, the item or component must have been constructed or the process practiced. Workability is generally established when the item, component, or process has been analyzed or tested sufficiently to demonstrate to reasonable people skilled in the applicable art that there is a high probability that it will operate as intended. Whether, how much, and what type of analysis or testing is required to establish workability depends on the nature of the item, component, or process, and the state of the art. To be considered "developed," the item, component, or process need not be at the stage where it could be offered for sale or sold on the commercial market, nor must the item, component, or process be actually reduced to practice within the meaning of Title 35 of the United States Code.

(7) *Developed exclusively at private expense* means development was accomplished entirely with costs charged to indirect cost pools, costs not allocated to a government contract, or any combination thereof.

(i) Private expense determinations should be made at the lowest practicable level.

(ii) Under fixed-price contracts, when total costs are greater than the firm-fixed-price or ceiling price of the contract, the additional development costs necessary to complete development shall not be considered when determining whether development was at government, private, or mixed expense.

(8) *Developed exclusively with government funds* means development was not accomplished exclusively or partially at private expense.

(9) *Developed with mixed funding* means development was accomplished partially with costs charged to indirect cost pools and/or costs not allocated to a government contract, and partially with costs charged directly to a government contract.

(10) *Form, fit, and function data* means technical data that describes the required overall physical, functional, and performance characteristics (along with the qualification requirements, if applicable) of an item, component, or process to the extent necessary to permit identification of physically and functionally interchangeable items.

(11) *Government purpose* means any activity in which the United States Government is a party, including cooperative agreements with international or multi-national defense organizations, or sales or transfers by the United States Government to foreign governments or international organizations. Government purposes include competitive procurement, but do not include the rights to use, modify, reproduce, release, perform, display, or disclose technical data for commercial purposes or authorize others to do so.

(12) *Government purpose rights* means the rights to—

(i) Use, modify, reproduce, release, perform, display, or disclose technical data within the Government without restriction; and

(ii) Release or disclose technical data outside the Government and authorize persons to whom release or disclosure has been made to use, modify, reproduce, release, perform, display, or disclose that data for United States government purposes.

(13) *Limited rights* means the rights to use, modify, reproduce, release, perform, display, or disclose technical data, in whole or in part, within the Government. The Government may not, without the written permission of the party asserting limited rights, release or disclose the technical data outside the Government, use the technical data for manufacture, or authorize the technical data to be used by another party, except that the Government may reproduce, release or disclose such data or authorize the use or reproduction of the data by persons outside the Government if reproduction, release, disclosure, or use is—

(i) Necessary for emergency repair and overhaul; or

(ii) A release or disclosure of technical data (other than detailed manufacturing or process data) to, or use of such data by, a foreign government that is in the interest of the Government and is required for evaluational or informational purposes;

(iii) Subject to a prohibition on the further reproduction, release, disclosure, or use of the technical data; and

(iv) The contractor or subcontractor asserting the restriction is notified of such reproduction, release, disclosure, or use.

(14) *Technical data* means recorded information, regardless of the form or method of the recording, of a scientific or technical nature (including computer software documentation). The term does not include computer software or data incidental to contract administration, such as financial and/or management information.

(15) *Unlimited rights* means rights to use, modify, reproduce, perform, display, release, or disclose technical data in whole or in part, in any manner, and for any purpose whatsoever, and to have or authorize others to do so.

(b) *Rights in technical data.* The Contractor grants or shall obtain for the Government the following royalty free, world-wide, nonexclusive, irrevocable license rights in technical data other than computer software documentation (see the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause of this contract for rights in computer software documentation):

(1) *Unlimited rights.*

The Government shall have unlimited rights in technical data that are—

(i) Data pertaining to an item, component, or process which has been or will be developed exclusively with Government funds;

(ii) Studies, analyses, test data, or similar data produced for this contract, when the study, analysis, test, or similar work was specified as an element of performance;

(iii) Created exclusively with Government funds in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes;

(iv) Form, fit, and function data;

(v) Necessary for installation, operation, maintenance, or training purposes (other than detailed manufacturing or process data);

(vi) Corrections or changes to technical data furnished to the Contractor by the Government;

(vii) Otherwise publicly available or have been released or disclosed by the Contractor or subcontractor without restrictions on further use, release or disclosure, other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the technical data to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(viii) Data in which the Government has obtained unlimited rights under another Government contract or as a result of negotiations; or

(ix) Data furnished to the Government, under this or any other Government contract or subcontract thereunder, with—

(A) Government purpose license rights or limited rights and the restrictive condition(s) has/have expired; or

(B) Government purpose rights and the Contractor's exclusive right to use such data for commercial purposes has expired.

(2) *Government purpose rights.*

(i) The Government shall have government purpose rights for a five-year period, or such other period as may be negotiated, in technical data—

(A) That pertain to items, components, or processes developed with mixed funding except when the Government is entitled to unlimited rights in such data as provided in paragraphs (b)(ii) and (b)(iv) through (b)(ix) of this clause; or

(B) Created with mixed funding in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes.

(ii) The five-year period, or such other period as may have been negotiated, shall commence upon execution of the contract, subcontract, letter contract (or similar contractual instrument), contract modification, or option exercise that required development of the items, components, or processes or creation of the data described in paragraph (b)(2)(i)(B) of this clause. Upon expiration of the five-year or other negotiated period, the Government shall have unlimited rights in the technical data.

(iii) The Government shall not release or disclose technical data in which it has government purpose rights unless—

(A) Prior to release or disclosure, the intended recipient is subject to the non-disclosure agreement at 27.7103-7 of the Defense Federal Acquisition Regulation Supplement (DFARS); or

(B) The recipient is a Government contractor receiving access to the data for performance of a Government contract that contains the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(iv) The Contractor has the exclusive right, including the right to license others, to use technical data in which the Government has obtained government purpose rights under this contract for any commercial purpose during the time period specified in the government purpose rights legend prescribed in paragraph (f)(2) of this clause.

(3) *Limited rights.*

(i) Except as provided in paragraphs (b)(1)(ii) and (b)(1)(iv) through (b)(1)(ix) of this clause, the Government shall have limited rights in technical data—

(A) Pertaining to items, components, or processes developed exclusively at private expense and marked with the limited rights legend prescribed in paragraph (f) of this clause; or

(B) Created exclusively at private expense in the performance of a contract that does not require the development, manufacture, construction, or production of items, components, or processes.

(ii) The Government shall require a recipient of limited rights data for emergency repair or overhaul to destroy the data and all copies in its possession promptly following completion of the emergency repair/overhaul and to notify the Contractor that the data have been destroyed.

(iii) The Contractor, its subcontractors, and suppliers are not required to provide the Government additional rights to use, modify, reproduce, release, perform, display, or disclose technical data furnished to the Government with limited rights. However, if the Government desires to obtain additional rights in technical data in which it has limited rights, the Contractor agrees to promptly enter into negotiations with the Contracting Officer to determine whether there are acceptable terms for transferring such rights. All technical data in which the Contractor has granted the Government additional rights shall be listed or described in a license agreement made part of the contract. The license shall enumerate the additional rights granted the Government in such data.

(4) *Specifically negotiated license rights.*

The standard license rights granted to the Government under paragraphs (b)(1) through (b)(3) of this clause, including the period during which the Government shall have government purpose rights in technical data, may be modified by mutual agreement to provide such rights as the parties consider appropriate but shall not provide the Government lesser rights than are enumerated in paragraph (a)(13) of this clause. Any rights so negotiated shall be identified in a license agreement made part of this contract.

(5) *Prior government rights.*

Technical data that will be delivered, furnished, or otherwise provided to the Government under this contract, in which the Government has previously obtained rights shall be delivered, furnished, or provided with the pre-existing rights, unless—

(i) The parties have agreed otherwise; or

(ii) Any restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose the data have expired or no longer apply.

(6) *Release from liability.*

The Contractor agrees to release the Government from liability for any release or disclosure of technical data made in accordance with paragraph (a)(13) or (b)(2)(iii) of this clause, in accordance with the terms of a license negotiated under paragraph (b)(4) of this clause, or by others to whom the recipient has released or disclosed the data and to seek relief solely from the party who has improperly used, modified, reproduced, released, performed, displayed, or disclosed Contractor data marked with restrictive restrictions.

(c) *Contractor rights in technical data.* All rights not granted to the Government are retained by the Contractor.

(d) *Third party copyrighted data.* The Contractor shall not, without the written approval of the Contracting Officer, incorporate any copyrighted data in the technical data to be delivered under this contract unless the Contractor is the copyright owner or has obtained for the Government the license rights necessary to perfect a license or licenses in the deliverable data of the appropriate scope set forth in paragraph (b) of this clause, and has affixed a statement of the license or licenses obtained on behalf of the Government and other persons to the data transmittal document.

(e) *Identification and delivery of data to be furnished with restrictions on use, release, or disclosure.* (1) This paragraph does not apply to restrictions based solely on copyright.

(2) Except as provided in paragraph (e)(3) of this clause, technical data that the Contractor asserts should be furnished to the Government with restrictions on use, release, or disclosure are identified in an attachment to this contract (the Attachment). The Contractor shall not deliver any data with restrictive markings unless the data are listed on the Attachment.

(3) In addition to the assertions made in the Attachment, other assertions may be identified after award when based on new information or inadvertent omissions unless the inadvertent omissions would have materially affected the source selection decision. Such identification and assertion shall be submitted to the Contracting Officer as soon as practicable prior to the scheduled date for delivery of the data, in the following format, and signed by an official authorized to contractually obligate the Contractor: Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data.

The Contractor asserts for itself, or the persons identified below, that the Government's rights to use, release, or disclose the following technical data should be restricted—

Technical data to be furnished with restrictions <sup>1</sup>	Basis for assertion <sup>2</sup>	Asserted rights category <sup>3</sup>	Name of person asserting restrictions <sup>4</sup>
(LIST) ..	(LIST) .....	(LIST) .....	(LIST)

<sup>1</sup> If the assertion is applicable to items, components or processes developed at private expense, identify both the data and each such item, component, or process.

<sup>2</sup> Generally, the development of an item, component, or process at private expense, either exclusively or partially, is the only basis for asserting restrictions on the Government's rights to use, release, or disclose technical data pertaining to such items, components, or processes. Indicate whether development was exclusively or partially at private expense. If development was not at private expense, enter the specific reason for asserting that the Government's rights should be restricted.

<sup>3</sup> Enter asserted rights category (e.g., government purpose license rights from a prior contract, rights in SBIR data generated under another contract, limited or government purpose rights under this or a prior contract, or specifically negotiated licenses).

<sup>4</sup> Corporation, individual, or other person, as appropriate.

Date \_\_\_\_\_

Printed Name and Title \_\_\_\_\_

Signature \_\_\_\_\_

(End of identification and assertion)

(4) When requested by the Contracting Officer, the Contractor shall provide sufficient information to enable the Contracting Officer to evaluate the Contractor's assertions. The Contracting Officer reserves the right to add the Contractor's assertions to the Attachment and validate any listed assertion, at a later date, in accordance with the procedures of the Validation of Restrictive Markings on Technical Data clause of this contract.

(f) *Marking requirements.* The Contractor, and its subcontractors or suppliers, may only assert restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data to be delivered under this contract by marking the deliverable data subject to restriction. Except as provided in paragraph (f)(5) of this clause, only the following legends are authorized under this contract: the government purpose rights legend at paragraph (f)(2) of this clause; the limited rights legend at paragraph (f)(3) of this clause; or the special license rights legend at paragraph (f)(4) of this clause; and/or a notice of copyright as prescribed under 17 U.S.C. 401 or 402.

(1) *General marking instructions.* The Contractor, or its subcontractors or suppliers, shall conspicuously and legibly mark the appropriate legend on all technical data that qualify for such markings. The authorized legends shall be placed on the transmittal document or storage container and, for printed material, each page of the printed material containing technical data for which restrictions are asserted. When only portions of a page of printed material are subject to the asserted restrictions, such portions shall

be identified by circling, underscoring, with a note, or other appropriate identifier. Technical data transmitted directly from one computer or computer terminal to another shall contain a notice of asserted restrictions. Reproductions of technical data or any portions thereof subject to asserted restrictions shall also reproduce the asserted restrictions.

(2) *Government purpose rights markings.* Data delivered or otherwise furnished to the Government purpose rights shall be marked as follows:

Government Purpose Rights

Contract No. \_\_\_\_\_

Contractor Name \_\_\_\_\_

Contractor Address \_\_\_\_\_

Expiration Date \_\_\_\_\_

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data are restricted by paragraph (b)(2) of the Rights in Technical Data—Noncommercial Items clause contained in the above identified contract. No restrictions apply after the expiration date shown above. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(3) *Limited rights markings.* Data delivered or otherwise furnished to the Government with limited rights shall be marked with the following legend:

Limited Rights

Contract No. \_\_\_\_\_

Contractor Name \_\_\_\_\_

Contractor Address \_\_\_\_\_

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data are restricted by paragraph (b)(3) of the Rights in Technical Data—Noncommercial Items clause contained in the above identified contract.

Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such data must promptly notify the above named Contractor. (End of legend)

(4) *Special license rights markings.* (i) Data in which the Government's rights stem from a specifically negotiated license shall be marked with the following legend:

Special License Rights

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these data are restricted by Contract No. \_\_\_\_\_ (Insert contract number) \_\_\_\_\_, License No. \_\_\_\_\_ (Insert license identifier) \_\_\_\_\_. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(ii) For purposes of this clause, special licenses do not include government purpose license rights acquired under a prior contract (see paragraph (b)(5) of this clause).

(5) *Pre-existing data markings.* If the terms of a prior contract or license permitted the Contractor to restrict the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data deliverable under this contract, and those restrictions are still applicable, the Contractor may mark such data with the appropriate restrictive legend for which the data qualified under the prior contract or license. The marking procedures in paragraph (f)(1) of this clause shall be followed.

(g) *Contractor procedures and records.* Throughout performance of this contract, the Contractor and its subcontractors or suppliers that will deliver technical data with other than unlimited rights, shall—

(1) Have, maintain, and follow written procedures sufficient to assure that restrictive markings are used only when authorized by the terms of this clause; and

(2) Maintain records sufficient to justify the validity of any restrictive markings on technical data delivered under this contract.

(h) *Removal of unjustified and nonconforming markings.* (1) *Unjustified technical data markings.* The rights and obligations of the parties regarding the validation of restrictive markings on technical data furnished or to be furnished under this contract are contained in the Validation of Restrictive Markings on Technical Data clause of this contract. Notwithstanding any provision of this contract concerning inspection and acceptance, the Government may ignore or, at the Contractor's expense, correct or strike a marking if, in accordance with the procedures in the Validation of Restrictive Markings on Technical Data clause of this contract, a restrictive marking is determined to be unjustified.

(2) *Nonconforming technical data markings.* A nonconforming marking is a marking placed on technical data delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. Correction of nonconforming markings is not subject to the Validation of Restrictive Markings on Technical Data clause of this contract. If the Contracting Officer notifies the Contractor of a nonconforming marking and the Contractor fails to remove or correct such marking within sixty (60) days, the Government may ignore or, at the Contractor's expense, remove or correct any nonconforming marking.

(i) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(j) *Limitation on charges for rights in technical data.* (1) The Contractor shall not charge to this contract any cost, including, but not limited to, license fees, royalties, or similar charges, for rights in technical data to be delivered under this contract when—

(i) The Government has acquired, by any means, the same or greater rights in the data; or

(ii) The data are available to the public without restrictions.

(2) The limitation in paragraph (j)(1) of this clause—

(i) Includes costs charged by a subcontractor or supplier, at any tier, or costs incurred by the Contractor to acquire rights in subcontractor or supplier technical data, if the subcontractor or supplier has been paid for such rights under any other Government contract or under a license conveying the rights to the Government; and

(ii) Does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the technical data will be delivered.

(k) *Applicability to subcontractors or suppliers.* (1) The Contractor shall ensure that the rights afforded its subcontractors and suppliers under 10 U.S.C. 2320, 10 U.S.C. 2321, and the identification, assertion, and delivery processes of paragraph (e) of this clause are recognized and protected.

(2) Whenever any noncommercial technical data is to be obtained from a subcontractor or supplier for delivery to the Government under this contract, the Contractor shall use this same clause in the subcontract or other contractual instrument, and require its subcontractors or suppliers to do so, without alteration, except to identify the parties. The Contractor shall use the Technical Data—Commercial Items clause of this contract to obtain technical data pertaining to commercial items, components, or processes. No other clause shall be used to enlarge or diminish the Government's, the Contractor's, or a higher-tier subcontractor's or supplier's rights in a subcontractor's or supplier's technical data.

(3) Technical data required to be delivered by a subcontractor or supplier shall normally be delivered to the next higher-tier contractor, subcontractor, or supplier. However, when there is a requirement in the prime contract for data which may be submitted with other than unlimited rights by a subcontractor or supplier, then said subcontractor or supplier may fulfill its requirement by submitting such data directly to the Government, rather than through a higher-tier contractor, subcontractor, or supplier.

(4) The Contractor and higher-tier subcontractors or suppliers shall not use their power to award contracts as economic leverage to obtain rights in technical data from their subcontractors or suppliers.

(5) In no event shall the Contractor use its obligation to recognize and protect subcontractor or supplier rights in technical data as an excuse for failing to satisfy its contractual obligations to the Government.

(End of clause)

Alternate I (June 1995)

As prescribed in 227.7103-6(b), add the following paragraph (l) to the basic clause:

(l) *Publication for sale.*

(1) This paragraph only applies to technical data in which the Government has obtained unlimited rights or a license to make an unrestricted release of technical data.

(2) The Government shall not publish a deliverable technical data item or items identified in this contract as being subject to paragraph (l) of this clause or authorize others to publish such data on its behalf if, prior to publication for sale by the

Government and within twenty-four (24) months following the date specified in this contract for delivery of such data or the removal of any national security or export control restrictions, whichever is later, the Contractor publishes that item or items for sale and promptly notifies the Contracting Officer of such publication(s). Any such publication shall include a notice identifying the number of this contract and the Government's rights in the published data.

(3) This limitation on the Government's right to publish for sale shall continue as long as the data are reasonably available to the public for purchase.

13. Section 252.227-7014 is added to read as follows:

**252.227-7014 Rights in noncommercial computer software and noncommercial computer software documentation.**

As prescribed in 227.7203-6(a)(1), use the following clause.

Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation (June 1995)

(a) *Definitions.* As used in this clause:

(1) *Commercial computer software* means software developed or regularly used for nongovernmental purposes which—

(i) Has been sold, leased, or licensed to the public;

(ii) Has been offered for sale, lease, or license to the public;

(iii) Has not been offered, sold, leased, or licensed to the public but will be available for commercial sale, lease, or license in time to satisfy the delivery requirements of this contract; or

(iv) Satisfies a criterion expressed in paragraph (a)(1) (i), (ii), or (iii) of this clause and would require only minor modification to meet the requirements of this contract.

(2) *Computer database* means a collection of recorded data in a form capable of being processed by a computer. The term does not include computer software.

(3) *Computer program* means a set of instructions, rules, or routines, recorded in a form that is capable of causing a computer to perform a specific operation or series of operations.

(4) *Computer software* means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae, and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer databases or computer software documentation.

(5) *Computer software documentation* means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

(6) *Developed* means that—

(i) A computer program has been successfully operated in a computer and tested to the extent sufficient to demonstrate to reasonable persons skilled in the art that the program can reasonably be expected to perform its intended purpose;

(ii) Computer software, other than computer programs, has been tested or analyzed to the extent sufficient to demonstrate to reasonable persons skilled in the art that the software can reasonably be expected to perform its intended purpose; or

(iii) Computer software documentation required to be delivered under a contract has been written, in any medium, in sufficient detail to comply with requirements under that contract.

(7) *Developed exclusively at private expense* means development was accomplished entirely with costs charged to indirect cost pools, costs not allocated to a government contract, or any combination thereof.

(i) Private expense determinations should be made at the lowest practicable level.

(ii) Under fixed-price contracts, when total costs are greater than the firm-fixed-price or ceiling price of the contract, the additional development costs necessary to complete development shall not be considered when determining whether development was at government, private, or mixed expense.

(8) *Developed exclusively with government funds* means development was not accomplished exclusively or partially at private expense.

(9) *Developed with mixed funding* means development was accomplished partially with costs charged to indirect cost pools and/or costs not allocated to a government contract, and partially with costs charged directly to a government contract.

(10) *Government purpose* means any activity in which the United States Government is a party, including cooperative agreements with international or multinational defense organizations or sales or transfers by the United States Government to foreign governments or international organizations. Government purposes include competitive procurement, but do not include the rights to use, modify, reproduce, release, perform, display, or disclose computer software or computer software documentation for commercial purposes or authorize others to do so.

(11) *Government purpose rights* means the rights to—

(i) Use, modify, reproduce, release, perform, display, or disclose computer software or computer software documentation within the Government without restriction; and

(ii) Release or disclose computer software or computer software documentation outside the Government and authorize persons to whom release or disclosure has been made to use, modify, reproduce, release, perform, display, or disclose the software or documentation for United States government purposes.

(12) *Minor modification* means a modification that does not significantly alter the nongovernmental function or purpose of the software or is of the type customarily provided in the commercial marketplace.

(13) *Noncommercial computer software* means software that does not qualify as commercial computer software under paragraph (a)(1) of this clause.

(14) *Restricted rights* apply only to noncommercial computer software and mean the Government's rights to—

(i) Use a computer program with one computer at one time. The program may not be accessed by more than one terminal or central processing unit or time shared unless otherwise permitted by this contract;

(ii) Transfer a computer program to another Government agency without the further permission of the Contractor if the transferor destroys all copies of the program and related computer software documentation in its possession and notifies the licensor of the transfer. Transferred programs remain subject to the provisions of this clause;

(iii) Make the minimum number of copies of the computer software required for safekeeping (archive), backup, or modification purposes;

(iv) Modify computer software provided that the Government may—

(A) Use the modified software only as provided in paragraphs (a)(14) (i) and (iii) of this clause; and

(B) Not release or disclose the modified software except as provided in paragraphs (a)(14) (ii), (v) and (vi) of this clause;

(v) Permit contractors or subcontractors performing service contracts (see 37.101 of the Federal Acquisition Regulation) in support of this or a related contract to use computer software to diagnose and correct deficiencies in a computer program, to modify computer software to enable a computer program to be combined with, adapted to, or merged with other computer programs or when necessary to respond to urgent tactical situations, provided that—

(A) The Government notifies the party which has granted restricted rights that a release or disclosure to particular contractors or subcontractors was made;

(B) Such contractors or subcontractors are subject to the use and non-disclosure agreement at 227.7103-7 of the Defense Federal Acquisition Regulation Supplement (DFARS) or are Government contractors receiving access to the software for performance of a Government contract that contains the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;

(C) The Government shall not permit the recipient to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (a)(14)(iv) of this clause, for any other purpose; and

(D) Such use is subject to the limitation in paragraph (a)(14)(i) of this clause; and

(vi) Permit contractors or subcontractors performing emergency repairs or overhaul of items or components of items procured under this or a related contract to use the computer software when necessary to perform the repairs or overhaul, or to modify the computer software to reflect the repairs or overhaul made, provided that—

(A) The intended recipient is subject to the use and non-disclosure agreement at DFARS 227.7103-7 or is a Government contractor receiving access to the software for performance of a Government contract that contains the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends; and

(B) The Government shall not permit the recipient to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (a)(14)(iv) of this clause, for any other purpose.

(15) *Unlimited rights* means rights to use, modify, reproduce, release, perform, display, or disclose computer software or computer software documentation in whole or in part, in any manner and for any purpose whatsoever, and to have or authorize others to do so.

(b) *Rights in computer software or computer software documentation.* The Contractor grants or shall obtain for the Government the following royalty free, world-wide, nonexclusive, irrevocable license rights in noncommercial computer software or computer software documentation. All rights not granted to the Government are retained by the Contractor.

(1) *Unlimited rights.* The Government shall have unlimited rights in—

(i) Computer software developed exclusively with Government funds;

(ii) Computer software documentation required to be delivered under this contract;

(iii) Corrections or changes to computer software or computer software documentation furnished to the Contractor by the Government;

(iv) Computer software or computer software documentation that is otherwise publicly available or has been released or disclosed by the Contractor or subcontractor without restriction on further use, release or disclosure, other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the software to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(v) Computer software or computer software documentation obtained with unlimited rights under another Government contract or as a result of negotiations; or

(vi) Computer software or computer software documentation furnished to the Government, under this or any other Government contract or subcontract thereunder with—

(A) Restricted rights in computer software, limited rights in technical data, or government purpose license rights and the restrictive conditions have expired; or

(B) Government purpose rights and the Contractor's exclusive right to use such software or documentation for commercial purposes has expired.

(2) *Government purpose rights.* (i) Except as provided in paragraph (b)(1) of this clause, the Government shall have government purpose rights in computer software development with mixed funding.

(ii) Government purpose rights shall remain in effect for a period of five years unless a different period has been negotiated. Upon expiration of the five-year or other negotiated period, the Government shall have unlimited rights in the computer software or computer software documentation. The government purpose rights period shall commence upon execution of the contract, subcontract, letter contract (or similar

contractual instrument), contract modification, or option exercise that required development of the computer software.

(iii) The Government shall not release or disclose computer software in which it has government purpose rights to any other person unless—

(A) Prior to release or disclosure, the intended recipient is subject to the use and non-disclosure agreement at DFARS 227.7103-7; or

(B) The recipient is a Government contractor receiving access to the software or documentation for performance of a Government contract that contains the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government Furnished Information Marked with Restrictive Legends.

(3) *Restricted rights.* (i) The Government shall have restricted rights in noncommercial computer software required to be delivered or otherwise provided to the Government under this contract that were developed exclusively at private expense.

(ii) The Contractor, its subcontractors, or suppliers are not required to provide the Government additional rights in noncommercial computer software delivered or otherwise provided to the Government with restricted rights. However, if the Government desires to obtain additional rights in such software, the Contractor agrees to promptly enter into negotiations with the Contracting Officer to determine whether there are acceptable terms for transferring such rights. All noncommercial computer software in which the Contractor has granted the Government additional rights shall be listed or described in a license agreement made part of the contract (see paragraph (b)(4) of this clause). The license shall enumerate the additional rights granted the Government.

(4) *Specifically negotiated license rights.* (i) The standard license rights granted to the Government under paragraphs (b)(1) through (b)(3) of this clause, including the period during which the Government shall have government purpose rights in computer software, may be modified by mutual agreement to provide such rights as the parties consider appropriate but shall not

provide the Government lesser rights in computer software than are enumerated in paragraph (a)(14) of this clause or lesser rights in computer software documentation than are enumerated in paragraph (a)(13) of the Rights in Technical Data—Noncommercial Items clause of this contract.

(ii) Any rights so negotiated shall be identified in a license agreement made part of this contract.

(5) *Prior government rights.* Computer software or computer software documentation that will be delivered, furnished, or otherwise provided to the Government under this contract, in which the Government has previously obtained rights shall be delivered, furnished, or provided with the pre-existing rights, unless—

(i) The parties have agreed otherwise; or  
 (ii) Any restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose the data have expired or no longer apply.

(6) *Release from liability.* The Contractor agrees to release the Government from liability for any release or disclosure of computer software made in accordance with paragraph (a)(14) or (b)(2)(iii) of this clause, in accordance with the terms of a license negotiated under paragraph (b)(4) of this clause, or by others to whom the recipient has released or disclosed the software, and to seek relief solely from the party who has improperly used, modified, reproduced, released, performed, displayed, or disclosed Contractor software marked with restrictive legends.

(c) *Rights in derivative computer software or computer software documentation.* The Government shall retain its rights in the unchanged portions of any computer software or computer software documentation delivered under this contract that the Contractor uses to prepare, or includes in, derivative computer software or computer software documentation.

(d) *Third party copyrighted computer software or computer software documentation.* The Contractor shall not, without the written approval of the Contracting Officer, incorporate any copyrighted computer software or computer

software documentation in the software or documentation to be delivered under this contract unless the Contractor is the copyright owner or has obtained for the Government the license rights necessary to perfect a license or licenses in the deliverable software or documentation of the appropriate scope set forth in paragraph (b) of this clause, and prior to delivery of such—

(1) Computer software, has provided a statement of the license rights obtained in a form acceptable to the Contracting Officer; or

(2) Computer software documentation, has affixed to the transmittal document a statement of the license rights obtained.

(e) *Identification and delivery of computer software and computer software documentation to be furnished with restrictions on use, release, or disclosure.* (1) This paragraph does not apply to restrictions based solely on copyright.

(2) Except as provided in paragraph (e)(3) of this clause, computer software that the Contractor asserts should be furnished to the Government with restrictions on use, release, or disclosure is identified in an attachment to this contract (the Attachment). The Contractor shall not deliver any software with restrictive markings unless the software is listed on the Attachment.

(3) In addition to the assertions made in the Attachment, other assertions may be identified after award when based on new information or inadvertent omissions unless the inadvertent omissions would have materially affected the source selection decision. Such identification and assertion shall be submitted to the Contracting Officer as soon as practicable prior to the scheduled data for delivery of the software, in the following format, and signed by an official authorized to contractually obligate the Contractor: Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Computer Software.

The Contractor asserts for itself, or the persons identified below, that the Government's rights to use, release, or disclose the following computer software should be restricted:

Computer Software to be Furnished With Restrictions*	Basis for Assertion**	Asserted Rights Category***	Name of Person Asserting Restrictions****
(LIST)	(LIST)	(LIST)	(LIST)

\*Generally, development at private expense, either exclusively or partially, is the only basis for asserting restrictions on the Government's rights to use, release, or disclose computer software.

\*\*Indicate whether development was exclusively or partially at private expense. If development was not at private expense, enter the specific reason for asserting that the Government's rights should be restricted.

\*\*\*Enter asserted rights category (e.g., restricted or government purpose rights in computer software, government purpose license rights from a prior contract, rights in SBIR software generated under another contract, or specifically negotiated licenses).

\*\*\*\*Corporation, individual, or other person, as appropriate.

Date \_\_\_\_\_  
 Printed Name and Title \_\_\_\_\_  
 Signature \_\_\_\_\_  
 (End of identification and assertion)

(4) When requested by the Contracting Officer, the Contractor shall provide sufficient information to enable the

Contracting Officer to evaluate the Contractor's assertions. The Contracting Officer reserves the right to add the Contractor's assertions to the Attachment and validate any listed assertion, at a later date, in accordance with the procedures of the Validation of Asserted Restrictions—Computer Software clause of this contract.

(f) *Marking requirements.* The Contractor, and its subcontractors or suppliers, may only

assert restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose computer software by marking the deliverable software or documentation subject to restriction. Except as provided in paragraph (f)(5) of this clause, only the following legends are authorized under this contract; the government purpose rights legend at paragraph (f)(2) of this clause; the restricted rights legend at

paragraph (f)(3) of this clause; or the special license rights legend at paragraph (f)(4) of this clause; and/or a notice of copyright as prescribed under 17 U.S.C. 401 or 402.

(1) *General marking instructions.* The Contractor, or its subcontractors or suppliers, shall conspicuously and legibly mark the appropriate legend on all computer software that qualify for such markings. The authorized legends shall be placed on the transmitted document or software storage container and each page, or portions thereof, of printed material containing computer software for which restrictions are asserted. Computer software transmitted directly from one computer or computer terminal to another shall contain a notice of asserted restrictions. However, instructions that interfere with or delay the operation of computer software in order to display a restrictive rights legend or other license statement at any time prior to or during use of the computer software, or otherwise cause such interference or delay, shall not be inserted in software that will or might be used in combat or situations that simulate combat conditions, unless the Contracting Officer's written permission to deliver such software has been obtained prior to delivery. Reproductions of computer software or any portions thereof subject to asserted restrictions, shall also reproduce the asserted restrictions.

(2) *Government purpose rights markings.* Computer software delivered or otherwise furnished to the Government with government purpose rights shall be marked as follows:

**GOVERNMENT PURPOSE RIGHTS**

Contract No. \_\_\_\_\_  
 Contractor Name \_\_\_\_\_  
 Contractor Address \_\_\_\_\_  
 \_\_\_\_\_  
 Expiration Date \_\_\_\_\_

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this software are restricted by paragraph (b)(2) of the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause contained in the above identified contract. No restrictions apply after the expiration date shown above. Any reproduction of the software or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(3) *Restricted rights markings.* Software delivered or otherwise furnished to the Government with restricted rights shall be marked with the following legend:

**RESTRICTED RIGHTS**

Contract No. \_\_\_\_\_  
 Contractor Name \_\_\_\_\_  
 Contractor Address \_\_\_\_\_  
 \_\_\_\_\_

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this software are restricted by paragraph (b)(3) of the Rights in Noncommercial Computer Software and Noncommercial Computer Software

Documentation clause contained in the above identified contract. Any reproduction of computer software or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such software must promptly notify the above named Contractor.

(End of legend)

(4) *Special license rights markings.* (i) Computer software or computer documentation in which the Government's rights stem from a specifically negotiated license shall be marked with the following legend:

**SPECIAL LICENSE RIGHTS**

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this software are restricted by Contract No. \_\_\_\_\_ (Insert contract number) \_\_\_\_\_, License No. \_\_\_\_\_ (Insert license identifier) \_\_\_\_\_. Any reproduction of computer software, computer software documentation, or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(ii) For purposes of this clause, special licenses do not include government purpose license rights acquired under a prior contract (see paragraph (b)(5) of this clause).

(5) *Pre-existing markings.* If the terms of a prior contract or license permitted the Contractor to restrict the Government's rights to use, modify, release, perform, display, or disclose computer software or computer software documentation and those restrictions are still applicable, the Contractor may mark such software or documentation with the appropriate restrictive legend for which the software qualified under the prior contract or license. The marking procedures in paragraph (f)(1) of this clause shall be followed.

(g) *Contractor procedures and records.* Throughout performance of this contract, the Contractor and its subcontractors or suppliers that will deliver computer software or computer software documentation with other than unlimited rights, shall—

(1) Have, maintain, and follow written procedures sufficient to assure that restrictive markings are used only when authorized by the terms of this clause; and

(2) Maintain records sufficient to justify the validity of any restrictive markings on computer software or computer software documentation delivered under this contract.

(h) *Removal of unjustified and nonconforming markings.* (1) *Unjustified computer software or computer software documentation markings.* The rights and obligations of the parties regarding the validation of restrictive markings on computer software or computer software documentation furnished or to be furnished under this contract are contained in the Validation of Asserted Restrictions—Computer Software and the Validation of Restrictive Markings on Technical Data clauses of this contract, respectively. Notwithstanding any provision of this contract concerning inspection and acceptance, the Government may ignore or, at

the Contractor's expense, correct or strike a marking if, in accordance with the procedures of those clauses, a restrictive marking is determined to be unjustified.

(2) *Nonconforming computer software or computer software documentation markings.* A nonconforming marking is a marking placed on computer software or computer software documentation delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. Correction of nonconforming markings is not subject to the Validation of Asserted Restrictions—Computer Software or the Validation of Restrictive Markings on Technical Data clause of this contract. If the Contracting Officer notifies the Contractor of a nonconforming marking or markings and the Contractor fails to remove or correct such markings within sixty (60) days, the Government may ignore or, at the Contractor's expense, remove or correct any nonconforming markings.

(i) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(j) *Limitation on charges for rights in computer software or computer software documentation.* (1) The Contractor shall not charge to this contract any cost, including but not limited to license fees, royalties, or similar charges, for rights in computer software or computer software documentation to be delivered under this contract when—

(i) The Government has acquired, by any means, the same or greater rights in the software or documentation; or

(ii) The software or documentation are available to the public without restrictions.

(2) The limitation in paragraph (j)(1) of this clause—

(i) Includes costs charged by a subcontractor or supplier, at any tier, or costs incurred by the Contractor to acquire rights in subcontractor or supplier computer software or computer software documentation, if the subcontractor or supplier has been paid for such rights under any other Government contract or under a license conveying the rights to the Government; and

(ii) Does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the software or documentation will be delivered.

(k) *Applicability to subcontractors or suppliers.* (1) Whenever any noncommercial computer software or computer software documentation is to be obtained from a subcontractor or supplier for delivery to the Government under this contract, the Contractor shall use this same clause in its subcontracts or other contractual instruments, and require its subcontractors or suppliers to do so, without alteration, except to identify the parties. No other clause shall be used to enlarge or diminish the Government's, the Contractor's, or a higher tier subcontractor's or supplier's rights in a subcontractor's or supplier's computer software or computer software documentation.

(2) The Contractor and higher tier subcontractors or suppliers shall not use their power to award contracts as economic leverage to obtain rights in computer software or computer software documentation from their subcontractors or suppliers.

(3) The Contractor shall ensure that subcontractor or supplier rights are recognized and protected in the identification, assertion, and delivery processes required by paragraph (e) of this clause.

(4) In no event shall the Contractor use its obligation to recognize and protect subcontractor or supplier rights in computer software or computer software documentation as an excuse for failing to satisfy its contractual obligation to the Government.

(End of clause)

#### ALTERNATE I (JUN 1995)

As prescribed in 227.7203-6(a)(2), add the following paragraph (l) to the basic clause:

##### (l) *Publication for sale.*

(1) This paragraph only applies to computer software or computer software documentation in which the Government has obtained unlimited rights or a license to make an unrestricted release of the software or documentation.

(2) The Government shall not publish a deliverable item or items of computer software or computer software documentation identified in this contract as being subject to paragraph (l) of this clause or authorize others to publish such software or documentation on its behalf if, prior to publication for sale by the Government and within twenty-four (24) months following the date specified in this contract for delivery of such software or documentation, or the removal of any national security or export control restrictions, whichever is later, the Contractor publishes that item or items for sale and promptly notifies the Contracting Officer of such publication(s). Any such publication shall include a notice identifying the number of this contract and the Government's rights in the published software or documentation.

(3) This limitation on the Government's rights to publish for sale shall continue as long as the software or documentation are reasonably available to the public for purchase.

14. Section 252.227-7015 is added to read as follows:

#### 252.227-7015 Technical Data—Commercial Items.

As prescribed in 227.7102-3, use the following clause:

##### TECHNICAL DATA—COMMERCIAL ITEMS (JUN 1995)

(a) *Definitions.* As used in this clause:

(1) *Commercial item* means—

(i) Any item, other than real property or computer software, that customarily is used by the public for nongovernmental purposes and that—

(A) Has been sold, leased, or licensed to the public; or

(B) Has been offered for sale, lease, or license to the public;

(ii) Any item that evolved from an item described in paragraph (a)(1)(i) of this clause through advances in technology or performance and will be available in the commercial marketplace in time to satisfy the delivery requirements specified in this contract;

(iii) Any item that would satisfy a criterion expressed in paragraph (a)(1)(i) or (ii) of this clause, but for—

(A) Modifications of a type customarily available in the commercial marketplace; or

(B) Minor modifications made to meet Federal Government requirements;

(iv) Any combination of items meeting the requirements of paragraph (a)(1)(i), (ii), (iii), or (v) of this clause that are of a type customarily combined and sold in combination to the public;

(v) Installation services, maintenance services, repair services, training services, and other services if such services are procured for support of an item referred to in paragraph (a)(1)(i), (ii), (iii), or (iv) of this clause, and the source of such services—

(A) Offers such services to the public and the Federal Government contemporaneously and under similar terms and conditions; and

(B) Offers to use the same work force for providing the Federal Government with such services as the source uses for providing such services to the general public;

(vi) Services, offered and sold competitively, in substantial quantities, in the commercial marketplace based on established catalog prices for specific tasks performed under standard commercial terms and conditions;

(vii) Any item, combination of items, or service referred to in paragraphs (a)(1)(i) through (vi) of this clause notwithstanding the fact that the item, combination of items, or service is transferred between or among separate divisions, subsidiaries, or affiliates of a contractor; or

(viii) Other nondevelopmental items, if the Contracting Officer determines that the item was developed exclusively at private expense and has been sold in substantial quantities, on a competitive basis, to multiple state and local governments.

(2) *Component* means any item supplied to the government as part of an end item or of another component.

(3) *Contractor* includes the Contractor's subcontractors and suppliers at any tier.

(4) *Form, fit, and function data* means technical data that describes the required overall physical, functional, and performance characteristics (along with the qualification requirements, if applicable) of an item, component, or process to the extent necessary to permit identification of physically and functionally interchangeable items.

(5) The term *item* includes components or processes.

(6) *Minor modification* means a modification that does not significantly alter the nongovernmental function or essential physical characteristics of an item or component, or change the purpose of a process.

(7) *Technical data* means recorded information, regardless of the form or method of recording, of a scientific or technical

nature (including computer software documentation). The term does not include computer software or data incidental to contract administration, such as financial and/or management information.

(b) *License.* (1) The Government shall have the unrestricted right to use, modify, reproduce, release, perform, display, or disclose technical data, and to permit others to do so, that—

(i) Have been provided to the Government or others without restrictions on use, modification, reproduction, release, or further disclosure other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the technical data to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(ii) Are form, fit, and function data;

(iii) Are a correction or change to technical data furnished to the Contractor by the Government;

(iv) Are necessary for operation, maintenance, installation, or training (other than detailed manufacturing or process data); or

(v) Have been provided to the Government under a prior contract or licensing agreement through which the Government has acquired the rights to use, modify, reproduce, release, perform, display, or disclose the data without restrictions.

(2) Except as provided in paragraph (b)(1) of this clause, the Government may use, modify, reproduce, release, perform, display, or disclose technical data within the Government only. The Government shall not—

(i) Use the technical data to manufacture additional quantities of the commercial items; or

(ii) Release, perform, display, disclose, or authorize use of the technical data outside the Government without the Contractor's written permission unless a release, disclosure or permitted use is necessary for emergency repair or overhaul of the commercial items furnished under this contract.

(c) *Additional license rights.* The Contractor, its subcontractors, and suppliers are not required to provide the Government additional rights to use, modify, reproduce, release, perform, display, or disclose technical data. However, if the Government desires to obtain additional rights in technical data, the Contractor agrees to promptly enter into negotiations with the Contracting Officer to determine whether there are acceptable terms for transferring such rights. All technical data in which the Contractor has granted the Government additional rights shall be listed or described in a special license agreement made part of this contract. The license shall enumerate the additional rights granted the Government in such data.

(d) *Release from liability.* The Contractor agrees that the Government, and other persons to whom the Government may have released or disclosed technical data delivered or otherwise furnished under this contract, shall have no liability for any release or disclosure of technical data that are not marked to indicate that such data are

licensed data subject to use, modification, reproduction, release, performance, display, or disclosure restrictions.

(End of clause)

15. Section 252.227-7016 is added to read as follows:

**252.227-7016 Rights in bid or proposal information.**

As prescribed in 227.7103-6(e)(1), 227.7104(e)(1), or 227.7203-6(b), use the following clause:

**RIGHTS IN BID OR PROPOSAL INFORMATION (JUN 1995)**

*(a) Definitions.*

(1) For contracts that require the delivery of technical data, the terms "technical data" and "computer software" are defined in the Rights in Technical Data—Noncommercial Item clause of this contract or, if this is a contract awarded under the Small Business Innovative Research Program, the Rights in Noncommercial Technical Data and Computer Software—Small Business Innovative Research (SBIR) Program clause of this contract.

(2) For contracts that do not require the delivery of technical data, the term "computer software" is defined in the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause of this contract or, if this is a contract awarded under the Small Business Innovative Research Program, the Rights in Noncommercial Technical Data and Computer Software—Small Business Innovative Research (SBIR) Program clause of this contract.

*(b) Government rights to contract award.* By submission of its offer, the Offeror agrees that the Government—

(1) May reproduce the bid or proposal, or any portions thereof, to the extent necessary to evaluate the offer.

(2) Except as provided in paragraph (d) of this clause, shall use information contained in the bid or proposal only for evaluational purposes and shall not disclose, directly or indirectly, such information to any person including potential evaluators, unless that person has been authorized by the head of the agency, his or her designee, or the Contracting Officer to receive such information.

*(c) Government rights subsequent to contract award—*The Contractor agrees—

(1) Except as provided in paragraphs (c)((2), (d), and (e) of this clause, the Government shall have the rights to use, modify, reproduce, release, perform, display, or disclose information contained in the

Contractor's bid or proposal within the Government. The Government shall not release, perform, display, or disclose such information outside the Government without the Contractor's written permission.

(2) The Government's right to use, modify, reproduce, release, perform, display, or disclose information that is technical data or computer software required to be delivered under this contract are determined by the Rights in Technical Data—Noncommercial Items, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation, or Rights in Noncommercial Technical Data and Computer Software—Small Business Innovative Research (SBIR) Program clause(s) of this contract.

*(d) Government-furnished information.* The Government's rights with respect to technical data or computer software contained in the Contractor's bid or proposal that were provided to the Contractor by the Government are subject only to restrictions on use, modification, reproduction, release, performance, display, or disclosure, if any, imposed by the developer or licensor of such data or software.

*(e) Information available without restrictions.* The Government's rights to use, modify, reproduce, release, perform, display, or, disclose information contained in a bid or proposal, including technical data or computer software, and to permit others to do so, shall not be restricted in any manner if such information has been released or disclosed to the Government or to other persons without restrictions other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the information to another party or the sale or transfer of some or all of a business entity or its assets to another party.

*(f) Flowdown.* Contractor shall include this clause in all subcontracts or similar contractual instruments and require its subcontractors or suppliers to do so without alteration, except to identify the parties.

(End of clause)

16. Section 252.227-7017 is added to read as follows:

**252.227-7017 Identification and assertion of use, release, or disclosure restrictions.**

As prescribed in 227.7103-3(b), 227.7104(e)(2), or 227.7203-3(a), use the following provision:

**IDENTIFICATION AND ASSERTION OF USE, RELEASE, OR DISCLOSURE RESTRICTIONS (JUN 1995)**

(a) The terms used in this provision are defined in following clause or clauses contained in this solicitation—

(1) If a successful offeror will be required to deliver technical data, the Rights in Technical Data—Noncommercial Items clause, or, if this solicitation contemplates a contract under the Small Business Innovative Research Program, the Rights in Noncommercial Technical Data and Computer Software—Small Business Innovative Research (SBIR) Program clause.

(2) If a successful offeror will not be required to deliver technical data, the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause, or, if this solicitation contemplates a contract under the Small Business Innovative Research Program, the Rights in Noncommercial Technical Data and Computer Software—Small Business Innovative Research (SBIR) Program clause.

(b) The identification and assertion requirements in this provision apply only to technical data, including computer software documents, or computer software to be delivered with other than unlimited rights. For contracts to be awarded under the Small Business Innovative Research Program, the notification requirements do not apply to technical data or computer software that will be generated under the resulting contract. Notification and identification is not required for restrictions based solely on copyright.

(c) Offers submitted in response to this solicitation shall identify, to the extent known at the time an offer is submitted to the Government, the technical data or computer software that the Offeror, its subcontractors or suppliers, or potential subcontractors or suppliers, assert should be furnished to the Government with restrictions on use, release, or disclosure.

(d) The Offeror's assertions, including the assertions of its subcontractors or suppliers or potential subcontractors or suppliers shall be submitted as an attachment to its offer in the following format, dated and signed by an official authorized to contractually obligate the Offeror:

Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data or Computer Software.

The Offeror asserts for itself, or the persons identified below, that the Government's rights to use, release, or disclose the following technical data or computer software should be restricted:

Technical Data or Computer Software to be Furnished With Restrictions*	Basis for Assertion**	Asserted Rights Category***	Name of Person Asserting Restrictions****
(LIST)*****	(LIST)	(LIST)	(LIST)

\*For technical data (other than computer software documentation) pertaining to items, components, or processes developed at private expense, identify both the deliverable technical data and each such items, component, or process. For computer software or computer software documentation identify the software or documentation.

\*\*Generally, development at private expense, either exclusively or partially, is the only basis for asserting restrictions. For technical data, other than computer software documentation, development refers to development of the item, component, or process to which the data pertain. The Government's rights in computer software documentation generally may not be restricted. For computer software, development refers to the software. Indicate whether development was accomplished exclusively or partially at private expense. If development was not accomplished at private expense, or for computer software documentation, enter the specific basis for asserting restrictions.

\*\*\*Enter asserted rights category (e.g., government purpose license rights from a prior contract, rights in SBIR data generated under another contract, limited, restricted, or government purpose rights under this or a prior contract, or specially negotiated licenses).

\*\*\*\*Corporation, individual, or other person, as appropriate.

\*\*\*\*\*Enter "none" when all data or software will be submitted without restrictions.

Date \_\_\_\_\_

Printed Name and Title \_\_\_\_\_

Signature \_\_\_\_\_

(End of identification and assertion)

(e) An offeror's failure to submit, complete, or sign the notification and identification required by paragraph (d) of this provision with its offer may render the offer ineligible for award.

(f) If the Offeror is awarded a contract, the assertions identified in paragraph (d) of this provision shall be listed in an attachment to that contract. Upon request by the Contracting Officer, the Offeror shall provide sufficient information to enable the Contracting Officer to evaluate any listed assertion.

(End of provision)

17. Section 252.227-7018 is revised to read as follows:

**252.227-7018 Rights in noncommercial technical data and computer software—Small Business Innovative Research (SBIR) Program.**

As prescribed in 227.7104(a), use the following clause:

**RIGHTS IN NONCOMMERCIAL TECHNICAL DATA AND COMPUTER SOFTWARE—SMALL BUSINESS INNOVATIVE RESEARCH (SBIR) PROGRAM (JUN 1995)**

(a) *Definitions.* As used in this clause:

(1) *Commercial computer software* means software developed or regularly used for nongovernmental purposes which—

(i) Has been sold, leased, or licensed to the public;

(ii) Has been offered for sale, lease, or license to the public;

(iii) Has not been offered, sold, leased, or licensed to the public but will be available for commercial sale, lease, or license in time to satisfy the delivery requirements of this contract; or

(iv) Satisfies a criterion expressed in paragraph (a)(1)(i), (ii), or (iii) of this clause and would require only minor modification to meet the requirements of this contract.

(2) *Computer database* means a collection of recorded data in a form capable of being processed by a computer. The term does not include computer software.

(3) *Computer program* means a set of instructions, rules, or routines, recorded in a form that is capable of causing a computer to perform a specific operation or series of operations.

(4) *Computer software* means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae, and related material that would enable the software to be reproduced, re-created, or recompiled. Computer software does not include computer databases or computer software documentation.

(5) *Computer software documentation*

means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

(6) *Detailed manufacturing or process data* means technical data that describe the steps, sequences, and conditions of manufacturing, processing or assembly used by the manufacturer to produce an item or component or to perform a process.

(7) *Developed* means—

(i) (Applicable to technical data other than computer software documentation.) An item, component, or process, exists and is workable. Thus, the item or component must have been constructed or the process practiced. Workability is generally established when the item, component, or process has been analyzed or tested sufficiently to demonstrate to reasonable people skilled in the applicable art that there is a high probability that it will operate as intended. Whether, how much, and what type of analysis or testing is required to establish workability depends on the nature of the item, component, or process, and the state of the art. To be considered "developed," the item, component, or process need not be at the stage where it could be offered for sale or sold on the commercial market, nor must the item, component or process be actually reduced to practice within the meaning of Title 35 of the United States Code;

(ii) A computer program has been successfully operated in a computer and tested to the extent sufficient to demonstrate to reasonable persons skilled in the art that the program can reasonably be expected to perform its intended purpose;

(iii) Computer software, other than computer programs, has been tested or analyzed to the extent sufficient to demonstrate to reasonable persons skilled in the art that the software can reasonably be expected to perform its intended purpose; or

(iv) Computer software documentation required to be delivered under a contract has been written, in any medium, in sufficient detail to comply with requirements under that contract.

(8) *Developed exclusively at private expense* means development was accomplished entirely with costs charged to indirect cost pools, costs not allocated to a government contract, or any combination thereof.

(i) Private expense determinations should be made at the lowest practicable level.

(ii) Under fixed-price contracts, when total costs are greater than the firm-fixed-price or ceiling price of the contract, the additional development costs necessary to complete development shall not be considered when determining whether development was at government, private, or mixed expense.

(9) *Developed exclusively with government funds* means development was not

accomplished exclusively or partially at private expense.

(10) *Developed with mixed funding* means development was accomplished partially with costs charged to indirect cost pools and/or costs not allocated to a government contract, and partially with costs charged directly to a government contract.

(11) *Form, fit, and function data* means technical data that describe the required overall physical, functional, and performance characteristics (along with the qualification requirements, if applicable) of an item, component, or process to the extent necessary to permit identification of physically and functionally interchangeable items.

(12) *Generated* means technical data or computer software first created in the performance of this contract.

(13) *Government purpose* means any activity in which the United States Government is a party, including cooperative agreements with international or multi-national defense organizations or sales or transfers by the United States Government to foreign governments or international organizations. Government purposes include competitive procurement, but do not include the rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software for commercial purposes or authorize others to do so.

(14) *Limited rights* means the rights to use, modify, reproduce, release, perform, display, or disclose technical data, in whole or in part, within the Government. The Government may not, without the written permission of the party asserting limited rights, release or disclose the technical data outside the Government, use the technical data for manufacture, or permit the technical data to be used by another party, except that the Government may reproduce, release or disclose such data or permit the use or reproduction of the data by persons outside the Government if reproduction, release, disclosure, or use is—

(i) Necessary for emergency repair and overhaul; or

(ii) A release or disclosure of technical data (other than detailed manufacturing or process data) to, or use of such data by, a foreign government that is in the interest of the Government and is required for evaluational or informational purposes;

(iii) Subject to a prohibition on the further reproduction, release disclosure, or use of the technical data; and

(iv) The Contractor or subcontractor asserting the restriction is notified of such reproduction, release, disclosure, or use.

(15) *Minor modification* means a modification that does not significantly alter the nongovernmental function or purpose of computer software or is of the type customarily provided in the commercial marketplace.

(16) *Noncommercial computer software* means software that does not qualify as

commercial computer software under paragraph (a)(1) of this clause.

(17) *Restricted rights* apply only to noncommercial computer software and mean the Government's rights to—

(i) Use a computer program with one computer at one time. The program may not be accessed by more than one terminal or central processing unit or time shared unless otherwise permitted by this contract;

(ii) Transfer a computer program to another Government agency without the further permission of the Contractor if the transferor destroys all copies of the program and related computer software documentation in its possession and notifies the licensor of the transfer. Transferred programs remain subject to the provisions of this clause;

(iii) Make the minimum number of copies of the computer software required for safekeeping (archive), backup, or modification purposes;

(iv) Modify computer software provided that the Government may—

(A) Use the modified software only as provided in paragraphs (a)(17) (i) and (iii) of this clause; and

(B) Not release or disclose the modified software except as provided in paragraphs (a)(17) (ii), (v) and (vi) of this clause;

(v) Permit contractors or subcontractors performing service contracts (see 37.101 of the Federal Acquisition Regulation) in support of this or a related contract to use computer software to diagnose and correct deficiencies in a computer program, to modify computer software to enable a computer program to be combined with, adapted to, or merged with other computer programs or when necessary to respond to urgent tactical situations, provided that—

(A) The Government notifies the party which has granted restricted rights that a release or disclosure to particular contractors or subcontractors was made;

(B) Such contractors or subcontractors are subject to the non-disclosure agreement at 227.7103-7 of the Defense Federal Acquisition Regulation Supplement (DFARS) or are Government contractors receiving access to the software for performance of a Government contract that contains the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends;

(C) The Government shall not permit the recipient to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (a)(17)(iv) of this clause, for any other purpose; and

(D) Such use is subject to the limitation in paragraph (a)(17)(i) of this clause; and

(vi) Permit contractors or subcontractors performing emergency repairs or overhaul of items or components of items, procured under this or a related contract to use the computer software when necessary to perform the repairs or overhaul, or to modify the computer software to reflect the repairs or overhaul made, provided that—

(A) The intended recipient is subject to the non-disclosure agreement at DFARS 227.7103-7 or is a Government contractor

receiving access to the software for performance of a Government contract that contains the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends; and

(B) The Government shall not permit the recipient to decompile, disassemble, or reverse engineer the software, or use software decompiled, disassembled, or reverse engineered by the Government pursuant to paragraph (a)(17)(iv) of this clause, for any other purpose.

(18) *SBIR data rights* means a royalty-free license for the Government, including its support service contractors, to use, modify, reproduce, release, perform, display, or disclose technical data or computer software generated and delivered under this contract for any United States Government purpose.

(19) *Technical data* means recorded information, regardless of the form or method of the recording, of a scientific or technical nature (including computer software documentation). The term does not include computer software or data incidental to contract administration, such as financial and/or management information.

(20) *Unlimited rights* means rights to use, modify, reproduce, release, perform, display, or disclose, technical data or computer software in whole or in part, in any manner and for any purpose whatsoever, and to have or authorize others to do so.

(b) *Rights in technical data and computer software.* The Contractor grants or shall obtain for the Government the following royalty-free, world-wide, nonexclusive, irrevocable license rights in technical data or noncommercial computer software. All rights not granted to the Government are retained by the Contractor.

(1) *Unlimited rights.* The Government shall have unlimited rights in technical data, including computer software documentation, or computer software generated under this contract that are—

(i) Form, fit, and function data;

(ii) Necessary for installation, operation, maintenance, or training purposes (other than detailed manufacturing or process data);

(iii) Corrections or changes to Government-furnished technical data or computer software;

(iv) Otherwise publicly available or have been released or disclosed by the Contractor or a subcontractor without restrictions on further use, release or disclosure other than a release or disclosure resulting from the sale, transfer, or other assignment of interest in the technical data or computer software to another party or the sale or transfer of some or all of a business entity or its assets to another party;

(v) Data or software in which the Government has acquired previously unlimited rights under another Government contract or through a specific license; and

(vi) SBIR data upon expiration of the SBIR data rights period.

(2) *Limited rights.* The Government shall have limited rights in technical data, that were not generated under this contract, pertain to items, components or processes developed exclusively at private expense, and are marked, in accordance with the

marking instructions in paragraph (f)(1) of this clause, with the legend prescribed in paragraph (f)(2) of this clause.

(3) *Restricted rights in computer software.* The Government shall have restricted rights in noncommercial computer software required to be delivered or otherwise furnished to the Government under this contract that were developed exclusively at private expense and were not generated under this contract.

(4) *SBIR data rights.* (i) Except for technical data, including computer software documentation, or computer software in which the Government has unlimited rights under paragraph (b)(1) of this clause, the Government shall have SBIR data rights in all technical data or computer software generated under this contract during the period commencing with contract award and ending upon the date five years after completion of the project from which such data were generated.

(ii) The Government may not release or disclose SBIR data to any person, other than its support services contractors, except—

(A) As expressly permitted by the Contractor;

(B) For evaluation purposes; or

(C) A release, disclosure, or use that is necessary for emergency repair or overhaul of items operated by the Government.

(iii) A release or disclosure of SBIR data to the Government's support services contractors, or a release or disclosure under paragraph (b)(4)(ii)(B) or (C) of this clause, may be made only if, prior to release or disclosure, the intended recipient is subject to the use and non-disclosure agreement at DFARS 227.7103-7 or is a Government contractor receiving access to the technical data or software for performance of a Government contract that contains the clause at DFARS 252.227-7025, Limitations on the Use of Disclosure of Government-Furnished Information Marked with Restrictive Legends.

(5) *Specifically negotiated license rights.* The standard license rights granted to the Government under paragraphs (b)(1) through (b)(4) of this clause may be modified by mutual agreement to provide such rights as the parties consider appropriate but shall not provide the Government lesser rights in technical data, including computer software documentation, than are enumerated in paragraph (a)(14) of this clause or lesser rights in computer software than are enumerated in paragraph (a)(17) of this clause. Any rights so negotiated shall be identified in a license agreement made part of this contract.

(6) *Prior government rights.* Technical data, including computer software documentation, or computer software that will be delivered, furnished, or otherwise provided to the Government under this contract, in which the Government has previously obtained rights shall be delivered, furnished, or provided with the pre-existing rights, unless—

(i) The parties have agreed otherwise; or

(ii) Any restrictions on the Government's rights to use, modify, release, perform, display, or disclose the technical data or computer software have expired or no longer apply.

(7) *Release from liability.* The Contractor agrees to release the Government from liability for any release or disclosure of technical data, computer software, or computer software documentation made in accordance with paragraph (a)(14), (a)(17), or (b)(4) of this clause, or in accordance with the terms of a license negotiated under paragraph (b)(5) of this clause, or by others to whom the recipient has released or disclosed the data, software, or documentation and to seek relief solely from the party who has improperly used, modified, reproduced, released, performed, displayed, or disclosed Contractor data or software marked with restrictive legends.

(c) *Rights in derivative computer software or computer software documentation.* The Government shall retain its rights in the unchanged portions of any computer software or computer software documentation delivered under this contract that the Contractor uses to prepare, or includes in, derivative software or documentation.

(d) *Third party copyrighted technical data and computer software.* The Contractor shall not, without the written approval of the Contracting Officer, incorporate any copyrighted technical data, including computer software documentation, or computer software in the data or software to be delivered under this contract unless the Contractor is the copyright owner or has obtained for the Government the license rights necessary to perfect a license or licenses in the deliverable data or software of the appropriate scope set forth in paragraph (b) of this clause and, prior to delivery of such—

(1) Technical data, has affixed to the transmittal document a statement of the license rights obtained; or

(2) Computer software, has provided a statement of the license rights obtained in a form acceptable to the Contracting Officer.

(e) *Identification and delivery of technical data or computer software to be furnished with restrictions on use, release, or disclosure.* (1) This paragraph does not apply to technical data or computer software that were or will be generated under this contract or to restrictions based solely on copyright.

(2) Except as provided in paragraph (e)(3) of this clause, technical data or computer software that the Contractor asserts should be furnished to the Government with restrictions on use, release, or disclosure is identified in an attachment to this contract (the Attachment). The Contractor shall not deliver any technical data or computer software with restrictive markings unless the technical data or computer software are listed on the Attachment.

(3) In addition to the assertions made in the Attachment, other assertions may be identified after award when based on new information or inadvertent omissions unless the inadvertent omissions would have materially affected the source selection decision. Such identification and assertion shall be submitted to the Contracting Officer as soon as practicable prior to the scheduled date for delivery of the technical data or computer software, in the following format, and signed by an official authorized to contractually obligate the Contractor:

Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data or Computer Software.

The Contractor asserts for itself, or the persons identified below, that the Government's rights to use, release, or disclose the following technical data or computer software should be restricted:

Technical data or computer software to be furnished with restrictions <sup>1</sup>	Basis for assertion <sup>2</sup>	Asserted rights category <sup>3</sup>	Name of person asserting restrictions <sup>4</sup>
(LIST) ..	(LIST) .....	(LIST) .....	(LIST)

<sup>1</sup> If the assertion is applicable to items, components, or processes developed at private expense, identify both the technical data and each such item, component, or process.

<sup>2</sup> Generally, development at private expense, either exclusively or partially, is the only basis for asserting restrictions on the Government's rights to use, release, or disclose technical data or computer software. Indicate whether development was exclusively or partially at private expense. If development was not at private expense, enter the specific reason for asserting that the Government's rights should be restricted.

<sup>3</sup> Enter asserted rights category (e.g., limited rights, restricted rights, government purpose rights, or government purpose license rights from a prior contract, SBIR data rights under another contract, or specifically negotiated licenses).

<sup>4</sup> Corporation, individual, or other person, as appropriate.

Date \_\_\_\_\_

Printed Name and Title \_\_\_\_\_

Signature \_\_\_\_\_

(End of identification and assertion)

(4) When requested by the Contracting Officer, the Contractor shall provide sufficient information to enable the Contracting Officer to evaluate the Contractor's assertions. The Contracting Officer reserves the right to add the Contractor's assertions to the Attachment and validate any listed assertions, at a later date, in accordance with the procedures of the Validation of Asserted Restrictions—Computer Software and/or Validation of Restrictive Markings on Technical Data clauses of this contract.

(f) *Marking requirements.* The Contractor, and its subcontractors or suppliers, may only assert restrictions on the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software to be delivered under this contract by marking the deliverable data or software subject to restriction. Except as provided in paragraph (f)(6) of this clause, only the following markings are authorized under this contract: the limited rights legend at paragraph (f)(2) of this clause; the restricted rights legend at paragraph (f)(3) of this clause, the SBIR data rights legend at paragraph (f)(4) of this clause, or the special

license rights legend at paragraphs (f)(5) of this clause; and/or a notice of copyright as prescribed under 17 U.S.C. 401 or 402.

(1) *General marking instructions.* The Contractor, or its subcontractors or suppliers, shall conspicuously and legibly mark the appropriate legend to all technical data and computer software that qualify for such markings. The authorized legends shall be placed on the transmittal document or storage container and, for printed material, each page of the printed material containing technical data or computer software for which restrictions are asserted. When only portions of a page of printed material are subject to the asserted restrictions, such portions shall be identified by circling, underscoring, with a note, or other appropriate identifier. Technical data or computer software transmitted directly from one computer or computer terminal to another shall contain a notice of asserted restrictions. However, instructions that interfere with or delay the operation of computer software in order to display a restrictive rights legend or other license statement at any time prior to or during use of the computer software, or otherwise cause such interference or delay, shall not be inserted in software that will or might be used in combat or situations that simulate combat conditions, unless the Contracting Officer's written permission to deliver such software has been obtained prior to delivery. Reproductions of technical data, computer software, or any portions thereof subject to asserted restrictions shall also reproduce the asserted restrictions.

(2) *Limited rights markings.* Technical data not generated under this contract that pertain to items, components, or processes developed exclusively at private expense and delivered or otherwise furnished with limited rights shall be marked with the following legend:

Limited Rights  
 Contract No. \_\_\_\_\_  
 Contractor Name \_\_\_\_\_  
 Contractor Address \_\_\_\_\_

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these technical data are restricted by paragraph (b)(2) of the Rights in Noncommercial Technical Data and Computer Software—Small Business Innovative Research (SBIR) Program clause contained in the above identified contract. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such data must promptly notify the above named Contractor. (End of legend)

(3) *Restricted rights markings.* Computer software delivered or otherwise furnished to the Government with restricted rights shall be marked with the following legend:

Restricted Rights  
 Contract No. \_\_\_\_\_  
 Contractor Name \_\_\_\_\_  
 Contractor Address \_\_\_\_\_

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this software are restricted by paragraph (b)(3) of the Rights in Noncommercial Technical Data and Computer Software—Small Business Innovative Research (SBIR) Program clause contained in the above identified contract. Any reproduction of computer software or portions thereof marked with this legend must also reproduce the markings. Any person, other than the Government, who has been provided access to such data must promptly notify the above named Contractor. (End of legend)

(4) *SBIR data rights markings*: Except for technical data or computer software in which the Government has acquired unlimited rights under paragraph (b)(1) of this clause, or negotiated special license rights as provided in paragraph (b)(5) of this clause, technical data or computer software generated under this contract shall be marked with the following legend. The Contractor shall enter the expiration date for the SBIR data rights period on the legend:

SBIR Data Rights

Contract No. \_\_\_\_\_

Contractor Name \_\_\_\_\_

Address \_\_\_\_\_

Expiration of SBIR Data Rights Period \_\_\_\_\_

The Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software marked with this legend are restricted during the period shown as provided in paragraph (b)(4) of the Rights in Noncommercial Technical Data and Computer Software—Small Business Innovative Research (SBIR) Program clause contained in the above identified contract. No restrictions apply after the expiration date shown above. Any reproduction of technical data, computer software, or portions thereof marked with this legend must also reproduce the markings.

(End of legend)

(5) *Special license rights markings*. (i) Technical data or computer software in which the Government's rights stem from a specifically negotiated license shall be marked with the following legend:

Special License Rights

The Government's rights to use, modify, reproduce, release, perform, display, or disclose this technical data or computer software are restricted by Contract No.

\_\_\_\_\_. (Insert contract number)

\_\_\_\_\_. License No.

\_\_\_\_\_. (Insert license identifier)

\_\_\_\_\_. Any reproduction of technical data, computer software, or portions thereof marked with this legend must also reproduce the markings.

(end of legend)

(ii) For purposes of this clause, special licenses do not include government purpose license rights acquired under a prior contract (see paragraph (b)(6) of this clause).

(6) *Pre-existing data markings*. If the terms of a prior contract or license permitted the

Contractor to restrict the Government's rights to use, modify, reproduce, release, perform, display, or disclose technical data or computer software, and those restrictions are still applicable, the Contractor may mark such data or software with the appropriate restrictive legend for which the data or software qualified under the prior contract or license. The marking procedures in paragraph (f)(1) of this clause shall be followed.

(g) *Contractor procedures and records*. Throughout performance of this contract, the Contractor, and its subcontractors or suppliers that will deliver technical data or computer software with other than unlimited rights, shall—

(1) Have, maintain, and follow written procedures sufficient to assure that restrictive markings are used only when authorized by the terms of this clause; and

(2) Maintain records sufficient to justify the validity of any restrictive markings on technical data or computer software delivered under this contract.

(h) *Removal of unjustified and nonconforming markings*.

(1) *Unjustified markings*. The rights and obligations of the parties regarding the validation of restrictive markings on technical data or computer software furnished or to be furnished under this contract are contained in the Validation of Restrictive Markings on Technical Data and the Validation of Asserted Restrictions—Computer Software clauses of this contract, respectively. Notwithstanding any provision of this contract concerning inspection and acceptance, the Government may ignore or, at the Contractor's expense, correct or strike a marking if, in accordance with the applicable procedures of those clauses, a restrictive marking is determined to be unjustified.

(2) *Nonconforming markings*. A nonconforming marking is a marking placed on technical data or computer software delivered or otherwise furnished to the Government under this contract that is not in the format authorized by this contract. Correction of nonconforming markings is not subject to the Validation of Restrictive Markings on Technical Data or the Validation of Asserted Restrictions—Computer Software clause of this contract. If the Contracting Officer notifies the Contractor of a nonconforming marking or markings and the Contractor fails to remove or correct such markings within sixty (60) days, the Government may ignore or, at the Contractor's expense, remove or correct any nonconforming markings.

(i) *Relation to patents*. Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(j) *Limitation on charges for rights in technical data or computer software*. (1) The Contractor shall not charge to this contract any cost, including but not limited to, license fees, royalties, or similar charges, for rights in technical data or computer software to be delivered under this contract when—

(i) the Government has acquired, by any means, the same or greater rights in the data or software; or

(ii) The data are available to the public without restrictions.

(2) The limitation in paragraph (j)(1) of this clause—

(i) Includes costs charged by a subcontractor or supplier, at any tier, or costs incurred by the Contractor to acquire rights in subcontractor or supplier technical data or computer software, if the subcontractor or supplier has been paid for such rights under any other Government contract or under a license conveying the rights to the Government; and

(ii) does not include the reasonable costs of reproducing, handling, or mailing the documents or other media in which the technical data or computer software will be delivered.

(k) *Applicability to subcontractors or suppliers*. (1) the Contractor shall assure that the rights afforded its subcontractors and suppliers under 10 U.S.C. 2320, 10 U.S.C. 2321, and the identification, assertion, and delivery processes required by paragraph (e) of this clause are recognized and protected.

(2) Whenever any noncommercial technical data or computer software is to be obtained from a subcontractor or supplier for delivery to the Government under this contract, the Contractor shall use this same clause in the subcontract or other contractual instrument, and require its subcontractors or suppliers to do so, without alteration, except to identify the parties. The Contractor shall use the Technical Data—Commercial Items clause of this contract to obtain technical data pertaining to commercial items, components, or processes. No other clause shall be used to enlarge or diminish the Government's, the Contractor's, or a higher tier subcontractor's or supplier's rights in a subcontractor's or supplier's technical data or computer software.

(3) Technical data required to be delivered by a subcontractor or supplier shall normally be delivered to the next higher tier contractor, subcontractor, or supplier. However, when there is a requirement in the prime contract for technical data which may be submitted with other than unlimited rights by a subcontractor or supplier, then said subcontractor or supplier may fulfill its requirement by submitting such technical data directly to the Government, rather than through a higher tier contractor, subcontractor, or supplier.

(4) The Contractor and higher tier subcontractors or suppliers shall not use their power to award contracts as economic leverage to obtain rights in technical data or computer software from their subcontractors or suppliers.

(5) In no event shall the Contractor use its obligation to recognize and protect subcontractor or supplier rights in technical data or computer software as an excuse for failing to satisfy its contractual obligation to the Government.

(End of clause)

Alternate I (June 1995)

As prescribed in 227.7104(d), add the following paragraph (l) to the basic clause:

(l) *Publication for sale*. (1) This paragraph applies only to technical data or computer software delivered to the Government with SBIR data rights.

(2) Upon expiration of the SBIR data rights period, the Government will not exercise its right to publish or authorize others to publish an item of technical data or computer software identified in this contract as being subject to paragraph (l) of this clause if the Contractor, prior to the expiration of the SBIR data rights period, or within two years following delivery of the data or software item, or within twenty-four months following the removal of any national security or export control restrictions, whichever is later, publishes such data or software item(s) and promptly notifies the Contracting Officer of such publication(s). Any such publication(s) shall include a notice identifying the number of this contract and the Government's rights in the published data.

(3) This limitation on the Government's right to publish for sale shall continue as long as the technical data or computer software are reasonably available to the public for purchase.

18. Section 252.227-7019 is revised to read as follows:

**252.227-7019 Validation of asserted restrictions—Computer software.**

As prescribed in 227.7104(e)(3) or 227.7203-6(c), use the following clause:

Validation of Asserted Restrictions—Computer Software (June 1995)

(a) *Definitions.* (1) As used in this clause, unless otherwise specifically indicated, the term "Contractor" means the Contractor and its subcontractors or suppliers.

(2) Other terms used in this clause are defined in the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause of this contract.

(b) *Justification.* The Contractor shall maintain records sufficient to justify the validity of any markings that assert restrictions on the Government's rights to use, modify, reproduce, perform, display, release, or disclose computer software delivered or required to be delivered under this contract and shall be prepared to furnish to the Contracting Officer a written justification for such restrictive markings in response to a request for information under paragraph (d) or a challenge under paragraph (f) of this clause.

(c) *Direct contact with subcontractors or suppliers.* The Contractor agrees that the Contracting Officer may transact matters under this clause directly with subcontractors or suppliers at any tier who assert restrictions on the Government's right to use, modify, reproduce, release, perform, display, or disclose computer software. Neither this clause, nor any action taken by the Government under this clause, creates or implies privity of contract between the Government and the Contractor's subcontractors or suppliers.

(d) *Requests for information.* (1) The Contracting Officer may request the Contractor to provide sufficient information to enable the Contracting Officer to evaluate the Contractor's asserted restrictions. Such information shall be based upon the records required by this clause or other information reasonably available to the Contractor.

(2) Based upon the information provided, if the—

(i) Contractor agrees that an asserted restriction is not valid, the Contracting Officer may—

(A) Strike or correct the unjustified marking at the Contractor's expense; or

(B) Return the computer software to the Contractor for correction at the Contractor's expense. If the Contractor fails to correct or strike the unjustified restrictions and return the corrected software to the Contracting Officer within sixty (60) days following receipt of the software, the Contracting Officer may correct the strike the markings at the Contractor's expense.

(ii) Contracting Officer concludes that the asserted restriction is appropriate for this contract, the Contracting Officer shall so notify the Contractor in writing.

(3) The Contractor's failure to provide a timely response to a Contracting Officer's request for information or failure to provide sufficient information to enable the Contracting Officer to evaluate an asserted restriction shall constitute reasonable grounds for questioning the validity of an asserted restriction.

(e) *Government right to challenge and validate asserted restrictions.* (1) The Government, when there are reasonable grounds to do so, has the right to review and challenge the validity of any restrictions asserted by the Contractor on the Government's rights to use, modify, reproduce, release, perform, display, or disclose computer software delivered, to be delivered under this contract, or otherwise provided to the Government in the performance of this contract. Except for software that is publicly available, has been furnished to the Government without restrictions, or has been otherwise made available without restrictions, the Government may exercise this right only within three years after the date(s) the software is delivered or otherwise furnished to the Government, or three years following final payment under this contract, whichever is later.

(2) The absence of a challenge to an asserted restriction shall not constitute validation under this clause. Only a Contracting Officer's final decision or actions of an agency Board of Contract Appeals or a court of competent jurisdiction that sustain the validity of an asserted restriction constitute validation of the restriction.

(f) *Challenge procedures.* (1) A challenge must be in writing and shall—

(i) State the specific grounds for challenging the asserted restriction;

(ii) Require the Contractor to respond within sixty (60) days;

(iii) Require the Contractor to provide justification for the assertion based upon records kept in accordance with paragraph (b) of this clause and such other documentation that are reasonably available to the Contractor, in sufficient detail to enable the Contracting Officer to determine the validity of the asserted restrictions; and

(iv) State that a Contracting Officer's final decision, during the three-year period preceding this challenge, or action of a court of competent jurisdiction or Board of

Contract Appeals that sustained the validity of an identical assertion made by the Contractor (or a licensee) shall serve as justification for the asserted restriction.

(2) The Contracting Officer shall extend the time for response if the Contractor submits a written request showing the need for additional time to prepare a response.

(3) The Contracting Officer may request additional supporting documentation if, in the Contracting Officer's opinion, the Contractor's explanation does not provide sufficient evidence to justify the validity of the asserted restrictions. The Contractor agrees to promptly respond to the Contracting Officer's request for additional supporting documentation.

(4) Notwithstanding challenge by the Contracting Officer, the parties may agree on the disposition of an asserted restriction at any time prior to a Contracting Officer's final decision or, if the Contractor has appealed that decision, filed suit, or provided notice of an intent to file suit, at any time prior to a decision by a court of competent jurisdiction or Board of Contract Appeals.

(5) If the Contractor fails to respond to the Contracting Officer's request for information or additional information under paragraph (f)(1) of this clause, the Contracting Officer shall issue a final decision, in accordance with the Disputes clause of this contract, pertaining to the validity of the asserted restriction.

(6) If the Contracting Officer, after reviewing the written explanation furnished pursuant to paragraph (f)(1) of this clause, or any other available information pertaining to the validity of an asserted restriction, determines that the asserted restriction has—

(i) Not been justified, the Contracting Officer shall issue promptly a final decision, in accordance with the Disputes clause of this contract, denying the validity of the asserted restriction; or

(ii) Been justified, the Contracting Officer shall issue promptly a final decision, in accordance with the Disputes clause of this contract, validating the asserted restriction.

(7) A Contractor receiving challenges to the same asserted restriction(s) from more than one Contracting Officer shall notify each Contracting Officer of the other challenges. The notice shall also state which Contracting Officer initiated the first in time unanswered challenge. The Contracting Officer who initiated the first in time unanswered challenge, after consultation with the other Contracting Officers who have challenged the restrictions and the Contractor, shall formulate and distribute a schedule that provides the contractor a reasonable opportunity for responding to each challenge.

(g) *Contractor appeal—Government obligation.* (1) The Government agrees that, notwithstanding a Contracting Officer's final decision denying the validity of an asserted restriction and except as provided in paragraph (g)(3) of this clause, it will honor the asserted restriction—

(i) For a period of ninety (90) days from the date of the Contracting Officer's final decision to allow the Contractor to appeal to the appropriate Board of Contract Appeals or to file suit in an appropriate court;

(ii) For a period of one year from the date of the Contracting Officer's final decision if,

within the first ninety (90) days following the Contracting Officer's final decision, the Contractor has provided notice of an intent to file suit in an appropriate court; or

(iii) Until final disposition by the appropriate Board of Contract Appeals or court of competent jurisdiction, if the Contractor has: (A) appealed to the Board of Contract Appeals or filed suit in an appropriate court within ninety (90) days; or (B) submitted, within ninety (90) days, a notice of intent to file suit in an appropriate court and filed suit within one year.

(2) The Contractor agrees that the Government may strike, correct, or ignore the restrictive markings if the Contractor fails to—

(i) Appeal to a Board of Contract Appeals within ninety (90) days from the date of the Contracting Officer's final decision;

(ii) File suit in an appropriate court within ninety (90) days from such date; or

(iii) File suit within one year after the date of the Contracting Officer's final decision if the Contractor had provided notice of intent to file suit within ninety (90) days following the date of the Contracting Officer's final decision.

(3) The agency head, on a nondelegable basis, may determine that urgent or compelling circumstances do not permit awaiting the filing of suit in an appropriate court, or the rendering of a decision by a court of competent jurisdiction or Board of Contract Appeals. In that event, the agency head shall notify the Contractor of the urgent or compelling circumstances.

Notwithstanding paragraph (g)(1) of this clause, the Contractor agrees that the agency may use, modify, reproduce, release, perform, display, or disclose computer software marked with (i) government purpose legends for any purpose, and authorize others to do so; or (ii) restricted or special license rights for government purposes only. The Government agrees not to release or disclose such software unless, prior to release or disclosure, the intended recipient is subject to the use and non-disclosure agreement at 227.7103-7 of the Defense Federal Acquisition Regulation Supplement (DFARS), or is a Government contractor receiving access to the software for performance of a Government contract that contains the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. The agency head's determination may be made at any time after the date of the Contracting Officer's final decision and shall not affect the Contractor's right to damages against the United States, or other relief provided by law, if its asserted restrictions are ultimately upheld.

(h) *Final disposition of appeal or suit.* If the Contractor appeals or files suit and if, upon final disposition of the appeal or suit, the Contracting Officer's decision is:

(1) Sustained—

(i) Any restrictive marking on such computer software shall be struck or corrected at the contractor's expense or ignored; and

(ii) If the asserted restriction is found not to be substantially justified, the Contractor shall be liable to the Government for

payment of the cost to the Government of reviewing the asserted restriction and the fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Government in challenging the restriction, unless special circumstances would make such payment unjust.

(2) Not sustained—

(i) The Government shall be bound by the asserted restriction; and

(ii) If the challenge by the Government is found not to have been made in good faith, the Government shall be liable to the Contractor for payment of fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Contractor in defending the restriction.

(i) *Flowdown.* The Contractor shall insert this clause in all contracts, purchase orders, and other similar instruments with its subcontractors or suppliers, at any tier, who will be furnishing computer software to the Government in the performance of this contract. The clause may not be altered other than to identify the appropriate parties.

(End of clause)

19. Section 252.227-7020 is revised to read as follows:

**252.227-7020 Rights in special works.**

As prescribed in 227.7105-3, 227.7106(a) or 227.7205(a), use the following clause:

Rights in Special Works (June 1995)

(a) *Applicability.* This clause applies to works first created, generated, or produced and required to be delivered under this contract.

(b) *Definitions.* As used in this clause:

(1) "Computer data base" means a collection of data recorded in a form capable of being processed by a computer. The term does not include computer software.

(2) "Computer program" means a set of instructions, rules, or routines recorded in a form that is capable of causing a computer to perform a specific operation or series of operations.

(3) "Computer software" means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer data bases or computer software documentation.

(4) "Computer software documentation" means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

(5) "Unlimited rights" means the rights to use, modify, reproduce, perform, display, release, or disclose a work in whole or in part, in any manner, and for any purpose whatsoever, and to have or authorize others to do so.

(6) The term "works" includes computer data bases, computer software, or computer software documentation; literary, musical, choreographic, or dramatic compositions;

pantomimes; pictorial, graphic, or sculptural compositions; motion pictures and other audiovisual compositions; sound recordings in any medium; or, items of similar nature.

(c) *License rights.* (1) The Government shall have unlimited rights in works first produced, created, or generated and required to be delivered under this contract.

(2) When a work is first produced, created, or generated under this contract, and such work is required to be delivered under this contract, the Contractor shall assign copyright in those works to the Government. The Contractor, unless directed to the contrary by the Contracting Officer, shall place the following notice on such works: "© (Year date of delivery) United States Government, as represented by the Secretary of (department). All rights reserved."

For phonorecords, the "©" markings shall be replaced by a "P".

(3) The Contractor grants to the Government a royalty-free, world-wide, nonexclusive, irrevocable license to reproduce, prepare derivative works from, distribute, perform, or display, and to have or authorize others to do so, the Contractor's copyrighted works not first produced, created, or generated under this contract that have been incorporated into the works deliverable under this contract.

(d) *Third party copyrighted data.* The Contractor shall not incorporate, without the written approval of the Contracting Officer, any copyrighted works in the works to be delivered under this contract unless the Contractor is the copyright owner or has obtained for the Government the license rights necessary to perfect a license of the scope identified in paragraph (c)(3) of this clause and, prior to delivery of such works—

(1) Has affixed to the transmittal document a statement of the license rights obtained; or

(2) For computer software, has provided a statement of the license rights obtained in a form acceptable to the Contracting Officer.

(e) *Indemnification.* The Contractor shall indemnify and save and hold harmless the Government, and its officers, agents and employees acting for the Government, against any liability, including costs and expenses, (1) for violation of proprietary rights, copyrights, or rights of privacy or publicity, arising out of the creation, delivery, use, modification, reproduction, release, performance, display, or disclosure of any works furnished under this contract, or (2) based upon any libelous or other unlawful matter contained in such works.

(f) *Government-furnished information.* Paragraphs (d) and (e) of this clause are not applicable to information furnished to the Contractor by the Government and incorporated in the works delivered under this contract.

(End of clause)

**252.227-7021 [Amended]**

20. Section 252.227-7021 is amended by revising the introductory text to read "As prescribed at 227.7105-2(a), use the following clause:".

**252.227-7022 [Amended]**

21. Section 252.227-7022 is amended by revising the introductory text to read

“As prescribed at 227.7107-1(a), use the following clause:”.

**252.227-7023 [Amended]**

22. Section 252.227-7023 is amended by revising the introductory text to read “As prescribed at 227.7107-1(b), use the following clause:”.

**252.227-7024 [Amended]**

23. Section 252.227-7024 is amended by revising the introductory text to read “As prescribed at 227.7107-3, use the following clause:”.

24. Section 252.227-7025 is added to read as follows:

**252.227-7025 Limitations on the use or disclosure of government-furnished information marked with restrictive legends.**

As prescribed in 227.7103-6(c), 227.7104(f)(1), or 227.7203-6(d), use the following clause:

Limitations on the Use or Disclosure of Government-Furnished Information Marked With Restrictive Legends (June 1995)

(a)(1) For contracts requiring the delivery of technical data, the terms “limited rights” and “Government purpose rights” are defined in the Rights in Technical Data—Noncommercial Items clause of this contract.

(2) For contracts that do not require the delivery of technical data, the terms “government purpose rights” and “restricted rights” are defined in the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause of this contract.

(3) For Small Business Innovative Research program contracts, the terms “limited rights” and “restricted rights” are defined in the Rights in Noncommercial Technical Data and Computer Software—Small Business Innovative Research (SBIR) Program clause of this contract.

(b) Technical data or computer software provided to the Contractor as Government furnished information (GFI) under this contract may be subject to restrictions on use, modification, reproduction, release, performance, display, or further disclosure.

(1) *GFI marked with limited or restricted rights legends.* The Contractor shall use, modify, reproduce, perform, or display technical data received from the Government with limited rights legends or computer software received with restricted rights legends only in the performance of this contract. The Contractor shall not, without the express written permission of the party whose name appears in the legend, release or disclose such data or software to any person.

(2) *GFI marked with government purpose rights legends.* The Contractor shall use technical data or computer software received from the Government with government purpose rights legends for government purposes only. The Contractor shall not, without the express written permission of the party whose name appears in the restrictive legend, use, modify, reproduce, release, perform, or display such data or software for any commercial purpose or disclose such data or software to a person other than its

subcontractors, suppliers, or prospective subcontractors or suppliers, who require the data or software to submit offers for, or perform, contracts under this contract. Prior to disclosing the data or software, the Contractor shall require the persons to whom disclosure will be made to complete and sign the non-disclosure agreement at 227.7103-7 of the Defense Federal Acquisition Regulation Supplement (DFARS).

(3) *GFI marked with specially negotiated license rights legends.* The Contractor shall use, modify, reproduce, release, perform, or display technical data or computer software received from the Government with specially negotiated license legends only as permitted in the license. Such data or software may not be released or disclosed to other persons unless permitted by the license and, prior to release or disclosure, the intended recipient has completed the non-disclosure agreement at DFARS 227.7103-7. The Contractor shall modify paragraph (1)(c) of the non-disclosure agreement to reflect the recipient's obligations regarding use, modification, reproduction, release, performance, display, and disclosure of the data or software.

(c) *Indemnification and creation of third party beneficiary rights.* The Contractor agrees—

(1) To indemnify and hold harmless the Government, its agents, and employees from every claim or liability, including attorneys fees, court costs, and expenses, arising out of, or in any way related to, the misuse or unauthorized modification, reproduction, release, performance, display, or disclosure of technical data or computer software received from the Government with restrictive legends by the Contractor or any person to whom the Contractor has released or disclosed such data or software; and

(2) That the party whose name appears on the restrictive legend, in addition to any other rights it may have, is a third party beneficiary who has the right of direct action against the Contractor, or any person to whom the Contractor has released or disclosed such data or software, for the unauthorized duplication, release, or disclosure of technical data or computer software subject to restrictive legends. (End of clause)

**252.227-7026 [Amended]**

25. Section 252.227-7026 is amended by revising the introductory text to read “As prescribed at 227.7103-8(a), use the following clause:”.

**252.227-7027 [Amended]**

26. Section 252.227-7027 is amended by revising the introductory text to read “As prescribed at 227.7103-8(b), use the following clause:”.

27. Section 252.227-7028 is revised to read as follows:

**252.227-7028 Technical data or computer software previously delivered to the government.**

As prescribed in 227.7103-6(d), 227.7104(f)(2), of 227.7203-6(e), use the following provision:

Technical Data or Computer Software Previously Delivered to the Government (June 1995)

The Offeror shall attach to its offer an identification of all documents or other media incorporating technical data or computer software it intends to deliver under this contract with other than unlimited rights that are identical or substantially similar to documents or other media that the Offeror has produced for, delivered to, or is obligated to deliver to the Government under any contract or subcontract. The attachment shall identify—

(a) The contract number under which the data or software were produced;

(b) The contract number under which, and the name and address of the organization to whom, the data or software were most recently delivered or will be delivered; and

(c) Any limitations on the Government's rights to use or disclose the data or software, including, when applicable, identification of the earliest date the limitations expire.

(End of provision)

**252.227-7029 [Removed and Reserved]**

28. Section 252.227-7029 is removed and reserved.

**252.227-7030 [Amended]**

29. Section 252.227-7030 is amended by revising the introductory text to read “As prescribed at 227.7103-6(f)(2) or 227.7104(e)(4), use the following clause:”.

**252.227-7031 [Removed and Reserved]**

30. Section 252.227-7031 is removed and reserved.

**252.227-7032 [Amended]**

31. Section 252.227-7032 is amended by revising the introductory text to read “As prescribed in 227.7103-17, use the following clause:”.

**252.227-7033 [Amended]**

32. Section 252.227-7033 is amended by revising the introductory text to read “As prescribed in 227.7107-1(c), use the following clause:”.

**252.227-7036 [Amended]**

33. Section 252.227-7036 is amended by revising the introductory text to read “As prescribed in 227.7103-6(e)(3) or 227.7104(e)(5), use the following clause:”.

34. Section 252.227-7037 is revised to read as follows:

**252.227-7037 Validation of restrictive markings on technical data.**

As prescribed in 227.7102-3(c), 227.7103(e)(4), 227.7104(e)(6), or 227.7203-6(f), use the following clause: Validation of Restrictive Markings on Technical Data (June 1995)

(a) *Definitions.* The terms used in this clause are defined in the Rights in Technical Data—Noncommercial Items clause of this contract.

(b) *Contracts for commercial items—presumption of development at private expense.* Under a contract for a commercial item, component, or process, the Department of Defense shall presume that a Contractor's asserted use or release restrictions are justified on the basis that the item, component, or process was developed exclusively at private expense. The Department shall not challenge such assertions unless information the Department demonstrates that the item, component, or process was not developed exclusively at private expense.

(c) *Justification.* The Contractor or subcontractor at any tier is responsible for maintaining records sufficient to justify the validity of its markings that impose restrictions on the Government and others to use, duplicate, or disclose technical data delivered or required to be delivered under the contract or subcontract. Except under contracts for commercial items, the Contractor or subcontractor shall be prepared to furnish to the Contracting Officer a written justification for such restrictive markings in response to a challenge under paragraph (e) of this clause.

(d) *Prechallenge request for information.* (1) The Contracting Officer may request the Contractor or subcontractor to furnish a written explanation for any restriction asserted by the Contractor or subcontractor on the right of the United States or others to use technical data. If, upon review of the explanation submitted, the Contracting Officer remains unable to ascertain the basis of the restrictive marking, the Contracting Officer may further request the Contractor or subcontractor to furnish additional information in the records of, or otherwise in the possession of or reasonably available to, the Contractor or subcontractor to justify the validity of any restrictive marking on technical data delivered or to be delivered under the contract or subcontract (e.g., a statement of facts accompanied with supporting documentation). The Contractor or subcontractor shall submit such written data as requested by the Contracting Officer within the time required or such longer period as may be mutually agreed.

(2) If the Contracting Officer, after reviewing the written data furnished pursuant to paragraph (d)(1) of this clause, or any other available information pertaining to the validity of a restrictive marking, determines that reasonable grounds exist to question the current validity of the marking and that continued adherence to the marking would make impracticable the subsequent competitive acquisition of the item, component, or process to which the technical data relates, the Contracting Officer shall follow the procedures in paragraph (e) of this clause.

(3) If the Contractor or subcontractor fails to respond to the Contracting Officer's request for information under paragraph (d)(1) of this clause, and the Contracting Officer determines that continued adherence to the marking would make impracticable the subsequent competitive acquisition of the item, component, or process to which the technical data relates, the Contracting Officer may challenge the validity of the marking as described in paragraph (e) of this clause.

(e) *Challenge.* (1) Notwithstanding any provision of this contract concerning inspection and acceptance, if the Contracting Officer determines that a challenge to the restrictive marking is warranted, the Contracting Officer shall send a written challenge notice to the Contractor or subcontractor asserting the restrictive markings. Such challenge shall—

(i) State the specific grounds for challenging the asserted restriction;

(ii) Require a response within sixty (60) days justifying and providing sufficient evidence as to the current validity of the asserted restriction;

(iii) State that a DoD Contracting Officer's final decision, issued pursuant to paragraph (g) of this clause, sustaining the validity of a restrictive marking identical to the asserted restriction, within the three-year period preceding the challenge, shall serve as justification for the asserted restriction if the validated restriction was asserted by the same Contractor or subcontractor (or any licensee of such Contractor or subcontractor) to which such notice is being provided; and

(iv) State that failure to respond to the challenge notice may result in issuance of a final decision pursuant to paragraph (f) of this clause.

(2) The Contracting Officer shall extend the time for response as appropriate if the Contractor or subcontractor submits a written request showing the need for additional time to prepare a response.

(3) The Contractor's or subcontractor's written response shall be considered a claim within the meaning of the Contract Disputes Act of 1978 (41 U.S.C. 601, et seq.), and shall be certified in the form prescribed at 33.207 of the Federal Acquisition Regulation, regardless of dollar amount.

(4) A Contractor or subcontractor receiving challenges to the same restrictive markings from more than one Contracting Officer shall notify each Contracting Officer of the existence of more than one challenge. The notice shall also state which Contracting Officer initiated the first in time unanswered challenge. The Contracting Officer initiating the first in time unanswered challenge after consultation with the Contractor or subcontractor and the other Contracting Officers, shall formulate and distribute a schedule for responding to each of the challenge notices to all interested parties. The schedule shall afford the Contractor or subcontractor an opportunity to respond to each challenge notice. All parties will be bound by this schedule.

(f) *Final decision when Contractor or subcontractor fails to respond.* Upon a failure of a Contractor or subcontractor to submit any response to the challenge notice, other than a failure to respond under a contract for commercial items, the Contracting Officer will issue a final decision to the Contractor or subcontractor in accordance with the Disputes clause of this contract pertaining to the validity of the asserted restriction. This final decision shall be issued as soon as possible after the expiration of the time period of paragraph (e)(1)(ii) or (e)(2) of this clause. Following issuance of the final decision, the Contracting Officer will comply with the procedures in paragraphs (g)(2) (i) through (iv) of this clause.

(g) *Final decision when Contractor or subcontractor responds.* (1) If the Contracting Officer determines that the Contractor or subcontractor has justified the validity of the restrictive marking, the Contracting Officer shall issue a final decision to the Contractor or subcontractor sustaining the validity of the restrictive marking, and stating that the Government will continue to be bound by the restrictive marking. This final decision shall be issued within sixty (60) days after receipt of the Contractor's or subcontractor's response to the challenge notice, or within such longer period that the Contracting Officer has notified the Contractor or subcontractor that the Government will require. The notification of a longer period for issuance of a final decision will be made within sixty (60) days after receipt of the response to the challenge notice.

(2)(i) If the Contracting Officer determines that the validity of the restrictive marking is not justified, the Contracting Officer shall issue a final decision to the Contractor or subcontractor in accordance with the Disputes clause of this contract. Notwithstanding paragraph (e) of the Disputes clause, the final decision shall be issued within sixty (60) days after receipt of the Contractor's or subcontractor's response to the challenge notice, or within such longer period that the Contracting Officer has notified the Contractor or subcontractor of the longer period that the Government will require. The notification of a longer period for issuance of a final decision will be made within sixty (60) days after receipt of the response to the challenge notice.

(ii) The Government agrees that it will continue to be bound by the restrictive marking of a period of ninety (90) days from the issuance of the Contracting Officer's final decision under paragraph (g)(2)(i) of this clause. The Contractor or subcontractor agrees that, if it intends to file suit in the United States Claims Court it will provide a notice of intent to file suit to the Contracting Officer within ninety (90) days from the issuance of the Contracting Officer's final decision under paragraph (g)(2)(i) of this clause. If the Contractor or subcontractor fails to appeal, file suit, or provide a notice of intent to file suit to the Contracting Officer within the ninety (90)-day period, the Government may cancel or ignore the restrictive markings, and the failure of the Contractor or subcontractor to take the required action constitutes agreement with such Government action.

(iii) The Government agrees that it will continue to be bound by the restrictive marking where a notice of intent to file suit in the United States Claims Court is provided to the Contracting Officer within ninety (90) days from the issuance of the final decision under paragraph (g)(2)(i) of this clause. The Government will no longer be bound, and the Contractor or subcontractor agrees that the Government may strike or ignore the restrictive markings, if the Contractor or subcontractor fails to file its suit within one (1) year after issuance of the final decision. Notwithstanding the foregoing, where the head of an agency determines, on a nondelegable basis, that urgent or compelling circumstances will not permit waiting for the

filing of a suit in the United States Claims Court, the Contractor or subcontractor agrees that the agency may, following notice to the Contractor or subcontractor, authorize release or disclosure of the technical data. Such agency determination may be made at any time after issuance of the final decision and will not affect the Contractor's or subcontractor's right to damages against the United States where its restrictive markings are ultimately upheld or to pursue other relief, if any, as may be provided by law.

(iv) The Government agrees that it will be bound by the restrictive marking where an appeal or suit is filed pursuant to the Contract Disputes Act until final disposition by an agency Board of Contract Appeals or the United States Claims Court.

Notwithstanding the foregoing, where the head of an agency determines, on a nondelegable basis, following notice to the Contractor that urgent or compelling circumstances will not permit awaiting the decision by such Board of Contract Appeals or the United States Claims Court, the Contractor or subcontractor agrees that the agency may authorize release or disclosure of the technical data. Such agency determination may be made at any time after issuance of the final decision and will not affect the Contractor's or subcontractor's right to damages against the United States where its restrictive markings are ultimately upheld or to pursue other relief, if any, as may be provided by law.

(h) *Final disposition of appeal or suit.* (1) If the Contractor or subcontractor appeals or files suit and if, upon final disposition of the

appeal or suit, the Contracting Officer's decision is sustained—

(i) The restrictive marking on the technical data shall be cancelled, corrected or ignored; and

(ii) If the restrictive marking is found not to be substantially justified, the Contractor or subcontractor, as appropriate, shall be liable to the Government for payment of the cost to the Government of reviewing the restrictive marking and the fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Government in challenging the marking, unless special circumstances would make such payment unjust.

(2) If the Contractor or subcontractor appeals or files suit and if, upon final disposition of the appeal or suit, the Contracting Officer's decision is not sustained—

(i) The Government shall continue to be bound by the restrictive marking; and

(ii) The Government shall be liable to the Contractor or subcontractor for payment of fees and other expenses (as defined in 28 U.S.C. 2412(d)(2)(A)) incurred by the Contractor or subcontractor in defending the marking, if the challenge by the Government is found not to have been made in good faith.

(i) *Duration of right to challenge.* The Government may review the validity of any restriction on technical data, delivered or to be delivered under a contract, asserted by the Contractor or subcontractor. During the period within three (3) years of final payment on a contract or within three (3) years of delivery of the technical data to the Government, whichever is later, the

Contracting Officer may review and make a written determination to challenge the restriction. The Government may, however, challenge a restriction on the release, disclosure or use of technical data at any time if such technical data—

(1) Is publicly available;

(2) Has been furnished to the United States without restriction; or

(3) Has been otherwise made available without restriction. Only the Contracting Officer's final decision resolving a formal challenge by sustaining the validity of a restrictive marking constitutes "validation" as addressed in 10 U.S.C. 2321.

(j) *Decision not to challenge.* A decision by the Government, or a determination by the Contracting Officer, to not challenge the restrictive marking or asserted restriction shall not constitute "validation."

(k) *Privity of contract.* The Contractor or subcontractor agrees that the Contracting Officer may transact matters under this clause directly with subcontractors at any tier that assert restrictive markings. However, this clause neither creates nor implies privity of contract between the Government and subcontractors.

(l) *Flowdown.* The Contractor or subcontractor agrees to insert this clause in contractual instruments with its subcontractors or suppliers at any tier requiring the delivery of technical data.

(End of clause)
