

Pursuant to Rule 213(d) of the Commission's regulations, answers to petitions are due within 30 days after filing, unless otherwise ordered.² Some of the issues presented in the petition are currently under review in the complaint docket for Project No. 2042-001. To avoid possible confusion and to ensure adequate notice to all interested persons, the Commission staff has determined that notice of the petition for a declaratory order should be published and that the deadline for filing an answer, comments, protests, or petitions to intervene in connection to the licensee's petition for a declaratory order should be as established in this notice.

Any party to the complaint proceeding may file an answer to the petition for a declaratory order; and any person may file comments, a protest, or a motion to intervene in Docket No. EL95-48-000; in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 385.210, 385.211, 385.213, and 385.214 (1995). In determining the appropriate action to take with respect to the petition, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any answers, comments, protests, or motions to intervene must be received no later than July 24, 1995.

Lois D. Cashell,

Secretary.

[Docket No. RP94-296-000]

Williams Natural Gas Company; Notice of Filing of Status Report

June 23, 1995.

Take notice that on June 19, 1995, Williams Natural Gas Company (WNG) tendered for filing its report on the status of its cases in litigation.

WNG states that the purpose for the instant filing is to comply with the Commission's order in Docket No. RP94-296-000 issued June 20, 1994. The order directed WNG to file a report

the Commission amend its license to authorize the use and occupancy of Indian lands as necessary to continue with existing project operations, and to establish annual charges for affected Tribal lands under Section 10(e) of the Federal Power Act (FPA). The licensee further requests that, if material issues of fact must be resolved related to either the requested declaratory order or license amendment, an opportunity for an evidentiary hearing be granted.

² 18 CFR 385.213(d)(2) (1995). See also 18 CFR 385.202 (1995).

on the status of its cases in litigation every 12 months, beginning July 1, 1995, until the cases are resolved. WNG states that this report is provided as Attachment 1 to the filing.

WNG states that a copy of its filing was served on all participants listed on the service lists maintained by the Commission in the dockets referenced above.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 925 North Capital Street, NE., Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests should be filed on or before June 30, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5249-7]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before July 31, 1995.

FOR FURTHER INFORMATION CONTACT: For further information, or a copy of this ICR, contact Sandy Farmer at (202) 260-2740.

SUPPLEMENTARY INFORMATION: Office of Air and Radiation

Title: Protection of Stratospheric Ozone: Labeling (EPA ICR #1757.01).

This ICR request approval of a new collection.

Abstract: All products containing a class I or class II ozone depleting substance and products manufactured with a class I substance must be labeled in accordance with the requirements of the Clean Air Act Amendments of 1990 and EPA regulations at 40 CFR 82.100-82.124. The Agency will inspect to ensure that these products contain the appropriate label and will work with Customs to ensure that importers comply with the regulations. The Agency also provides for exemptions from these requirements in cases where no viable alternative exists to the use of a class I substance in manufacturing. Such exemptions are available by petition and the Agency will use the information submitted in a petition to determine whether to grant the petitioner's request.

Burden Statement: Public reporting burden for this collection of information is estimated to average 10 minutes per response, including time for reviewing instructions, searching existing data sources, gathering the data needed, and completing the collection of information.

Respondents: Manufacturers and importers of products containing class I and class II ozone depleting substances.

Estimated Number of Respondents: 80.

Estimated Total Annual Burden on Respondents: 5040 hours.

Frequency of Collection: as needed.

Send comments regarding the burden estimate, or any other aspect of this information collection, including suggestions for reducing the burden:

Office of Water

Title: National Pollutant Discharge Elimination System (NPDES) and Sewage Sludge Management State Programs (EPA ICR No. 0168.06; OMB Control No. 2040-0057). This is a request for extension of a currently approved information collection.

Abstract: under the NPDES Program, States, Federally recognized Indian tribes, and territories may request authority from EPA to manage the NPDES and sewage sludge disposal programs. The current recordkeeping and reporting requirements for State NPDES and sludge program requests, implementation, and oversight are codified in 40 CFR Parts 123, 124, and 501. In the absence of an approved State program, EPA retains the authority to issue permits that establish the effluent limitations and monitoring requirements.

The burden for State program requests includes the activities States, tribes, and territories must complete to request authority for a new NPDES or sludge management program, or to modify an existing program. The burden for State program implementation includes permit enforcement activities, recordkeeping, and State certification of EPA-issued permits. The burden for State program oversight activities includes submittal of permit information and periodic reports to EPA.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 38 hours per response. This estimate includes the time needed to review instructions, search existing data sources, gather and maintain the data needed, and complete and review the collection of information.

Respondents: States, Indian Tribes, and Territories.

Estimated No. of Respondents: 97.
Estimated Total Annual Burden on Respondents: 1,012,595 hours.

Frequency of Collection: Variable, as needed.

Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to the following address. Please refer to EPA ICR No. 0168.06 and OMB Control No. 2040-0057 in any correspondence. Public Water System Supervision Program: EPA Tentatively Approves Program Revisions Corresponding to the National Primary Drinking Water Regulations for Phases II/IIB/V, Lead and Copper, and Methodology for Total Coliforms for the State of Iowa

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: Notice is hereby given that the State of Iowa is revising its approved State Public Water System Supervision (PWSS) Program. Iowa has adopted regulations for (1) synthetic organic chemicals and inorganic chemicals (Phases II and V), that correspond to the National Primary Drinking Water Regulations (NPDWR) published by EPA on January 30, 1991 (56 FR 3526) and July 17, 1992 (57 FR 31776); (2) volatile organic chemicals (Phase IIB), that correspond to the NPDWR published by EPA on July 1, 1991 (56 FR 30266); (3) lead and copper, that correspond to the NPDWR published by EPA on June 7, 1991 (56 FR 26460), and as amended on July 15, 1991 (56 FR 32112) and June 29, 1992 (57 FR 28785); and total coliforms, that correspond to the NPDWR published by EPA on June 10, 1992 (57 FR 24744).

EPA has determined that these State program revisions are no less stringent

than the corresponding Federal regulations. This determination was based upon an evaluation of Iowa's PWSS program in accordance with the requirements stated in 40 CFR 142.10. Therefore, EPA has tentatively decided to approve these State program revisions.

All interested parties are invited to request a public hearing. A request for a public hearing must be submitted to the Regional Administrator, within thirty (30) days of the date of this Notice, at the address shown below. If a public hearing is requested and granted, this determination shall not become effective until such time following the hearing that the Regional Administrator issues an order affirming or rescinding this action. If no timely and appropriate request for a hearing is received, and the Regional Administrator does not elect to hold a hearing on his own motion, this determination shall become effective thirty (30) days from this Notice date.

Insubstantial requests for a hearing may be denied by the Regional Administrator. However, if a substantial request is made within thirty (30) days after this notice, a public hearing will be held.

Requests for a public hearing should be addressed to: Ralph Langemeier, Chief, Drinking Water Branch, U.S. Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101.

Any request for a public hearing shall include the following: (1) The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; (2) A brief statement of the requesting person's interest in the Regional Administrator's determination and of information that the requesting person intends to submit at such hearing; and (3) The signature of the individual making the request; or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

Notice of any hearing shall be given not less than fifteen (15) days prior to the time scheduled for the hearing. Such notice will be made by the Regional Administrator in the **Federal Register** and in newspapers of general circulation in the State of Iowa. A notice will also be sent to the person(s) requesting the hearing as well as to the State of Iowa. The hearing notice will include a statement of purpose, information regarding time and location, and the address and telephone number where interested persons may obtain further information. The Regional Administrator will issue an order
