

Commission in Docket No. CP95-573-000 pursuant to Sections 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (NGA) for a request to construct and operate facilities to establish twelve points of delivery to existing customers, authorized in blanket certificate issued in Docket No. CP83-76-000, all as more fully set forth in the request on file with the Commission and open to public inspection.

Columbia proposes to construct and operate facilities to establish twelve additional points of delivery to existing customers and would continue to provide the customers with firm transportation service. Columbia states that there would be no impact on their existing design day and annual obligations to the customers as a result of the construction and operation of the new points of delivery. Columbia further states that the estimated cost to install the new taps would be approximately \$1,800 or \$150 per tap and would be treated as an O&M Expense.

Any person or the Commission's staff may, within 45 days after the Commission has issued this notice, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the NGA (18 CFR 157.205) a protest to the request. If no protest is filed within the allowed time, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the NGA.

Lois D. Cashell,

Secretary.

Title: New Source Performance Standard for Phosphate Rock Plants (EPA ICR #1078.04; OMB #2060-0111). This ICR is for an extension of an existing collection.

Abstract: Owners or operators of phosphate rock plants must notify the delegated State authority or EPA of construction, reconstruction, anticipated and actual dates of facility start-up, and dates and results of the initial performance test.
