**The National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC) Announces the Following Meeting**

*Name:* AIHA-NIOSH National Technical Workshop on Non-Powered Air-Purifying Particulate Respirators Certified Under 42 CFR part 84.

*Times and Dates:* 2 p.m.-5 p.m., July 10, 1995; 9 a.m.-5 p.m., July 11, 1995; 9 a.m.-12 noon, July 12, 1995.

*Status:* Open to the public, limited only by the space available. The meeting room accommodates 50 people.

*Purpose:* The National Institute for Occupational Safety and Health (NIOSH) and the American Industrial Hygiene Association (AIHA) are jointly sponsoring a workshop to receive technical comment and recommendations on a draft NIOSH user's guideline on non-powered particulate filter respirators that will be certified under new testing and certification procedures contained in 42 CFR part 84.

*Matters To Be Discussed:* New testing and certification procedures under the recently published NIOSH respirator certification standard (42 CFR 84 (60 FR 30336)) will introduce three new classes (N-, R-, and P-series) of particulate filters for non-powered air-purifying particulate respirators. Each filter type will be certified at three efficiency levels: 95%, 99%, 99.97%. In time, these new filter types will replace dust and mist; dust, fume, and mist; high efficiency, and other types of particulate filters that were certified under 30 CFR 11. To help respirator purchasers and users and respiratory program managers determine which of the new filter types to use in different work environment, NIOSH has prepared a draft user guideline that will be discussed at this joint NIOSH/AIHA workshop. Among other things, the guideline will recommend for the new classes of particulate-filtering respirators provisions APFs that are based on combined filter and face seal leakage. The meeting will not address issues relating to respiratory protective devices certified under 30 CFR 11.

**SUPPLEMENTARY INFORMATION:** In accordance with 56 FR 23789 (May 24, 1991) and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1988 Court Order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been

reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Homeless assistance providers interested in any such property should send a written expression of interest to HHS, addressed to Judy Breitman, Division of Health Facilities Planning, U.S. Public Health Service, HHS, room 17A-10, 5600 Fishers Lane, Rockville, MD 20857; (301) 443-2265. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is encouraged to refer to the interim rule governing this program, 56 FR 23789 (May 24, 1991).

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1-800-927-7588 for detailed instructions or write a letter to David Pollack at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the **Federal Register**, the landholding agency, and the property number.
