[Notice 95-050]**Intent To Grant a Partially Exclusive Patent License**

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Intent to Grant a Patent License.

SUMMARY: NASA hereby gives notice of intent to grant Holmes Enterprises, Inc., 106 Normandy Lane, Newport News, VA 23606, a license to practice the invention protected by U.S. Patent No. 4,873,990, entitled "Circumferential Pressure Probe," which was issued on October 17, 1989, to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. The partially exclusive license will contain appropriate terms and conditions to be negotiated in accordance with "Licensing of Government-Owned Inventions," (37 CFR 404.1 *et seq.*). NASA will negotiate the final terms and conditions and grant the license unless, within 60 days of the date of this notice, the Patent Counsel, NASA, Langley Research Center, receives written objections to the grant, together with supporting documentation. The Patent Counsel, NASA Langley Research Center, will review all written responses to this notice and then recommend to the Associate General Counsel for Intellectual Property where to grant the license.

DATES: Comments to the notice must be received by September 1, 1995.

ADDRESSES: Langley Research Center, Mail Code 212, Hampton, VA 23681-0001.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION**Records Schedules; Availability and Request for Comments**

AGENCY: National Archives and Records Administration, Office of Records Administration.

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Records schedules identify records of sufficient value to warrant preservation in the National Archives of the United States. Schedules also authorize agencies after a specified period to dispose of records lacking administrative, legal, research, or other value. Notice is published for records schedules that (1) propose the destruction of records not previously authorized for disposal, or (2) reduce the retention period for records already authorized for disposal. NARA invites public comments on such schedules, as required by 44 USC 3303a(a).

DATES: Request for copies must be received in writing on or before August 17, 1995. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

ADDRESSES: Address requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, College Park, MD 20740. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in the parentheses immediately after the name of the requesting agency.

SUPPLEMENTARY INFORMATION: Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or

a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.

Cooperative Agreement for Designing a National System for Collecting Economic Data on Arts Organizations

AGENCY: National Endowment for the Arts.

ACTION: Notification of Availability.

SUMMARY: The National Endowment for the Arts requests proposals leading to the award of a Cooperative Agreement with the goal of creating specific recommendations regarding practical steps to be undertaken by the

Endowment to improve the current state of economic data collection on arts organizations. The project will consist of three parts. Phase 1: A description of current national data collection systems on arts organizations. Phase 2: An assessment of needs of arts policymakers, researchers, and practitioners regarding arts organization economic data. Phase 3: An assessment of the ability of current data collection systems as described in Phase 1 to address the needs as determined in Phase 2. Those interested in receiving the Solicitation should reference Program Solicitation PS 95-08 in their written request and include two (2) self-addressed labels. Verbal requests for the Solicitation will not be honored.

DATES: Program Solicitation PS 95-08 is scheduled for release approximately July 21, 1995 with proposals due on August 21, 1995.

ADDRESSES: Requests for the Solicitation should be addressed to National Endowment for the Arts, Contracts Division, Room 217, 1100 Pennsylvania Ave., NW, Washington, DC 20506.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-289]

GPU Nuclear Corporation; Three Mile Island Nuclear Station, Unit 1 Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an exemption from the provisions of 10 CFR 50.44, 10 CFR 50.46, and appendix K to 10 CFR part 50 to GPU Nuclear Corporation (GPUN, the licensee) for Three Mile Island Nuclear Station, Unit 1 (TMI-1), located in Dauphin County, Pennsylvania.

Environmental Assessment

Identification of Proposed Action

The proposed action would enable the licensee to use demonstration fuel assemblies that contain some fuel rods whose zirconium-based cladding composition is somewhat different from the zirconium based compound named zircaloy. These demonstration assemblies would be loaded into TMI-1 during the upcoming September 1995 refueling outage and irradiated through fuel Cycles 11, 12, and 13.

The proposed action is in accordance with the licensee's application for exemption of June 1, 1995.

The Need for the Proposed Action

The proposed exemption to 10 CFR 50.44, 10 CFR 50.46, and appendix K to 10 CFR part 50 is needed because these regulations specifically refer to light-water reactors containing fuel consisting of uranium oxide pellets enclosed in zircaloy tubes. Zircaloy is a zirconium-based alloy currently in use as cladding for fuel pellets. A new zirconium-based cladding has been developed which is not the same chemical composition as
