Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before August 4, 1995.

FOR FURTHER INFORMATION CONTACT: For further information, or for a copy of this ICR, contact Sandy Farmer at (202) 260-2740, please refer to EPA ICR #1601.03.

SUPPLEMENTARY INFORMATION:

Office of Air and Radiation

Title: Air Pollution Regulations for Outer Continental Shelf (OCS) Activities: Reporting, Recordkeeping, and Testing Requirements. (EPA ICR#1601.03 and OMB #2060-0249.)

Abstract: this ICR is an extension of an existing information collection in support of Section 801 of the Clean Air Act (CAA) Amendments of 1990 amended Title III of the CAA by adding section 328 which is titled: Air Pollution from Outer Continental Shelf Activities. Under this ICR, owners and operators of sources involved in the recovery of oil and gas from the outer continental shelf (OCS) are the respondents and recordkeepers for this information collection request.

Owners and operators of affected facilities will be responsible for submitting the following reports: (1) Notice of intent to construct; (2) preconstruction permit application; (3) annual reporting requirements to demonstrate compliance with operating permits; (4) submission of the daily fuel log 60 days after each well drilling completion.

Owners and operators of affected facilities are responsible for maintaining records on the following topics: (1) Daily fuel use associated with each well

drilling; (2) records demonstrating compliance with operating permits.

State and local agencies will be responsible for submitting the following reports: (1) Request for EPA transfer of authority in order to enforce the OCS regulations; (2) submission of all permit applications.

Burden Statement: Public reporting burden for this collection of information is estimated to average 25,100 hours per year; the annual reporting burden per respondent is estimated to be 612 hours, including time of reviewing instructions, searching existing data sources, gathering the data needed, completing the collection of information and maintaining records.

Respondents: State and local governments and OCS stationary sources.

Estimated Number of Respondents: 41.

Estimated Total Annual Burden on Respondents: 25,100 hours.

Frequency of Collection: One-time, on occasion and annually.

Send comments regarding the burden estimate, or any other aspect of this information collection, including suggestions for reducing the burden, (please refer to EPA ICR 1601.03 and #2060-0249) to:

Sandy Farmer, EPA ICR #1601.03, U.S. Environmental Protection Agency, Information Policy Branch (2136), 401 M Street, SW., Washington, DC 20460, and

Chris Wolz, OMB #2060-0243, Office of Management and Budget, Office of Information and Regulation Affairs, 725 17th Street, NW., Washington, DC 20503.

Dated: June, 27, 1995.

Joseph Retzer,

Director, Regulatory Information Division.

SUPPLEMENTARY INFORMATION:

Office of Prevention, Pesticides and Toxic Substances

Title: Polychlorinated Biphenyls (PCBs)—Notification and Manifesting of PCB Waste Activities and Records of PCB Storage and Disposal. (EPA ICR No. 1446.05; OMB No. 2070-0112). This notice requests an extension of a currently approved collection.

Abstract: Under § 6(e) of the Toxic Substances Control Act (TSCA), generators of PCB waste must prepare manifests when they ship the waste for storage and disposal. The manifests enable EPA to track the chain of custody for a particular PCB waste shipment. Generators must also submit to EPA an Exception Report if, within 45 days, they do not receive a copy of the PCB waste manifest signed by the owner or operator of the PCB commercial storage and disposal facility to which the waste was shipped. They are also required to submit an annual report of unmanifested PCB waste.

All commercial storers, transporters and disposers of PCB waste must notify the EPA of their PCB waste handling activities, and they must obtain an ID number to be used on the required PCB waste manifests. Owners and operators of commercial storage and disposal facilities, must submit to the Agency an annual report of discrepancies between the quantity and type of PCB waste designated on the manifest or shipping papers, and the quantity or type of PCB waste actually delivered to, and received by, their designated facilities. Commercial storers of PCB waste must submit financial assurance and closure plans for EPA approval of their facilities. Commercial storers must also keep records of burden associated with 3rd-party notifications. In addition, users, storers, and disposers of PCB waste must keep records of all their PCB activities, including copies of manifests and all annual records of the disposition of PCBs. The Agency uses the information to monitor the movement of PCBs and their ultimate disposal, and to ensure compliance with the regulations.

Burden Statement: The estimated average public reporting burden for this collection of information is .38 hour per respondent for reporting, and 7.4 hours per recordkeeper annually. This estimate includes the time to read instructions, gather existing information and complete the required reports.
