Clearance Request for Qualification Requirements

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for an extension to an existing OMB clearance (9000-0020).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501), the Federal Acquisition Regulation (FAR) Secretariat has submitted to the Office of Management

and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning Qualification Requirements.

FOR FURTHER INFORMATION CONTACT: Beverly Fayson, Office of Federal Acquisition Policy, GSA (202) 501-4755.

SUPPLEMENTARY INFORMATION:

A. Purpose

10 U.S.C. 2319 and 41 U.S.C. 253c prescribe policies and procedures which are to be followed by Federal agencies before they may establish any prequalification requirement with which a prospective contractor must comply before his offer will even be considered by the agency for a contract award. Three basic requirements are prescribed.

First, the agency must examine the need for establishing the prequalification requirement, given its adverse impact on free and open competition. Having established that a need for a prequalification requirement exists, the agency must prepare a written justification which explains that need.

Second, the agency must specify the standards which a prospective contractor, or its product or service, must satisfy in order to be qualified. The agency is directed to limit such standards to those essential to "meet the purposes necessitating the establishment of the prequalification requirement."

Third, the executive agency imposing the prequalification requirement must promptly provide a prospective contractor with the opportunity to demonstrate its ability to meet the standards the agency has specified for qualification.

The contracting officer uses the information to determine eligibility for award when the clause at 52.209-1, Qualification Requirements, is included in the solicitation. The offeror must identify the offeror, manufacturer, source, product or service, as appropriate, that has been prequalified and test number as evidence that the qualification requirement has been met. Alternatively, an offeror not meeting the qualification requirement may be considered for award upon the submission of evidence that the qualification requirement has been satisfied.

AGENCIES: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for an extension to an existing OMB clearance (9000-0021).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501), the Federal Acquisition Regulation (FAR) Secretariat has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning Clean Air and Water Certification.

SUPPLEMENTARY INFORMATION:

A. Purpose

It is the Government's policy to improve environmental quality. Accordingly, Executive agencies must conduct their acquisition activities in a

manner that will result in effective enforcement of the Clean Air Act (42 U.S.C. 7401 *et seq.*) and the Clean Water Act (33 U.S.C. 1251 *et seq.*). The information required by the Clean Air and Water Certification is used to determine a contractor's compliance with these laws. A determination of noncompliance by the contracting officer requires notifying the agency head or designee who, in turn, notifies the Environmental Protection Agency's (EPA) Administrator, or a designee, in writing.
