FOR FURTHER INFORMATION CONTACT: Beverly Fayson, Office of Federal Acquisition Policy, GSA (202) 501-4755.

SUPPLEMENTARY INFORMATION:

A. Purpose

It is the Government's policy to improve environmental quality. Accordingly, Executive agencies must conduct their acquisition activities in a

manner that will result in effective enforcement of the Clean Air Act (42 U.S.C. 7401 *et seq.*) and the Clean Water Act (33 U.S.C. 1251 *et seq.*). The information required by the Clean Air and Water Certification is used to determine a contractor's compliance with these laws. A determination of noncompliance by the contracting officer requires notifying the agency head or designee who, in turn, notifies the Environmental Protection Agency's (EPA) Administrator, or a designee, in writing. Government contracting offices use the information to determine a firm's eligibility for award of a contract and to provide information to the EPA.

B. Annual Reporting Burden

Public reporting burden for this collection of information is estimated to average .01666 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
