

modifiers (relating to human activities). This wetlands classification standard was developed by a team of wetland ecologists with the assistance of local, State, and Federal agencies as well as private organizations, academia, and individuals. It went through four major revisions and extensive field testing prior to its official adoption by the U.S. Fish and Wildlife Service in 1980. This document serves as the wetlands classification standard for all Federal agencies involved in portraying spatial data. It is also the classification system of choice for most State and county agencies currently using wetlands spatial data.

Specific implementation details for particular technologies or procedures (photointerpretation and cartographic design) are not addressed. Additional documents exist that provide an example of the implementation of the proposed wetlands classification standard, but are not a part of the standard. These documents are: (1) Photointerpretation Conventions (updated 1995), (2) Cartographic Conventions (updated 1994), and (3) Digitizing Conventions (updated 1994). These documents may be obtained on request through the FGDC Secretariat at the above address. Two additional documents providing increased detail to support the classification are the "National List of Plant Species That Occur In Wetlands," USFWS, Biological Report 88(24) and "Hydric Soils of the United States," Natural Resources Conservation Service, Misc. Publ. #1491. The plant list may be accessed through the National Wetlands Inventory Home Page (Ecology Section); the URL is: <http://www.nwi.fws.gov>

National Park Service

Katmai National Park and Preserve, Alaska

AGENCY: National Park Service, Interior.

ACTION: Notice of availability.

SUMMARY: Pursuant to Section 102 (2)(c) of the National Environmental Policy Act of 1969 (P.L. 91-190, as amended), the National Park Service, Department of the Interior, has prepared a Supplemental Environmental Impact Statement (SEIS) to the 1994 Draft Development Concept Plan and Environmental Impact Statement (DCP/EIS) for the Brooks River Area, Katmai National Park and Preserve, Alaska. It includes a new proposal, Alternative 5.

DATES: Comments on the SEIS should be received no later than August 14, 1995. Written responses to the SEIS should be submitted to the Superintendent, Katmai National Park and Preserve, Post Office Box 7, King Salmon, Alaska, 99613. No public meetings will be held.

Copies of the SEIS are available on request from: Planning Team Leader,

National Park Service, Denver Service Center-TWE, Post Office Box 27287, Denver, Colorado 80225-0287, telephone (303) 969-2262.

SUPPLEMENTARY INFORMATION: This EIS is a supplement to the 1994 Draft Development Concept Plan and Environmental Impact Statement (DCP/EIS) for the Brooks River Area, Katmai National Park and Preserve, Alaska. It includes a new proposal, Alternative 5. As in the Draft DCP/EIS, the major issue to be addressed is to identify appropriate alternatives for visitor use and resource conservation in the operation and location of development in the Brooks River Area of Katmai National Park and Preserve.

The new proposed action, Alternative 5, consists of the following elements: a rustic lodge and dining facility and overnight accommodations for 60, in separate cabins with a central shower/washroom facility on the Beaver Pond Terrace. A 60-person campground with enclosed, bear-proof cooking shelters would be provided on the terrace. All overnight accommodations would be provided through a concession-run, private sector corporation. Staff facilities would be similar to the lodge structures, with a second central shower/washroom facility. A main visitor center for the park would be the Interagency Visitor Center located in the gateway community of King Salmon. A visitor orientation facility would be provided in the Brooks River Area for on-site interpretation and safety orientation. The new proposal would provide for boat and aircraft access to the Brooks River Area and would encourage planning for appropriate dispersed outdoor recreational activities throughout the Naknek drainage, as called for in the 1986 General Management Plan (GMP).

Dated: June 28, 1995.

Michael Soukup,

Associate Director, Natural Resource Stewardship and Science.

Notice of Completion of Inventory of Native American Human Remains within the Rainbow House Collection, Bandelier National Monument, Los Alamos County, NM

AGENCY: National Park Service, Interior
ACTION: Notice

Notice is hereby given under provisions of the Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003(d), of the completion of the inventory of human remains within the Rainbow House collection (LA 217), a Federally curated collection at Bandelier National Monument, Los Alamos County, NM.

The detailed inventory and assessment of the Rainbow House collection has been made by National Park Service professional staff and consultation with representatives of the following Pueblo groups: Pueblo of Santa Clara; Pueblo of San Ildefonso; Pueblo of Tesuque; Pueblo of Cochiti; Pueblo of Santo Domingo; Pueblo of Jemez; Pueblo of Zuni; and the Hopi Tribe.

Between 1948 and 1955, Fredrick Worman of Adams State College, CO and Louis Caywood of the National Park Service, carried out legally authorized archeological excavations on Federal public lands, including the Rainbow House archeological site within Bandelier National Monument. At Rainbow House one hundred rooms were excavated, as well as a kiva and an associated plaza. A minimum of seven
