

Alternate Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the Peach Bottom Atomic Power Station, Units 2 and 3, dated April 1973.

Agencies and Persons Consulted

In accordance with its stated policy, on June 27, 1995, the staff consulted with the Pennsylvania State official, Stan Maingi, of the Pennsylvania Department of Environmental Resources, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to this proposed action, see the licensee's letter dated November 21, 1994, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Government Publications Section, State Library of Pennsylvania, (REGIONAL DEPOSITORY) Education Building, Walnut Street and Commonwealth Avenue, Box 1601, Harrisburg, Pennsylvania.

Dated at Rockville, Maryland, this 29th day of June 1995.

For the Nuclear Regulatory Commission.

John F. Stolz,

Director, Project Directorate I-2, Division of Reactor Projects — I/II, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

Nuclear Safety Research Review Committee

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of meeting.

The Nuclear Safety Research Review Committee (NSRRC) will hold its next meeting on July 26-27, 1995. The location of the meeting will be the Severn Room at the Hyatt Regency Hotel. One Bethesda Metro, Bethesda, MD., except for the period from 10 to 11:30 am on July 27, when the meeting location will be the Commission Conference Room in the One White

Flint North (OWFN) Building, 11555 Rockville Pike, Rockville, MD.

The meeting will be held in accordance with the requirements of the Federal Advisory Committee Act (FACA) and will be open to public attendance. The NSRRC provides advice to the Director of the Office of Nuclear Regulatory Research (RES) on matters of overall management importance in the direction of the NRC's program of nuclear safety research. The main purposes of this meeting are (a) to review the NRC's overall research program plans and priorities; (b) to deliberate on the reports of the NSRRC Subcommittees on Waste, on Instrumentation and Controls and Human Factors, and on Research in Support of Risk Based Regulation, based on the subcommittees' May 1995 meetings; (c) to brief the Commission on the Committee's views regarding items (a) and (b); and (d) to receive a NRC staff status briefing on steam generator tube integrity issues.

The planned schedule is as follows:

Wednesday, July 26 (Severn Room, HYATT REGENCY HOTEL, BETHESDA)
 8:00-8:20—Introductory remarks
 8:20-12:00—Overall research program plans and priorities
 1:15-4:00—Subcommittee reports
 4:00-6:00—Committee discussion in preparation for Commission briefing

Thursday, July 27 (Severn Room, HYATT REGENCY HOTEL, BETHESDA, *except 10:00-11:30*)
 8:00-9:15—Committee discussion in preparation for Commission briefing (continued)
 10:00-11:30—IN COMMISSION CONFERENCE ROOM, OWFN, ROCKVILLE: Meeting with the Commission
 1:15-2:45—Status update on steam generator tube integrity issues
 3:00-5:00—Committee discussion: further deliberation on subcommittee reports; follow-up plans

Participants in parts of the discussions will include representatives of the NRC staff. The discussions on July 26 and the early morning of July 27 will, as needed, include open executive sessions for discussion of plans for the Committee's briefing of the Commission beginning at 10 a.m. on July 27.

Members of the public may file written statements regarding any matter to be discussed at the meeting. Members of the public may also make requests to speak at the meeting, but permission to speak will be determined by the Committee chairperson in accordance

with procedures established by the Committee. A verbatim transcription will be made of the NSRRC meeting and a copy of the transcript will be placed in the NRC's Public Document Room in Washington, DC.

Any inquiries regarding this notice, any subsequent changes in the status and schedule of the meeting, the filing or written statements, requests to speak at the meeting, or for the transcript, may be made to the Designated Federal Officer, Mr. George Sege (telephone: 301-415-6593), between 8:15 am and 5:00 pm.

Dated at Rockville, Maryland this 29th day of June, 1995.

For the Nuclear Regulatory Commission

John C. Hoyle,

Acting Federal Advisory Committee, Management Officer.

[FR Doc. 95-16543 Filed 7-5-95; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-309, 50-285, 50-317, 50-318, 50-336, 50-335; License Nos. DPR-36, DPR-40, DPR-53, DPR-69, DPR-65, DPR-67]

Maine Yankee Atomic Power Company (Maine Yankee); Omaha Public Power District (Fort Calhoun 1); Baltimore Gas and Electric Company (Calvert Cliffs 1 and 2); Northeast Nuclear Energy Company (Millstone 2); Florida Power and Light Company (St. Lucie 1); Receipt of Petition for Director's Decision Under 10 CFR 2.206

Notice is hereby given that by a Petition dated May 2, 1995, John F. Doherty requests that the Nuclear Regulatory Commission (NRC) take immediate action to shut down six pressurized-water reactors and inspect the steam generator tubes at those reactors using the Point Plus Probe system.

As the basis for this request, the Petitioner states that an inspection at the Maine Yankee plant using the Point Plus Probe system revealed that the steam generator tubes are on the verge of rupturing. He, therefore, asks that Maine Yankee, along with the other plants he has identified as being manufactured by the same company and of similar operating age, be immediately shut down. The Petitioner also asks that all the steam generator tubes at all the identified plants be inspected immediately.

The Petition is being treated pursuant to 10 CFR 2.206 of the Commission's regulations. It has been referred to the Director of the Office of Nuclear Reactor Regulation. As provided by Section 2.206, appropriate action will be taken
