

smaller than 25³/₈ inches; or both.) The regulations prescribe performance, design, and labeling requirements for non-full-size cribs. They also require manufacturers of those products to maintain sales records for a period of three years after the manufacture or sale of non-full-size cribs. If any non-full-size cribs subject to provisions of 16 CFR 1500.18(a)(14) and Part 1509 fail to comply in a manner severe enough to warrant a recall, the required records can be used by the manufacturer or importer and by the Commission to identify those persons and firms who should be notified of the recall.

Additional Details About the Request for Extension of Approval of Information Collection Requirements

Agency address: Consumer Product Safety Commission, Washington, D. C. 20207.

Title of information collection: Recordkeeping Requirements for Non-Full-Size Baby Cribs - 16 CFR 1509.12.

Type of request: Extension of approval.

Frequency of collection: Varies depending upon volume of products manufactured, imported, or sold.

General description of respondents: Manufacturers and importers of non-full-size cribs.

Estimated number of respondents: 40.

Estimated average number of hours per respondent: 4 per year.

Estimated number of hours for all respondents: 160 per year.

Comments: Comments on this request for extension of approval of information collection requirements should be addressed to Donald Arbuckle, Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D. C. 20503; telephone: (202) 395-7340. Copies of the request for extension of information collection requirements are available from Nicholas Marchica, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, D. C. 20207; telephone: (301) 504-0416.

This is not a proposal to which 44 U.S.C. § 3504(h) is applicable.

Dated: June 30, 1995.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

Notification of Request for Extension of Approval of Information Collection Requirements—Safety Regulations for Full-Size Cribs

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In accordance with provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35), the Consumer Product Safety Commission has submitted to the Office of Management and Budget a request for extension of approval through October 31, 1998, of information collection requirements in the safety regulations for full-size cribs codified at 16 CFR 1500.18(a)(13) and Part 1508. These regulations were issued to reduce hazards of strangulation, suffocation, pinching, bruising, laceration, and other injuries associated with full-size cribs. (A full-size crib is a crib having an interior length ranging from 49³/₄ inches to 55 inches and an interior width ranging from 25³/₈ to 30³/₈ inches.) The regulations prescribe performance, design, and labeling requirements for full-size cribs. They also require manufacturers of those products to maintain sales records for a period of three years after the manufacture or sale of full-size cribs. If any full-size cribs subject to provisions of 16 CFR 1500.18(a)(13) and Part 1508 fail to comply in a manner severe enough to warrant a recall, the required records can be used by the manufacturer or importer and by the Commission to identify those persons and firms who should be notified of the recall.

BILLING CODE 6355-01-P

Notification of Request for Extension of Approval of Information Collection Requirements; Mattress Flammability Standard

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In accordance with provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35), the Consumer Product Safety Commission has submitted to the Office of Management and Budget a request for extension of approval through September 30, 1998, of information collection requirements in the Standard for the Flammability of Mattresses and Mattress Pads (16 CFR Part 1632). The standard is intended to reduce unreasonable risks of burn injuries and deaths from fires associated with mattresses and mattress pads. The standard prescribes a test to assure that a mattress or mattress pad will resist ignition from a smoldering cigarette. The standard requires manufacturers to perform prototype tests of each combination of materials and construction methods used to produce mattresses or mattress pads and to obtain acceptable results from such testing. Sale or distribution of mattresses without successful completion of the testing required by the standard violates section 3 of the Flammable Fabrics Act (15 USC 1192). An enforcement rule implementing the standard requires manufacturers to maintain records of testing performed in accordance with the standard and other information about the mattress or mattress pads which they produce.
