

published in the **Federal Register** on October 7, 1994 (59 FR 51219). In accordance with these procedures, oral or written statements may be presented by members of the public, electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Committee, its consultants, and staff. Persons desiring to make oral statements should notify the Chief, Nuclear Waste Branch, Mr. Richard K. Major, as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements. Use of still, motion picture, and television cameras during this meeting may be limited to selected portions of the meeting as determined by the ACNW Chairman. Information regarding the time to be set aside for this purpose may be obtained by contacting the Chief, Nuclear Waste Branch prior to the meeting. In view of the possibility that the schedule for ACNW meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with Mr. Major if such rescheduling would result in major inconvenience.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting Mr. Richard K. Major, Chief, Nuclear Waste Branch (telephone 301/415-7366), between 8:00 A.M. and 5:00 P.M. EDT.

ACNW meeting notices, meeting transcripts, and letter reports are now available on FedWorld from the "NRC MAIN MENU." Direct Dial Access number to FedWorld is (800) 303-9672; the local direct dial number is 703-321-3339.

### **Draft Regulatory Guide; Issuance, Availability**

The Nuclear Regulatory Commission has issued for public comment a draft of a guide planned for its Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods acceptable to the NRC staff for implementing specific parts of the Commission's regulations, techniques used by the staff in evaluating specific problems or postulated accidents, and data needed by the staff in its review of applications for permits and licenses.

The draft guide, temporarily identified by its task number, DG-1040 (which should be mentioned in all correspondence concerning this draft guide), is titled "Time Response Design Criteria for Safety-Related Operator

Actions." The guide will be in Division 1, "Power Reactors." This regulatory guide is being developed to provide methods acceptable to the NRC staff for developing and applying timing criteria for safety-related operator actions. This guide endorses the American National Standards Institute/American Nuclear Society standard ANSI/ANS-58.8-1994, "Time Response Design Criteria for Safety-Related Operator Actions."

The draft guide has not received complete staff review and does not represent an official NRC staff position.

Public comments are being solicited on the guide. Comments should be accompanied by supporting data. Written comments may be submitted to the Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Copies of comments received may be examined at the NRC Public Document Room, 2120 L Street NW., Washington, DC. Comments will be most helpful if received by August 31, 1995.

Although a time limit is given for comments on this draft guide, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

Comments may be submitted electronically, in either ASCII text or Wordperfect format (version 5.1 or later), by calling the NRC Electronic Bulletin Board on FedWorld. The bulletin board may be accessed using a personal computer, a modem, and one of the commonly available communications software packages, or directly via Internet.

If using a personal computer and modem, the NRC subsystem on FedWorld can be accessed directly by dialing the toll free number: 1-800-303-9672. Communication software parameters should be set as follows: Parity to none, data bits to 8, and stop bits to 1 (N,8,1). Using ANSI or VT-100 terminal emulation, the NRC NUREGs and RegGuides for Comment subsystem can then be accessed by selecting the "Rules Menu" option from the "NRC Main Menu." For further information about options available for NRC at FedWorld, consult the "Help/Information Center" from the "NRC Main Menu." Users will find the "FedWorld Online User's Guides" particularly helpful. Many NRC subsystems and data bases also have a "Help/Information Center" option that is tailored to the particular subsystem.

The NRC subsystem on FedWorld can also be accessed by a direct dial phone

number for the main FedWorld BBS, 703-321-3339, or by using Telnet via Internet, fedworld.gov. If using 703-321-3339 to contact FedWorld, the NRC subsystem will be accessed from the main FedWorld menu by selecting the "Regulatory, Government Administration and State Systems," then selecting "Regulatory Information Mall." At that point, a menu will be displayed that has an option "U.S. Nuclear Regulatory Commission" that will take you to the NRC Online main menu. The NRC Online area also can be accessed directly by typing "/go nrc" at a FedWorld command line. If you access NRC from FedWorld's main menu, you may return to FedWorld by selecting the "Return to FedWorld" option from the NRC Online Main Menu. However, if you access NRC at FedWorld by using NRC's toll-free number, you will have full access to all NRC systems but you will not have access to the main FedWorld system.

If you contact FedWorld using Telnet, you will see the NRC area and menus, including the Rules menu. Although you will be able to download documents and leave messages, you will not be able to write comments or upload files (comments). If you contact FedWorld using FTP, all files can be accessed and downloaded but uploads are not allowed; all you will see is a list of files without descriptions (normal Gopher look). An index file listing all files within a subdirectory, with descriptions, is included. There is a 15-minute time limit for FTP access.

Although FedWorld can be accessed through the World Wide Web, like FTP that mode only provides access for downloading files and does not display the NRC Rules menu.

For more information on NRC bulletin boards call Mr. Arthur Davis, System Integration and Development Branch, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 415-5780; e-mail AXD3@nrc.gov. For more information on this draft regulatory guide, contact J.J. Kramer at the NRC, telephone (301) 415-5891; e-mail JJK1.@nrc.gov.

Regulatory guides are available for inspection at the Commission's Public Document Room, 2120 L Street NW., Washington, DC. Requests for single copies of draft or final guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future draft guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Distribution and Mail Services Section; or by fax at (301) 415-2260. Telephone requests cannot be

accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland, this 26th day of June 1995.

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-35917; File No. SR-MSRB-95-03]

### Self-Regulatory Organizations; Municipal Securities Rulemaking Board; Order Approving Proposed Rule Change Relating to the Submission of Transaction Information for Confirmation, Clearance, and Settlement of Transactions with Customers

June 28, 1995.

On March 23, 1995, the Municipal Securities Rulemaking Board ("MSRB") filed with the Securities and Exchange Commission ("Commission") a proposed rule change (File No. SR-MSRB-95-3) under Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")<sup>1</sup> to amend MSRB rule G-15 regarding the confirmation, clearance, and settlement of transactions with customers. Notice of the proposal was published in the **Federal Register** on May 10, 1995.<sup>2</sup> No comment letters were received. For the reasons discussed below, the Commission is approving the proposed rule change to become effective thirty days from the date of approval by the Commission.

#### I. Description

On October 6, 1993, the Commission adopted Rule 15c6-1 under the Act, which establishes three business days after the trade date ("T+3") instead of five business days ("T+5") as the standard settlement time frame for most broker-dealer transactions.<sup>3</sup> Recognizing the differences between the corporate and municipal securities markets and the unique role the MSRB has in overseeing the municipal securities market, the Commission did not include municipal securities within the scope of Rule 15c6-1.<sup>4</sup> The Commission, however, did formally request that the MSRB undertake a commitment to T+3 settlement for municipal securities to ensure consistency in settlement cycles in the corporate and municipal markets.

On February 28, 1995, the Commission approved amendments to MSRB rules G-12 on uniform practice and rule G-15 on confirmation,

<sup>2</sup> Securities Exchange Act Release No. 35675 (May 4, 1995), 60 FR 24950.

<sup>3</sup> Securities Exchange Act Release No. 33023 (October 6, 1993), 58 FR 52891 (release adopting Rule 15c6-1). On November 16, 1994, the Commission changed the effective date of Rule 15c6-1 from June 1, 1995, to June 7, 1995. Securities Exchange Act Release No. 34952 (November 9, 1994), 59 FR 59137.
