Electric Utility Hazardous Air Pollutant Study; Report to Congress

AGENCY: U.S. Environmental Protection Agency (EPA).

ACTION: Notice of document availability, Scientific Peer Review Meeting, and Public Outreach Meeting.

SUMMARY: A scientific peer review meeting will be held by the Office of Air

Quality Planning and Standards to review a draft of the EPA's Electric Utility Hazardous Air Pollutant Study Report to Congress (hereafter "Draft Report"). This Draft Report is being prepared by the EPA in response to section 112(n)(1)(A) of the Clean Air Act as amended in 1990, which requires the EPA to submit to Congress the results of a study of emissions of hazardous air pollutants (HAPs) from electric utility steam generating units and on the hazards to public health reasonably anticipated to occur as a result of these emissions. Congress directed that the report describe alternative control strategies for HAP emissions which may warrant regulation. The Administrator is to regulate electric utility steam generating units if such regulation is found to be appropriate and necessary after considering the results of the study.

A separate public outreach meeting will be held to allow interested parties opportunity to provide the EPA with input regarding the results of the study and recommendations for future action by the Agency.

DATES: The scientific peer review meeting will be held on July 11 and 12, 1995, at the EPA's Office of Administration and Resources Management Administration Building auditorium, Research Triangle Park, North Carolina. The public outreach meeting will be held on July 13 and 14 (if necessary), 1995, at the North Carolina Mutual Life Insurance auditorium, 411 West Chapel Hill Street, Durham, North Carolina. The meetings will begin at 9:00 a.m. each day.

ADDRESSES: Members of the public wishing to attend either meeting should register by phoning Ms. Donna Collins at (919) 541-5578. Please note that space is limited and registrations will be accepted on a first-come, first-serve basis.

Copies of the Draft Report will only be available from Public Docket No. A-92-55 at the following address: U.S. Environmental Protection Agency, Air and Radiation Docket and Information Center (formerly known as the Air Docket) (6102), 401 M Street, S.W., Washington, D.C. 20460. The docket is located at the above address in room M-1500, Waterside Mall (ground floor), and may be inspected from 8:00 a.m. to 4:00 p.m., Monday through Friday. The Draft Report (docket entry A-92-55, I-A-1) is available for review in the docket center or copies may be mailed on request from the Air and Radiation Docket and Information Center by calling (202) 260-7548 or 7549. The

FAX number for the Center is (202) 260-4000. A reasonable fee may be charged for copying docket materials.

Docket. Docket No. A-92-55, containing supporting information used in developing the Draft Report, is available for public inspection and copying as noted above. The docket is an organized file of information used by the EPA in the development of this Draft Report. The principal purpose of the docket in this case is to allow interested parties to readily identify and locate documents so that they can intelligently and effectively participate in the comment process.

FOR FURTHER INFORMATION CONTACT: For information concerning specific aspects of this study, contact Mr. William Maxwell [telephone number (919) 541-5430], Combustion Group, Emission Standards Division (MD-13), or Mr. Chuck French [telephone number (919) 541-0467], Risk and Exposure Assessment Group, Air Quality Strategies and Standards Division (MD-15), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711.

SUPPLEMENTARY INFORMATION: The EPA has prepared the "Study of Hazardous Air Pollutant Emissions from Electric Utility Steam Generating Units Pursuant to Section 112(n)(1)(A) of the Clean Air Act—Scientific Peer Review Draft" (June 1995).

A scientific peer review meeting is being held as part of the process of scientific review of the Draft Report. The Draft Report is developmental and does not represent Agency policy. The Draft Report is being made available to the public as part of the Agency's continuing commitment to conduct assessments of important environmental contaminants in an open and participatory manner, to keep the public informed, and to encourage public review of significant assessments. The scientific peer review meeting will be reserved for discussion of the scientific, technical aspects of the Draft Report, the primary purpose being to receive comments by the scientific peer review panel. The public is invited to attend this meeting in an observational status only and no opportunity will be presented or offered for participation by the public.

The public outreach meeting, which follows the scientific peer review meeting, is the forum for public participation. The purpose of this meeting is for the EPA to listen to public opinion on the results of the study and any suggested recommendations the public may have regarding actions the Agency should take. Members of the

public wishing to present formal comments at the meeting should so indicate when registering. Individual speaking times will be limited in order to give everyone an equal opportunity to speak.

Seating will be limited for both meetings and advance registration is suggested. Information about attending the meetings and obtaining a copy of the Draft Report is provided elsewhere in this notice.

After the meetings, the Draft Report will be revised based on the comments received and subjected to final Agency review before submission to the Office of Management and Budget and, ultimately, to Congress. Those wishing to present comments on the Draft Report and those wishing to comment but unable to attend the public outreach meeting are requested to submit written comments. Written comments on this Draft Report must be received by Mr. Maxwell or Mr. French by July 31, 1995 at the addresses noted above.

Dated: June 30, 1995.

Mary D. Nichols,

Assistant Administrator for Air and Radiation.
