[FRL-5256-1]

Underground Injection Control Program: Hazardous Waste Disposal Injection Restrictions**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice of final action to grant a case-by-case extension.

SUMMARY: The EPA is granting final approval to Great Lakes Chemical Corporation (Great Lakes), in El Dorado, Arkansas for an additional case-by-case extension for specific injected wastes which were impacted by the August 8, 1990, ban date (California listed wastes, solvents less than one (1) percent solvent constituents and First Third wastes). This action responds to the petition submitted under 40 CFR 148.4 according to procedures set out in 40 CFR 268.5, which allows any person to request that the Administrator grant, on a case-by-case basis, an extension of the applicable effective date based on a showing that the petitioner has entered into a binding contractual commitment to construct or otherwise provide adequate alternative treatment, recovery, or disposal capacity for the petitioner's waste. The Agency proposed action on this request in a May 24, 1995, **Federal Register** notice. See 55 FRL-5210-5212. By granting this approval, Great Lakes can inject the above identified wastes through September 30, 1995, but not later than this date without being subject to the prohibitions applicable to such wastes. **DATES:** This Action is effective June 30, 1995.

ADDRESSES: The docket for this action is located at the EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202, and is open during normal business hours, 8:00 a.m. through 4:00 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Gus Chavarria, Acting Chief Water Supply Branch, EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733 or telephone (214) 655-7165.

SUPPLEMENTARY INFORMATION: EPA is today approving of the application submitted by Great Lakes Chemical Corporation (Great Lakes), requesting an extension to the June 30, 1995, extended date of the RCRA land disposal restrictions (LDR) treatment standards applicable to wastewaters with the hazardous wastes codes K117, K118, K131, K132, and F039. To be granted such a request, the applicant must demonstrate, among other things, that

there is insufficient capacity to manage its waste and has entered into a binding contractual commitment to construct or otherwise provide such capacity, but due to circumstances beyond its control, such capacity could not reasonably be made available by the effective date. Great Lakes adequately met these requirements and was granted an initial Case-By-Case Extension for one year effective June 30, 1994 to June 30, 1995, with the option to renew this extension for up to one additional year (see FR 5151-5153. Based on the Case-By-Case extension provisions and request by Great Lakes to extend the ban date, Great Lakes will be allowed, upon final approval to land dispose of its K117, K118, K131, K132, and F039 wastes upon final approval, until September 30, 1995, without being subject to the land disposal restrictions applicable to such wastes. Final Approval of this extension, will only be valid for injection into Well Nos. 5 and 6.

Effective Date: This approved extension of the LDR effective date becomes effective June 30, 1995.
