

officials, foundation directors or other individuals that would be involved in funding or operating the model program. The principal decision makers for these entities are the desired participants.

The seminars will provide participants with the opportunity to tour CET skill training centers and to directly observe the CET job training model in action. It will provide the opportunity to meet and interact with CET instructors and students. Distinguished researchers will present study results related to their research of the CET program design. Information will be provided about CET's technical assistance program, the process for applying for technical assistance and the requirements for selection of CET model development sites. Applicants are encouraged to attend an information seminar prior to submitting their applications.

Applications

Applications will be accepted on a first come first serve basis starting August 1, 1995 from eligible applicants that meet the standards below.

To be considered, all applicants must meet the following standards:

(1) Applicants must be or become a JTPA service provider. If the service provider is not the JTPA administrative entity, the application must be submitted jointly with the JTPA administrative entity. A joint application should elaborate on the relationship between the service provider and the administrative entity. This should include descriptions of previous services; JTPA, JOBS and other training contract funding levels; and the level of cooperation between the service provider and the administrative entity.

(2) The proposed service provider must include a written commitment from their organization's board of directors.

(3) Applicants must be able to show that there is solid JTPA or other funding sources available to the proposed service provider. The applicants must commit to or have a reasonable likelihood of receiving operating funds of at least \$1,000,000 a year. A smaller amount may be acceptable for SDAs and other organizations operating in communities with limited funding resources. Any local procurement procedures that would be required prior to initiating the project, including those for a sole source award, if applicable, should be detailed. A timeline for the procurement process should be provided.

(4) The applicants must show a substantial startup funding

commitment. A minimum of \$250,000 is expected although lesser amounts with an explanation of why that level of funding is sufficient may be acceptable.

(5) The applicants must commit to sending staff for training throughout the technical assistance period.

(6) The applicants must commit to follow all key aspects of the CET-model training design, as discussed at the information seminar, including open admission of hard-to-serve client groups.

(7) The applicant must indicate its willingness to: (a) begin staff training within 3 months of notice of technical assistance award and, (b) open a new training site within 6 months of notice of technical assistance award. Those applicants who wish to schedule technical assistance after this period are encouraged to submit applications. Services to those applicants, however, will be contingent upon additional federal funding and may not be selected as part of this first come first serve request for proposals.

(8) The applicants must stipulate which of the following replication site service provider option it wishes to pursue:

- a. An incorporated SDA with 501(c)(3) status operates the program;
- b. A non-SDA, nonprofit, community-based or local education organization operates the program; or
- c. The Center for Employment Training operates the program.

(9) The applicants must state that they are willing to participate in evaluation studies.

Applications will be reviewed against the above standards. All acceptable applications will be ranked based upon date received. The initial 8 sites will be provided with technical assistance under this agreement. Additional service providers, including those applicants who request assistance outside the current time frame, will be served contingent upon the availability of funds. Applications which do not meet the standard will be notified with an explanation.

Signed at Washington, DC, this 30th day of June 1995.

James M. Aaron,

Director, Office of Employment and Training Programs.
