## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Office of the Secretary

#### Findings of Scientific Misconduct

**AGENCY:** Office of the Secretary, HHS.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the Office of Research Integrity has made final findings of scientific misconduct in the following case:

James Urban, M.D., Ph.D., California Institute of Technology: The Office of Research Integrity (ORI) has found that James L. Urban, M.D., Ph.D., engaged in scientific misconduct. This finding is based on an investigation by the California Institute of Technology (CIT) which concluded that Dr. Urban committed serious errors in judgment and serious scientific misconduct in connection with fabricating certain research data in two scientific papers that were published in the journal *Cell*. The first paper is J. Urban, V. Kumar, D. Kono, C. Gomez, S. Horvath, J. Clayton, D. Ando, E. Sercarz, and L. Hood, "Restricted Use of T Cell Receptor V Genes on Murine Autoimmune Encephalomyelitis Raises Possibilities for Antibody Therapy," *Cell* 54: 577-592 (1988). The second paper at issue is J.L. Urban, S.J. Horvath and L. Hood, "Autoimmune T Cells: Immune Recognition of Normal and Variant Peptide Epitopes and Peptide-based Therapy," *Cell* 59: 257-271 (1989). Specifically, the CIT Report states that

Dr. Urban admitted that he fabricated two control lanes reported in Figure 5 of the *Cell* 54 paper. With respect to the *Cell* 59 paper, the CIT Report states that Dr. Urban admitted that he circulated draft copies of the manuscript that contained fabricated data in order to circumvent both the internal and external review processes.

Dr. Urban has accepted the ORI findings and agreed to exclude himself voluntarily, for a period of three years beginning June 2, 1995, from any contracting or subcontracting with any agency of the United States Government and from eligibility for, or involvement in, nonprocurement transactions (e.g., grants and cooperative agreements) of the United States Government as defined in 45 CFR part 76 and 48 CFR subparts 9.4 and 309.4 (Debarment Regulations). This voluntary exclusion does not apply to Dr. Urban's current or future practice of clinical medicine or training, whether as a resident, fellow, or licensed practitioner, unless that practice involves the proposing, conducting, or reporting of biomedical or behavioral research or research training. Dr. Urban also agreed to exclude himself voluntarily from serving on any Public Health Service Advisory Committees, Boards, and/or peer review committees for the same three-year period.

ORI acknowledges that Dr. Urban cooperated with the CIT Investigation Committee during its investigation of allegations of scientific misconduct and with ORI in its resolution of this matter.

### Agency for Toxic Substances and Disease Registry

#### Public Meeting of the Inter Tribal Council, in Association With the Meeting of the Citizens Advisory Committee on Public Health Service Activities and Research at Department of Energy (DOE) Sites: Hanford Health Effects Subcommittee

The Agency for Toxic Substances and Disease Registry (ATSDR) and the Centers for Disease Control and Prevention (CDC) announce the following meeting.

*Name:* Public Meeting of the Inter Tribal Council (ITC), in association with the meeting of the Citizens Advisory Committee

on Public Health Service Activities and Research at DOE Sites: Hanford Health Effects Subcommittee.

*Time and Dates:* 9 a.m.-4:30 p.m., July 26, 1995.

*Location:* The Red Lion Inn, 2525 North 20th, Pasco, Washington 99301, telephone (509) 547-0701, FAX (509) 547-4278.

*Status:* Open to the public, limited only by the space available. The meeting room accommodates approximately 150 people.

#### Background

A Memorandum of Understanding (MOU) was signed in October 1990 and renewed in November 1992 between ATSDR and DOE. The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

In addition, under an MOU signed in December 1990 with DOE, the Department of Health and Human Services (HHS) has been given the responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities, workers at DOE facilities, and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production and use. HHS delegated program responsibility to CDC.

Community involvement is a critical part of ATSDR's and CDC's energy-related research and activities and input from members of the ITC is part of these efforts. The ITC will work with the Hanford Health Effects Subcommittee (HHES) to provide input on Native American health effects at the Hanford, Washington, site.

#### Purpose

The purpose of this meeting of the ITC is to discuss issues that are unique to tribal involvement with HHES including considerations regarding a proposed medical monitoring program and explorations of options and alternatives to providing support for tribal involvement in HHES.
