FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection Approved by Office of Management and Budget

June 30, 1995.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collection pursuant to the Paperwork Reduction Act of 1980, Pub. L. 96-511. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 418-1379.

Federal Communications Commission

OMB Control No.: 3060-0149.

Expiration Date: 06/30/98.

Title: Application and Supplemental Information Requirements—Part 63, Section 214, Sections 63.01-63.601.

Estimated Annual Burden: 6,820 total annual hours; 13.37 hours per response.

Description: Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. Section 214, requires that the FCC review the establishment, lease, operations and extension of channels of communications by interstate common carriers. These carriers earn a rate of return based on their plant and facilities investment. The more they invest in plant and facilities the greater their revenue requirement. Thus, one of the major reasons Section 214 was enacted was to ensure against unnecessary duplication of plant and facilities. The other reason for Section 214 was to regulate which entities should be allowed to provide common carrier services and which services should be allowed to be terminated. Part 63 implements Section 214 of the Communications Act of 1934, as amended. Part 63 also implements the provision of the Cable Communications Policy Act of 1984 pertaining to video programming by telephone carriers. In CC Docket No. 87-266, the Commission modified its rules to enable local telephone companies to participate in the video marketplace through video dialtone. The information is used by the Commission to determine whether the respondent is in compliance with Section 214.
