AGENCY: U.S. Department of Energy.

ACTION: Notice of meeting.

Although advance registration of speakers will facilitate planning for the meeting, advance registration is not required. Speakers not registered in advance will be accommodated to the extent possible. To accommodate as many speakers as possible, a time limit for speakers may be imposed.

On March 16, 1995, the Secretary of Energy initiated a year-long review of the Department's classification policies. The review is being chaired by Dr. Albert Narath, President of Sandia Corporation. It will examine all areas of

classified information falling under the purview of the Department of Energy. Its purpose is to identify which information continues to require protection in support of the common defense and security in light of the end of the Cold War, and which information no longer requires such protection. As part of this endeavor, the public is invited to submit written comments on any aspect of the Department's classification policies for consideration by the Fundamental Review panel. The Fundamental Review is scheduled to be completed in March, 1996.

Roger K. Heusser,

Deputy Director, Office of Declassification, Office of Security Affairs.
