SUPPLEMENTARY INFORMATION:

Introduction

Gettysburg National Military Park and Eisenhower National Historic Site, located in Adams County, Pennsylvania, were established for their historic significance. Gettysburg National Military Park preserves the battlefield at Gettysburg and interprets its significance as one of the most eventful battles of the American Civil War. Eisenhower National Historic Site is adjacent to the battlefield and interprets the life and career of President Dwight D. Eisenhower and the important events that occurred there.

The landscapes of the sites are critical to the interpretation of the events that took place in each park. Management objectives for maintaining landscape components, specifically historic woodlots and cropfields, were developed to enhance visitor understanding of each park's events. Perpetuation of the historic woodlots and the rural agricultural scene, according to the management objectives, is not possible because of deer browsing.
