[FRL-S257-7]

**Peer Review Meeting on Eastern
Columbia Plateau Sole Source Aquifer
Determination**

AGENCY: Environmental Protection Agency.

ACTION: Notice of meeting.

SUMMARY: This notice announces a peer review meeting sponsored by the U.S. Environmental Protection Agency's (EPA's) Science Policy Council (SPC). This meeting is a peer review of scientific information underlying the sole source aquifer determination for the Eastern Columbia Plateau that will be made by the Regional Administrator of EPA's Region 10.

DATES: The meeting will held on July 26-27, 1995. Members of the public may attend as observers.

ADDRESSES: The meeting will be held at the Sheraton Tacoma Hotel in Tacoma, Washington. Eastern Research Group, Inc., an EPA contractor, is providing logistical support for the meeting. To attend the meeting as an observer, contact Laurie Nutter, Eastern Research Group, Inc., 110 Hartwell Avenue, Lexington, Massachusetts, 02173-3198, Tel: 617/674-7320, Fax: 617/674-2906 by July 17, 1995. Space is limited.

FOR FURTHER INFORMATION CONTACT: For technical inquiries, contact Martha Sabol, U.S. EPA, Region 10, 1200 Sixth Avenue, Seattle, WA 98101, Telephone (206) 553-1593. For other information

about the peer review, contact Pam Pentz, U.S. EPA (8501), 401 M Street, SW, Washington, DC 20460, Telephone: (202) 260-6600.

SUPPLEMENTARY INFORMATION: On August 26, 1994, EPA proposed that the Eastern Columbia Plateau Aquifer System be designated as a sole source aquifer. EPA proposed the action in response to a January 1993 petition from the Palouse-Clearwater Environmental Institute of Moscow, Idaho. The petition requests EPA to make a determination under Section 1424(e) of the Safe Drinking Water Act that the aquifer system is the sole or principal source of drinking water for the area and which, if contaminated, would create a significant hazard to public health.

The original comment period was to close on October 14, 1994, but in response to public requests EPA extended the comment period twice: first until January 17, 1995, and then until February 17, 1995. Four public hearings were held throughout the proposed area (September 18, September 19, November 15, and November 16).

EPA received extensive comments, including many that cited technical grounds for taking issue with the vertical and lateral boundaries of the proposed area. On April 13, 1995, the Regional Administrator for Region 10, announced that EPA would undertake a peer review of technical information underlying the sole source aquifer designation in the Eastern Columbia Plateau aquifer system. EPA is asking the peer reviewers, who are experts in hydrogeology to evaluate EPA's technical analysis of certain issues relating to the Eastern Columbia Plateau aquifer system. Specifically, EPA is asking the peer reviewers to provide expert comment on the boundaries of the aquifer system, the vertical flow between the basalt units, and the applicability of the documents that EPA used in the development of its technical analysis. Following this meeting, EPA will use information and analyses developed by the peer reviewers, along with other considerations, to make a determination as to the sole source aquifer designation for the Eastern Columbia Plateau.

Dated: June 30, 1995.

Joseph K. Alexander,

Acting Assistant Administrator for Research and Development.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection Requirements Submitted to the Office of Management and Budget for Review

July 7, 1995.

The Federal Communications Commission has submitted the following information collection requirements to OMB for review and clearance under the Paperwork Reduction act of 1980 (44 U.S.C. 3507).

Copies of these submissions may be purchased from the Commission's copy contractor, International Transcription Service, Inc., 2100 M Street, NW., Suite 140, Washington, DC 20037, (202) 857-3800. For further information on these submissions contact Judy Boley, Federal Communications Commission, (202) 418-0214. Persons wishing to comment on these information collections should contact Timothy Fain, Office of Management and Budget, Room 10214 NEOB, Washington, DC 20503, (202) 395-3561.

OMB Number: None

Title: Application to Participate in an FCC MDS Auction

Form Number: FCC Form 175-M

Action: New collection

Respondents: Businesses or other for-profit

Frequency of Response: On occasion reporting requirement

Estimated Annual Burden: 1,600 responses, .50 hours average burden per response, 775 hours total annual burden

Needs and Uses: On 6/15/95, the Commission adopted a Report and Order in MM Docket No. 94-131 and PP Docket No. 93-253, Amendment of Parts 21 and 74 of the Commission's Rules with Regard to Filing Procedures in the Multipoint Distribution Service (MDS) and in the Instructional Television Fixed Service (ITFS) and Implementation of Section 309(j) of the Communications Act—Competitive Bidding. This Report and Order will streamline the procedures for filing MDS applications and facilitate the development and rapid deployment of wireless cable services. Among other things, this Report and Order establishes competitive bidding rules and procedures for the Multipoint Distribution Service. The Commission has determined that simultaneous multiple round bidding will be used in the MDS auctions. This auction method has been employed successfully in the broadband and narrowband PCS auctions. For the MDS auctions, we have determined that designated

entities will only include small businesses. Due to the differing criteria for establishing designated entity status the Commission is creating a new FCC Form 175-M. This form will be similar to the current FCC Form 175 (3060-0600). The new FCC Form 175-M will be tailored for use by MDS applicants only. The FCC Form 175-S, Application to Participate in an FCC Auction—Supplemental Form (3060-0600) will be used as a continuation sheet. The information will be used by FCC staff to determine whether the applicant is legally, technically, and otherwise qualified to participate in the auction. The rules and requirements are also designed to ensure that the competitive bidding process is limited to serious, qualified applicants and to deter possible abuses of the bidding and licensing processes.

OMB Number: None

Title: Certification of Completion of Construction for a Multipoint Distribution Service

Form Number: FCC Form 304-A

Action: New collection

Respondents: Businesses or other for-profit

Frequency of Response: On occasion reporting requirement

Estimated Annual Burden: 100 responses, 0.5 hours average burden per response, 50 hours total annual burden

Needs and Uses: On 6/15/95, the Commission adopted a Report and Order in MM Docket No. 94-131 and PP Docket No. 93-253, Amendment of Parts 21 and 74 of the Commission's Rules with Regard to Filing Procedures in the Multipoint Distribution Service (MDS) and in the Instructional Television Fixed Service (ITFS) and Implementation of Section 309(j) of the Communications Act—Competitive Bidding. This Report and Order will streamline the procedures for filing MDS applications and facilitate the development and rapid deployment of wireless cable services. Among other things, this Report and Order adopted a new FCC Form 304. This new FCC Form 304-A is a component of the FCC Form 304. This new form will incorporate information currently on the FCC Form 494-A, Certification of Completion of Construction (3060-0403) and limit the form to only MDS applicants. All other services currently on the FCC Form 494-A will remain. Each licensee will specify as a condition that upon the completion of construction, the licensee must file with the

Commission an FCC Form 304-A, certifying that the facilities as authorized have been completed and that the station is now operational and ready to provide service to the public. The conditional license shall be automatically forfeited upon the expiration of the construction period specified in the license unless within 5 days after the date an FCC Form 304-A has been filed with the Commission.

OMB Number: None

Title: Application for a Multipoint Distribution Service Authorization

Form Number: FCC Form 304

Action: New collection

Respondents: Businesses or other for-profit

Frequency of Response: On occasion reporting requirement

Estimated Annual Burden: 300 responses; 55 hours average burden per response; 16,500 hours total annual burden

Needs and Uses: On 6/15/95, the Commission adopted a Report and Order in MM Docket No. 94-131 and PP Docket No. 93-253, Amendment of Parts 21 and 74 of the Commission's Rules with Regard to Filing Procedures in the Multipoint Distribution Service (MDS) and in the Instructional Television Fixed Service (ITFS) and Implementation of Section 309(j) of the Communications Act—Competitive Bidding. This Report and Order will streamline the procedures for filing MDS applications and facilitate the development and rapid deployment of wireless cable services. Among other things, this Report and Order adopted a new FCC Form 304, Application for a Multipoint Distribution Service Authorization referred to in the Report and Order as the long-form application. This new form will incorporate information currently on the FCC Form 494, Application for a New or Modified Microwave Radio Station License Under Part 21 (OMB Control No. 3060-0402) and will add new data elements needed to expedite processing under the new filing procedures adopted in the Report and Order. The FCC Form 304 will be used by existing MDS operators to modify their stations or to add a signal booster station. It will also be used by some winning bidders in the competitive bidding process to propose facilities to provide wireless cable service over any usable MDS channels within their Basic Trading Area (BTA). All other services currently using the FCC Form 494 will continue to do so. This collection

of information will also include the burden for the technical rules involving the interference or engineering analysis requirements under Sections 21.902, 21.913 and 21.938. These analyses will not be submitted with the application but will be retained by the operator and must be made available to the Commission upon request. The data will be used by FCC staff to ensure that the applicant is legally, technically and otherwise qualified to become a Commission licensee. MDS/ITFS applicants/licensees will need this information to perform the necessary analyses of the potential for harmful interference to their facility.

Federal Communications Commission.

BILLING CODE 6210-01-F

Old National Bancorp; Formation of, Acquisition by, or Merger of Bank Holding Companies

The company listed in this notice has applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that application or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Comments regarding this application must be received not later than August 7, 1995.

A. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. *Old National Bancorp*, Evansville, Indiana; to merge with Shawnee Bancorp, Inc., Harrisburg, Illinois, and thereby indirectly acquire The Bank of Harrisburg, Harrisburg, Illinois.

Board of Governors of the Federal Reserve System, July 10, 1995.
