E.O. 12372 sets up a system for State and local government review of proposed Federal assistance applications. Applicants should contact their State Single Point of Contact (SPOC) as early as possible to alert them to the prospective applications and receive any necessary instructions on the State process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC

for each affected State. A current list of SPOCs is included in the application kit. The due date for State process recommendations will be 30 days after the application deadline date for new and competing continuation awards (the appropriations for these financial assistance awards were received late in the FY and would not allow for an application receipt date which would accommodate the 60 day State recommendation process within FY 1995). If SPOCs have any State process recommendations on applications submitted to CDC, they should send them to Clara M. Jenkins, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., Atlanta, GA 30305, no later than 30 days after the application deadline date. ## Fish and Wildlife Service

### Availability of an Environmental Assessment and Receipt of an Application for an Incidental Take Permit for Threatened and Endangered Species and an Agreement for Several Unlisted Species by the Regli Estate, Humboldt County, California

**AGENCY:** Fish and Wildlife, Interior.

**ACTION:** Notice of document availability; request for comments.

**SUMMARY:** This notice advises the public that the Regli Estate (Applicant) has applied to the U.S. Fish and Wildlife Service (Service) for an incidental take permit pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). The application has been assigned permit number PRT–803749. The proposed permit would authorize the incidental take of the threatened northern spotted owl (*Strix occidentalis caurina*, owl) and marbled murrelet (*Brachyramphus marmoratus*, murrelet), and the endangered bald eagle (*Haliaeetus leucocephalus*) and American peregrine falcon (*Falco peregrinus anatum*, falcon) during proposed timber harvest activities, in accordance with the Applicant's Habitat Conservation Plan (HCP). The Applicant also has requested to enter into an Implementing Agreement (IA) with the Service to conserve eight currently unlisted species. The IA contains provisions for amending the proposed permit to include these currently unlisted species should they subsequently become listed under the Act.

The Service also announces the availability of an Environmental Assessment (EA) for the proposed issuance of the incidental take permit and approval of the HCP and IA. All comments received, including names and addresses, will become part of the official administrative record and may be made available to the public. This notice is provided pursuant to section 10(c) of the Act and National Environmental Policy Act regulations (40 CFR 1506.6).

**DATES:** Written comments on the permit application and EA should be received on or before August 16, 1995.

**ADDRESSES:** Comments regarding the application or adequacy of the EA should be addressed to Mr. Joel Medlin,

Field Supervisor, U.S. Fish and Wildlife Service, Sacramento Field Office, 2800 Cottage Way, Room E–1823, Sacramento, California 95825.

Individuals wishing copies of the application or EA for review should immediately contact the above office (916–979–2725). Please refer to permit number PRT–803749 when submitting comments.

**FOR FURTHER INFORMATION CONTACT:** Mr. Michael Horton, at the office listed above.

#### SUPPLEMENTARY INFORMATION:

#### Background

Under section 9 of the Act, and its implementing regulations, the “taking” of species listed as threatened or endangered is prohibited. However, the Service, under limited circumstances, may issue permits to take listed wildlife species if such taking is incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits are promulgated at 50 CFR 17.32 for threatened species, and 50 CFR 17.22 for endangered species.

The Applicant is proposing to harvest approximately 113 acres of timber from their 480-acre ownership in Humboldt County, California. The harvest areas contain second-growth white fir (*Aibes concolor*), Sitka spruce (*Picea sitchensis*) and redwood (*Sequoia sempervirens*), approximately 40 years old, with a component of coastal hardwoods. The proposed timber harvest would remove suitable owl habitat and is likely to result in the take, as defined in the Act and its implementing regulations. Although the Applicant has applied for a permit to authorize incidental take of murrelets, bald eagles, and falcons, suitable habitat for these species does not occur on the property, and take is unlikely. The Applicant has requested an IA with the Service to cover other species that are not currently listed, but are addressed by the HCP. These species include: northern goshawk (*Accipiter gentilis*), Pacific fisher (*Martes pennanti pacifica*), marten (*Martes americana*), California red tree vole (*Arborimus pomus*), northern red-legged frog (*Rana aurora aurora*), tailed frog (*Ascaphus truei*), Del Norte salamander (*Plethodon elongatus*), and torrent salamander (*Rhyacotriton variegatus*). Effects of the proposed action on these currently unlisted species are analyzed in the HCP and EA. The permit and HCP would be in effect for 20 years. The application includes the HCP and IA.

The proposed harvest may result in take of one pair of owls due to removal of suitable owl nesting and roosting habitat. Under the HCP, impacts would
