

NUCLEAR REGULATORY COMMISSION**Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget Review**

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection.

SUMMARY: The Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for collection of information under the provision of the Paperwork Reduction Act (44 U.S.C. Chapter 45)

1. Type of submission, new, revision, or extension: Revision.
2. The title of the information collection: 10 CFR Part 50. Decommissioning of Nuclear Power Reactors.
3. The form number if applicable: Not applicable.
4. How often is the collection required: Periodically upon a licensee's decision to permanently cease operations.
5. Who will be required or asked to report: Part 50 licensees that have decided to permanently cease operations.
6. An estimate of the number of responses: 2 licenses per year are expected to decide to permanently cease operations.
7. An estimate of the reduction of the number of hours needed annually to complete the requirement or request: A reduction of 24,404 hours (12.202 per licensee).
8. An indication of whether Section 3504(h), Pub. L. 96-511 applies: Applicable.
9. Abstract: The proposed amendments would clarify ambiguities regarding decommissioning requirements and codify practices that have been used on a case-by-case basis. Nuclear power plant licensees desiring to decommission would be required to submit certifications of permanent cessation of operation and permanent fuel removal, submit a post shutdown decommissioning activities report and a license termination plan. Major decommissioning activities would be permitted by extending the 10 CFR 50.59 process to permanently shutdown reactors and include the recordkeeping and reporting requirements contained therein. For power reactor licensees, the license termination plan would be made part of the FSAR and would be subject to the FSAR updating documentation requirements. For non-power reactor

licensees, the decommissioning plan would become part of the FSAR. Other Part 50 documentation and/or reporting requirements have been modified to reflect the permanent shutdown status of nuclear power reactors. These modifications clarify licensing conditions pertaining to permanently shutdown power reactors.

Copies of the submittal may be inspected or obtained for a fee from the NRC Public Document Room, 2120 L Street, NW (Lower Level), Washington, DC 20555.

Comments and questions can be directed by mail to the OMB reviewer: Troy Hillier, Office of Information and Regulatory Affairs (3150-0011), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3884.

The NRC Clearance Officer is Brenda J. Shelton, (301) 415-7230.

Dated at Rockville, Maryland, this 10th day of July 1995.

For the Nuclear Regulatory Commission.

Gerald F. Cranford,

Designated Senior Official for Information Resources Management.

Nuclear Safety Research Review Committee

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of change of meeting schedule.

As announced on July 6, 1995 (60 FR 35240), the Nuclear Safety Research Review Committee (NSRRC) will hold its next meeting on July 26-27, 1995. The purpose of the present notice is to provide a revised schedule, reflecting a shift of the Committee's July 27 meeting with the Commission from the morning to the afternoon. The location of the meeting on July 26 and the morning of July 27 will be the Severn Room at the Hyatt Regency Hotel, One Bethesda Metro, Bethesda, MD. The location of the July 27 afternoon portion of the meeting will be the Commission Conference Room in the One White Flint North (OWFN) Building, 11555 Rockville Pike, Rockville, MD.

The revised schedule is as follows:

Wednesday, July 26, a.m. (Severn Room, Hyatt Regency Hotel, Bethesda)
 8:00-8:20 Introductory remarks
 8:20-12:00 Overall research program plans and priorities
 1:15-4:45 Subcommittee reports
 4:45-6:00 Committee discussion in

preparation for Commission briefing

Thursday, July 27, a.m. (Severn Room, Hyatt Regency Hotel, Bethesda)

8:00-10:15 Committee discussion in preparation for Commission briefing (continued)

10:30-12:00 Status update on steam generator tube integrity issues

Thursday, July 27, p.m. (Commission Conference Room, OWFN, Rockville)

2:00-3:30 Meeting with the Commission

3:30-4:00 Committee discussion: follow-up plans.

Any inquiries regarding this notice or any subsequent changes in the status and schedule of the meeting may be made to the Designated Federal Officer, Mr. George Sege (telephone: 301-415-6593), between 8:15 am and 5:00 pm.

Dated at Rockville, Maryland this 11th day of July, 1995.

Andrew L. Bates,

Federal Advisory Committee Management Officer.

Availability of Draft Application Format and Content Guidance and Review Plan and Acceptance Criteria for Non-Power Reactors

The U.S. Nuclear Regulatory Commission (NRC) is in the process of developing for Non-Power Reactors (NPRs) a "Format and Content for Applications for the Licensing of Non-Power Reactors" (F&C) and a "Standard Review Plan and Acceptance Criteria for Applications for the Licensing of Non-Power Reactors" (SRP). The NRC has made available a draft of Chapter 12, "Conduct of Operations," of the F&C and SRP documents for comment. Other draft chapters will be made available for comment as they are completed.

Copies of these chapters have been placed in the NRC Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, DC 20555. Single copies of these documents may be requested in writing from Alexander Adams, Jr., Senior Project Manager, U.S. Nuclear Regulatory Commission, MS: 0-11-B-20, Washington, DC 20555. Comments on this chapter should be sent by October 10, 1995, to the Director, Non-Power Reactors and Decommissioning Projects Directorate at the above address.

Dated at Rockville, Maryland, this July 7, 1995.
