Williams Natural Gas Company; Notice of Request Under Blanket Authorization

[Docket No. CP95-590-000]

July 12, 1995.

Take notice that on June 29, 1995, Williams Natural Gas Company (WNG), P.O. Box 3288, Tulsa, Oklahoma 74101, filed in Docket No. CP95-590-000 a request pursuant to Sections 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.212) for authorization to utilize facilities originally installed for the delivery of NGPA Section 311 transportation gas to Western Resources, Inc. (WRI) for purposes other than NGPA Section 311 transportation, under WNG's blanket certificate issued in Docket No. CP82-479-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

WNG proposes to utilize existing metering and appurtenant facilities to deliver transportation gas to WRI for redelivery to a new Wal-Mart distribution center. The facilities are located in Section 32, Township 16 South, Range 20 East, Franklin County, Kansas. WNG states that this point will be used for deliveries of gas other than NGPA Section 311 transportation and is seeking authorization to perform those deliveries. This requested authorization will allow WRI receipt point flexibility in the future. The operation of these facilities will have no impact on WNG's peak day or annual deliveries. The cost to construct the facilities was \$25,480. WNG states that since this request is to utilize existing NGPA Section 311 transportation facilities for other purposes, this change is not prohibited by its existing tariff and there is sufficient capacity to accomplish specified deliveries without detriment or disadvantage to its other customers.

WNG began delivering gas to WRI pursuant to NGPA Section 311 for

redelivery to Wal-Mart on December 2, 1994. The initial delivery was 128 Dth with an annual volume estimated to be 63,234 Dth the first year increasing to 100,996 Dth by the fifth year. The peak day volume is estimated at 1,056 Dth. WNG reported the initial firm transportation of gas for WRI in Docket No. ST95-831-000.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Secretary.
