Xerox Corporation, Manufacturing and Resource Team of Office Document Products, Office Document Systems Division, Cross Keys Office Park, Fairport, New York; Notice of Revised Determination on Reopening

On June 30, 1995, the Department, on its own motion, reopened its investigation for the former workers of the subject firm.

The initial investigation resulted in a negative determination on January 27, 1995. The denial was published in the **Federal Register** on February 14, 1995 (60 FR 8414).

The Department's review of this investigation revealed that, although the subject workers did not produce an article, they were engaged in planning and engineering development work, and supported the company's production of copiers and printers. The trade adjustment assistance certification of workers at the company's production facility in Webster, New York (TA-W-29, 744) provides a basis for certifying the workers of the subject location.

Conclusion

After careful consideration of these facts, it is concluded that increased imports of articles like or directly competitive with copiers and printers produced by Xerox Corporation contributed importantly to the decline in sales or production and to the total or partial separation of the subject workers. In accordance with the provisions of the Act, I make the following revised determination:

All workers of Xerox Corporation's Manufacturing and Resource Team of Office Document Products, Office Document Systems Division in Cross Keys Office Park, Fairport, New York who became totally or partially separated from employment on or after November 4, 1993 through two years from the date of certification are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, D.C. this 30th day of June 1995.

Victor J. Trunzo,

Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.
