

assigned Permit Number PRT-804479. The requested permit, which is for a period not to exceed 2 years, would authorize the incidental take of the threatened Utah prairie dog (*Cynomys parvidens*). The proposed take would occur as a result of development of a 33-acre housing community on privately-owned property within the city limits of Cedar City, Iron County, Utah.

The Applicant has prepared a habitat conservation plan and an environmental assessment for the incidental take permit application. This notice is provided pursuant to section 10(c) of the Act and National Environmental Policy Act regulations (40 CFR 1506.6).

DATES: Written comments of the habitat conservation plan, permit application, and environmental assessment should be received on or before August 18, 1995.

ADDRESSES: Requests for any of the above documents and comments or materials concerning them should be sent to the Assistant Field Supervisor, Utah Field Office, U.S. Fish and Wildlife Service, 145 East 1300 South, Suite 404, Salt Lake City, Utah 84115. The documents and comments and materials received will be available for public inspection, by appointment, during normal business hours at the above address. Please refer to Permit Number PRT-804479 in all correspondence regarding these documents.

FOR FURTHER INFORMATION CONTACT: Robert D. Williams, Assistant Field Supervisor, (see **ADDRESSES** above) (telephone (801) 524-5001 extension 124, facsimile (801) 524-5021).

SUPPLEMENTARY INFORMATION: Section 9 of the Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1531 *et seq.*), prohibits the "taking" of any threatened or endangered species, including the Utah prairie dog. However, the Fish and Wildlife Service, under limited circumstances, may issue permits to take threatened and endangered wildlife species if such taking is incidental to, and not the purpose of, otherwise lawful activities. Regulations government permits for threatened and endangered species are at 50 CFR 17.22.

West Hills, L.L.C., a small company, wishes to construct 214 housing units on a 33-acre parcel of property in Cedar City, Iron County, Utah. The project also includes installation of associated infrastructures including natural gas, sewer, water, and phone; and development of streets, parking areas, tennis courts, and a club house.

Approximately 2 acres on the north side of the property is known to be inhabited

by the Utah prairie dog, a threatened species.

The Applicant considered a no action alternative. The prairie dogs are situated on the property in such a way that the proposed development cannot be planned to avoid them. Furthermore, this is a small colony surrounded by industrial and residential development, and a State highway. Implementation of the no action alternative would cause loss of use of the private property, resulting in an economic loss.

Authority: The authority for this action is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) and the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*).

Dated: July 11, 1995.

Regional Director, Denver, Colorado.
