retaining the requirement that each bank maintain a written security program. The Federal Reserve amended Regulation P in 1991 to reflect this change. Each state member bank must maintain a written security program in its records. This program should include a requirement to install security devices and should establish procedures that satisfy minimum standards in the regulation, with the security officer determining the need for additional security devices and procedures based on the location of the banking office. No changes are being proposed to the recordkeeping requirement.

6. Report title: Annual Report on Status of Disposition of Assets Acquired in Satisfaction of Debts Previously Contracted
Agency form number: FR 4006
OMB Docket number: 7100-0129
Frequency: Annual
Reporters: Bank holding companies that have acquired assets or shares through foreclosure in the ordinary course of collecting a debt previously contracted
Annual reporting hours: 3,000
Estimated average hours per response: 5
Number of respondents: 600
Small businesses are affected.
General description of report: This information collection is mandatory (12 U.S.C. 1843(c)(2) and 1844(c) and may be given confidential treatment upon request (5 U.S.C. 552(b)(4)).
Abstract: The Federal Reserve has statutory responsibility for regulation and supervision of bank holding companies (BHCs) under the Bank Holding Company Act of 1956, as amended (Act). Under the Act, the Federal Reserve must ensure that impermissible assets are divested in a manner consistent with the statute. The Act sets forth the time frame within which assets and shares acquired in collecting a debt previously contracted (DPC) must be divested.

The Federal Reserve does not require BHCs to obtain prior approval for their acquisition of DPC shares or assets so long as they divest them within two years of the date of their initial acquisition. If the BHC is unsuccessful in divesting them within the two-year period, it must request and obtain approval to continue to hold them. The Board may extend the initial two-year period for up to three additional one-year periods. Further, for real estate or other DPC assets that are demonstrated to have value and marketability characteristics similar to real estate, the Board may permit additional extensions for up to five years (for a total of ten years).

The Federal Reserve does require that the BHC make good faith efforts to dispose of DPC shares or assets and notify it annually of the progress being made with respect to their disposition. Beginning two years after the date of acquisition of DPC assets or shares, the BHC must report annually to the Federal Reserve on its efforts to divest them.

The Federal Reserve uses the information to determine:

(1) Whether a BHC has made timely, good faith efforts to comply with the requirements of the Act; and

(2) The effect that the sale or retention of the property will have on the organization. This report serves to identify potentially unsound situations and to encourage timely compliance with the divestiture requirement as contained in the statutes and regulation. The Federal Reserve monitors the BHC's efforts to effect an orderly divestiture, and may require divestiture before the end of the approved period if supervisory concerns warrant such action.

The reporting requirement only applies to those BHCs that fail to divest DPC shares or assets within two years. They must file an annual report on their efforts to accomplish divestiture of the shares or assets. The report must describe the efforts made to date to effect divestiture (including reasons for any delay in the pace of divestiture), and must include financial and descriptive data with respect to assets as well as the sales price of divested assets.

Affected BHCs file the annual report on their progress toward divestiture with their district Federal Reserve Bank. The due date for the report is based on the date the BHC acquired the DPC assets or shares. The BHC submits the information in a letter format, which is neither stored electronically nor published. No changes are being proposed to the FR 4006 reporting requirement.

Board of Governors of the Federal Reserve System, July 13, 1995.

Secretary of the Board.

Fish and Wildlife Service

Availability of a Habitat Conservation Plan, Environmental Assessment, and Receipt of an Application for an Incidental Take Permit of Utah Prairie Dog Related to the Expansion of an Existing Warehouse by the Coleman Company, Inc., Cedar City, Iron County, Utah

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The Coleman Company (Applicant) has applied to the Fish and Wildlife Service for an incidental take permit pursuant to section 10(a)(1)(B) of the Endangered Species Act (Act) of 1973, as amended. The Applicant has been assigned Permit Number PRT–804404. The requested permit, which is for a period not to exceed 2 years, would authorize the incidental take of the threatened Utah prairie dog (*Cynomys parvidens*). The proposed take would occur as a result of a 1.4 acre expansion of an existing warehouse owned by The Coleman Company in Cedar City, Iron County, Utah.

The Applicant has prepared a habitat conservation plan and an environmental assessment for the incidental take permit application. This notice is provided pursuant to section 10(c) of the Act and National Environmental Policy Act regulations (40 CFR 1506.6).

DATES: Written comments on the habitat conservation plan, permit application, and environmental assessment must be received on or before August 18, 1995.

ADDRESSES: Requests for any of the above documents and comments or materials concerning them should be sent to the Assistant Field Supervisor, Utah Field Office, U.S. Fish and Wildlife Service, 145 East 1300 South, Suite 404, Salt Lake City, Utah 84115. The documents and comments and materials received will be available for public inspection, by appointment, during normal business hours at the above address. Please refer to Permit Number PRT–804404 in all correspondence regarding these documents.

FOR FURTHER INFORMATION CONTACT: Robert D. Williams, Assistant Field Supervisor (see **ADDRESSES** above) (telephone (801) 524–5001 extension 124, facsimile (801) 524–5021).

SUPPLEMENTARY INFORMATION: Section 9 of the Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1531 *et seq.*), prohibits the ''taking'' of any threatened or endangered species, including the Utah prairie dog. However, the Fish and Wildlife Service, under limited circumstances, may issue permits to take threatened and endangered wildlife species if such taking is incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for threatened and endangered species are at 50 CFR 17.22.

The Coleman Company, a corporation, wishes to construct a 52,800 square foot addition to an existing warehouse in Cedar City, Iron County, Utah. The construction will impact 1.4 acres of a 3.7 acre vacant lot on the south side of the warehouse. The entire 3.7 acre lot is known to be inhabited by the Utah prairie dog, a threatened species.

The Applicant considered a no-action alternative. There are no other logistically suitable sites for warehouse expansion of the Coleman property. The Applicant rejected the no-action alternative because this would cause loss of use of the private property, resulting in an economic loss.

Authority: The authority for this action is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) and the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*).

Dated: July 11, 1995.

Terry T. Terrell,

Deputy Regional Director, Denver, Colorado.
