

ONA = Outstanding Natural Area.  
 NSO = No Surface Occupancy.  
 AR = Additional restrictions.  
 N/A = Not applicable.

All potential areas of critical environmental concern (ACEC) meet the bureau ACEC criteria of relevance and importance.

**Wild and Scenic Rivers:** Six river segments (approximately 39 miles) found eligible for designation and studied by BLM are found not suitable for designation. Segments of the Nestucca River and the Molalla River (approximately 28 miles) have been determined to be administratively eligible for further consideration for designation as components of the National Wild and Scenic Rivers System under recreational river classifications. All administratively suitable or eligible (pending further study) river segments will be managed under BLM interim management guidelines pending further legislative or administrative consideration, as applicable. The supporting records for the RMP/ROD include the analyses of river or stream segments.

**Off-Highway-Vehicle (OHV) Use:** The RMP/ROD makes the following designations for OHV management in the district: approximately 129,000 acres are designated "open"; 229,200 acres are designated "limited" (i.e., vehicle use of existing or designated roads and trails will be allowed); and 39,000 acres are designated "closed" to all vehicle use, except for specified administrative or emergency uses. The closed areas include wilderness, administratively withdrawn areas, such as seed orchards and progeny test sites, and various special areas. In addition, the RMP/ROD provides for road closures to meet ecosystem management objectives. Such closures may be permanent or seasonal, and will be implemented by use of signs, gates, barriers, or total road deconstruction and site restoration.

**Land Tenure Adjustment:** The RMP/ROD identifies approximately 160,200 acres of BLM-administered land to be retained in public ownership; 228,000 acres to be considered for exchange under prescribed circumstances; and 9,900 acres to be considered for sale or disposal under other authorized processes. The RMP provides criteria for the acquisition of lands, or interests in lands, where such acquisition would meet objectives of the various resource programs. The plan allocates approximately 24,300 acres as right-of-way exclusion areas and 251,700 acres as right-of-way avoidance areas.

**Special Recreation and Visual Resource Management Areas:** The RMP/ROD identifies seven special recreation management areas (SRMA), including seven existing areas (Fishermen's Bend, Nestucca River, Quartzville Creek, Salmon River, Sandy River, Table Rock, and Yaquina Head) and seven new areas (Little North Santiam River, Marys Peak, Mill Creek, Molalla River/Table Rock, Mt. Hood Corridor, North Fork Siletz River, and Yellowstone). The existing SRMAs total approximately 13,900 acres and the new SRMAs total approximately 70,800 acres. The RMP/ROD allocates approximately 1,400 acres of BLM-administered lands for 33 existing and potential recreation sites. The plan also identifies 19 existing and potential trails, totaling approximately 178 miles. Management guidance for four visual resource management classifications is also established.

**Mineral and Energy Resource Management:** Most BLM-administered lands will remain available for mineral leasing and location of mining claims, but 6,200 acres are or will be closed to leasing for oil and gas and geothermal resources, and 22,100 acres are or will be closed to location of claims.

**Notice of Intent; Amendment to Resource Management Plan; San Rafael Resource Area, Price, Utah**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of intent.

**SUMMARY:** This notice is to advise the public that the Bureau of Land Management (BLM) is proposing to amend the San Rafael Resource Management Plan (RMP) approved May 24, 1991, to address the impacts of mining law administration activities in Emery County, Utah. The amendment will also address land exchanges within the resource area.

**DATES:** For a period of 30 days from date of publication of this notice in the **Federal Register**, interested parties may submit comments on the issues to be addressed in the subsequent Environmental Analysis.

**FOR FURTHER INFORMATION CONTACT:**

Penny Dunn, Area Manager, San Rafael Resource Area, 900 North 700 East, Price, Utah 84501. Existing planning documents and information are available at the above address or telephone (801) 637-4584. Comments on the proposed plan amendment should be sent to the above address.

**SUPPLEMENTARY INFORMATION:** The BLM is proposing to amend the San Rafael RMP, which includes lands in Emery County. The proposed amendment would address the impacts of exploration and mining of locatable minerals such as gypsum, gold, and uranium. The existing plan does not address mining impacts of sufficient scope to cover current and future activity. An environmental analysis will be prepared to assess the impacts or the best projected development scenario and alternatives. In addition, the proposed amendment will address land exchanges which would enable the BLM to meet the goals and objectives set forth in the San Rafael RMP. The existing plan does not address a full spectrum of exchange opportunities. An environmental analysis will be prepared to assess the impacts of anticipated exchange proposals.

Dated: July 6, 1995.
