July 14, 1995.

Take notice that on July 10, 1995, Texas Eastern Transmission Corporation (Texas Eastern), 5400 Westheimer Court, P.O. Box 1642, Houston, Texas 77056-5310, filed in Docket No. CP95-605-000 a request pursuant to Sections 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.211) for authorization to construct and operate a new delivery point located in Clay County, Mississippi under Texas

Eastern's blanket certificate issued in Docket No. CP82-535-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Texas Eastern proposes to construct and operate a 4-inch tap valve, a 4-inch check valve, and appurtenant facilities on its Line No. 30 to provide up to 13,500 Dth per day of interruptible, natural gas transportation service for Mississippi Valley Gas Company (MVG), an existing customer. Texas Eastern mentions that the quantities of gas to be delivered will be within MVG's certificated entitlement. Texas Eastern asserts that the proposed installation will have no effect on its peak day or annual deliveries and that none of its other existing customers would be adversely impacted.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
