Under alternative C, protection of public or private improvements threatened by river erosion and flooding would be allowed. The size of the borrow pit would remain constant. Selective manual forest fuel reduction techniques would be used to reduce hazard forest fuel loadings. Firewood would be supplied from administrative wood and natural selection ecoforestry selective cutting from a designated area. The airstrip would be managed by the National Park Service for emergency use only. Land protection would emphasize high flood influence areas, wetlands, and high visual sensitivity areas.

Major impact topics assessed for the proposed action and alternatives include natural and cultural resources and the socioeconomic environment, including the local and regional economy.

Availability and 30-day Comment Period on an Environmental Assessment for a proposed Exchange of Interests in Lands between the National Park Service and Georgetown University

AGENCY: National Park Service, Interior.
ACTION: Notice of availability of an environmental assessment and a 30-day comment period.

SUMMARY: This notice announces the availability of an environmental assessment for a proposed exchange of interests in lands between the National Park Service and Georgetown University.

Written comments on the EA should be received no later than August 21, 1995. A 30-day no action period will follow this comment period and end on September 20, 1995. Written comments on the EA should be submitted to Mr. Robert Stanton; Field Director, National Capital Area; 1100 Ohio Drive SW., Washington, DC 20242.

Copies of the EA are available for review between the hours of 9 a.m. and 4 p.m., Monday through Friday at the following locations: Office of Stewardship and Partnerships; National Capital Area; National Park Service; 1100 Ohio Drive SW., room 201; Washington, DC 20242; and Chesapeake & Ohio Canal National Historical Park Headquarters, Sharpsburg, Maryland 21782. A limited number of copies of the EA are available on request from Mr. Glenn DeMarr, Office of Stewardship and Partnerships, room 201; 1100 Ohio Drive SW., Washington, DC. Inquiries should be directed to Mr. Glenn DeMarr at the above address or on (202) 619-7027.

SUPPLEMENTARY INFORMATION: This proposal is for the exchange of interests in lands between the National Park Service and Georgetown University. The National Park Service intends to obtain from Georgetown University, fee interest in an inholding containing mature, native vegetation and wildlife located within the Chesapeake & Ohio Canal National Historical Park. In exchange, the National Park Service will convey to Georgetown University, a fee interest in another tract in the already developed portion of the waterfront of the Georgetown section of the C&O Canal National Historical Park.

The primary purposes of the proposed exchange are: (1) To allow the National Park Service to acquire and thereby preclude from development, a largely undisturbed inholding featuring mature trees and native vegetation and wildlife, and avoid the disruption of adjacent parkland from regular recreational

activities of Georgetown University that could occur on this tract; and (2) consistent with National Park Service studies and regional planning, to provide for placement of a non-motorized boating facility in furtherance of the recreational mandate of the C&O Canal National Historical Park Act, on property with less developed natural features.

By acquiring Georgetown University's tract of land, the National Park Service can ensure that the tract will remain in its present undeveloped condition, consistent with long-term planning for the area. Placement of a non-motorized boating facility on the other tract conforms with the conclusions reached in prior recreational boating studies.

Dated: July 14, 1995.

Terry R. Carlstrow,

Acting Field Director, National Capital Area.
