Natural Resources Conservation Service

Square Butte Creek Watershed, Supplemental Watershed Work Plan No. 3, Morton and Oliver Counties, ND

AGENCY: Natural Resources Conservation Service, USDA.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR Part 1500); and the Soil Conservation Service Regulations (7 CFR Part 650); the U.S. Department of Agriculture, Natural Resources Conservation Service, gives notice that an environmental impact statement is not being prepared for the Square Butte Creek Watershed, Supplemental Watershed Work Plan No. 3, Morton and Oliver Counties, North Dakota.

FOR FURTHER INFORMATION CONTACT: Ronnie L. Clark, State Conservationist, Natural Resources Conservation Service, 220 E. Rosser Avenue, P.O. Box 1458, Bismarck, ND, 58502-1458, 701-250-4421.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Ronnie L. Clark, State Conservationist, has determined that preparation and review of an environmental impact statement are not needed for this project.

Project purposes associated with Square Butte Creek Watershed, Supplemental Watershed Work Plan No. 3, are flood prevention, watershed protection, and recreation. A single purpose floodwater retarding dam will be changed to a multiple purpose dam

(flood prevention and recreation) in order to provide water-based recreational facilities. The recommended plan for improvement includes an earthfill dam (918,000 cubic yards) with a concrete principal spillway and a grassed auxiliary spillway. The plan also includes associated land treatment measures on 4,100 acres of cropland and rangeland, and development of agricultural waste management systems above the dam site.

Installation of the proposed reservoir and recreational facilities will provide outdoor recreational opportunities for an estimated 69,900 visitors annually. Planned facilities consist of a boat dock and launching area (ramp), a swimming beach with a changing house, picnic areas with playground equipment and shelters, modern and primitive camping sites, walking trails, adequate parking for each activity, and other necessary facilities including a sewage dump station for recreational vehicles.

The Finding Of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various federal, state, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Ronald D. Sando, Assistant State Conservationist for Water Resources, at 701-250-4441. No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10-904—Watershed Protection and Flood Prevention and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with state and local officials.)

Ronnie L. Clark,

State Conservationist.
