

chemical monitoring requirements. There has also been a public meeting to solicit alternatives to EPA's current requirements on water systems to notify the public whenever the system has violated a monitoring or maximum contaminant level (MCL) requirement. Many ideas were offered on alternative chemical monitoring and public notification requirements which would reduce the paperwork burden created by the existing federal regulations. Further, other public meetings have been held to solicit opinions about potential future federal drinking water regulations. The public meeting announced today is not intended to duplicate those prior meetings. The meeting announced today will be limited to existing regulations and burdens. Further, we would prefer that the focus be on the areas of paperwork burden that were not addressed through other public meetings—for example, burdens associated with the lead and copper, total coliform, surface water treatment requirements. We will not reject any ideas or opinions, however, that participants wish to offer on the paperwork burdens created by the current chemical monitoring or public notification requirements.

Following the public meeting, EPA intends to provide meeting summaries to senior EPA managers to oversee the development of an action plan consistent with available resources. Final decisions concerning any paperwork reduction will be made Assistant Administrator for Water, Robert Perciasepe.

Alternatively, or in addition to the public meeting, members of the public may submit written comments to EPA for up to fifteen days after the meeting. These comments to EPA should be sent to Raymond Enyeart, EPA, Office of Ground Water and Drinking Water, Drinking Water Implementation Division (4604), 401 M Street SW., Washington, DC 20460. Members of the public who wish to attend the meeting should call Raymond Enyeart on (202) 260-5551.

A limited number of telephone lines have been reserved for members of the public wishing to participate in the August 14, 1995 meeting by telephone. Anyone wishing to participate in the meeting via telephone should contact Raymond Enyeart on (202) 260-5551. EPA will cover the long distance telephone charges for the reserved telephone lines. General questions about the meeting process and telephone participation should also be directed to Raymond Enyeart with EPA's Office of Ground Water and Drinking Water at (202) 260-5551.
