BILLING CODE 4410-01-M

#### Antitrust Division

##### **Pursuant to the National Cooperative Research and Production Act of 1993—The Asymmetrical Digital Subscriber Line Forum**

Notice is hereby given that, on May 15, 1995, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), The Asymmetrical Digital Subscriber Line Forum ("ADSL"), filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identity of the parties and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to Section 6(b) of the Act, the identities of the parties are: ADC Fibermux, Chatsworth, CA; Alcatel Bell, Antwerp, BELGIUM; Ameritech, Hoffman Estates, IL; Analog Devices, Inc., Wilmington, MA; Applied Innovation Inc, Dublin, OH; AT&T Paradyne, Largo, FL; Bell Atlantic, Arlington, VA; BT Labs, Ipswich, Suffolk, ENGLAND; CSELT-Stet, Torino, ITALY; DSC Communications Corp, Petaluma, CA; Ericsson Schrack, Vienna, AUSTRIA; Gorham & Partners, London, ENGLAND; GTE Laboratories, Waltham, MA; Independent Editions, Palo Alto, CA; Italtel, Milano, ITALY; Motorola, Austin, TX; Nokia Telecommunications, Helsinki, FINLAND; Orckit Communications, San Diego, CA; Pairgain Technologies, Tustin, CA; Racal-Datacom, Boxboro, MA; Samsung A.I.T., Suwon, KOREA; Telecom Italia, Rome, ITALY; US West, Denver, CO; and Westell, Inc., Aurora, IL.

The area of planned activity is to work towards facilitating development and interoperable end-to-end ADSL based networks, identify services suitable for ADSL transmission and promote the ADSL concept as one of the

strategic means of interactive multimedia transmission.

##### **Pursuant to the National Cooperative Research and Production Act of 1993—Flat Earth Group, L.L.C.**

Notice is hereby given that, on April 25, 1995, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Flat Earth Group, L.L.C., a joint venture formed as a Virginia limited liability company by the parties set forth in this notice pursuant to the Virginia Limited Liability Company Act (the "Joint Venture"), has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to the Joint Venture and (2) the nature and objectives of the Joint Venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to Section 6(b) of the Act, the identities of the parties are Media General, Inc., Richmond, VA; Multimedia, Inc., Greenville, SC; News and Observer Publishing Company, Raleigh, NC; and Evening Post Publishing Company, Charleston, SC. The general area of planned activity is to engage in

developing mechanisms for presentation and marketing of information using new technologies in order to help each joint venture member and its affiliates make better individual decisions concerning the future of their respective businesses.

##### **Pursuant to the National Cooperative Research and Production Act of 1993—OSINET Corporation**

Notice is hereby given that, on May 22, 1995, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), OSINET Corporation ("OSINET") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing certain information. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, the changes are as follows: Amdahl Corporation; AT&T; Data General; Lotus Development Corporation (formerly Soft-Switch); National Institute for Standards and Technology; Northern Telecom; and The Wollongong Group, Inc., ceased membership in OSINET effective December 31, 1994.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and OSINET intends to file additional written notifications disclosing all changes in membership.

On April 15, 1991, OSINET filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on November 19, 1991 (56 Fed. Reg. 58400). The last notification was filed with the Department on March 31, 1994. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on May 25, 1994 (59 Fed. Reg. 27034).

**Notice Pursuant to the National Cooperative Research and Production Act of 1993—PlantSTEP, Inc.**

Notice is hereby given that, on March 10, 1995, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq* ("the Act"), PlantSTEP, Inc., has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties are Autodesk, Inc., Sausalito, CA; Bechtel Corporation, San Francisco, CA; Bentley Systems, Houston, TX; Black & Veatch, Overland Park, KS; CADCentre, Inc., Houston, TX; Computervision Corporation, Bedford, MA; Dassault Systems of America, Burbank, CA; Eastman Chemical Company, Kingsport, TN; E.I. DuPont & Co., Inc., Wilmington, DE; H.B. Zachry Company, San Antonio, TX; Intergraph Corporation, Huntsville, AL; Jacobus Technology Inc., Gaithersburg, MD; John Brown E&C, Houston, TX; and Sunland Fabricators, Inc., Walker, LA.

The nature and objectives of this joint venture are to undertake and develop a standard, computer-intelligible product data exchange specification.

BILLING CODE 4410-01-M

**NUCLEAR REGULATORY COMMISSION**

**Report to Congress on Abnormal Occurrences January–March, 1995 Dissemination of Information**

Section 208 of the Energy Reorganization Act of 1974, as amended, requires NRC to disseminate information on abnormal occurrences (AOs) (i.e., unscheduled incidents or events that the Commission determines are significant from the standpoint of public health and safety). During the first quarter of CY 1995, the following incident at an NRC licensed facility was determined to be an AO and is described below, together with the remedial actions taken. The event is also being included in NUREG-0090, Vol. 18, No. 1, ("Report to Congress on Abnormal Occurrences: January–March

1995"). This report will be available at NRC's Public Document Room, 2120 L Street NW. (Lower Level), Washington, DC, about three weeks after the publication date of this **Federal Register** Notice.

**Other NRC Licensees (Industrial Radiographers, Medical Institutions, Industrial Users, etc.)**

*95-1 Medical Brachytherapy Misadministration at Welborn Memorial Baptist Hospital in Evansville, Indiana*

One of the AO reporting guidelines notes that a therapeutic dose that is greater than 1.5 times the prescribed dose can be considered an abnormal occurrence.

*Date and Place*—November 18, 1994; Welborn Memorial Baptist Hospital, Inc.; Evansville, Indiana.

*Nature and Probable Consequences*—On November 18, 1994, a 73-year-old patient was prescribed to receive a brachytherapy treatment dose of 600 centigray (cGy) (600 rad) at the vaginal cavity using a GammaMed Ili high dose rate afterloading unit. However, because of a treatment error the patient received a 1250 cGy (1250 rad) dose instead of the prescribed dose.

The licensee identified the misadministration during a quality management review on November 21, 1994. The licensee reported the event to the NRC on November 22, 1994, and followed up with a written report on December 6, 1994. The referring physician was notified. The patient was notified on November 23, 1994, by the licensee's Radiation Safety Officer and was provided with a written report of the incident.

An NRC medical consultant was retained to evaluate the medical consequences of the misadministration. The medical consultant expressed concern that long term effects such as fibrosis or loss of blood supply may occur as a result of the 1250 cGy (1250 rad) treatment. The medical consultant also suggested that this case be considered for the U.S. Department of Energy (DOE), Office of Epidemiology and Health Surveillance long term medical study program. Information regarding the DOE program and a copy of the NRC medical consultant's report were provided to the referring physician.

*Cause or Causes*—NRC concluded that the cause of the misadministration was twofold: (1) The technologist failed to activate a button that automatically corrects for treatment time based on source decay, failed to notice a display indicating the treatment time correction that would have been entered

automatically, reentered the treatment time instead, and failed to notice the error; and (2) the treatment software did not stop the technologist from proceeding after the initial error was made as it was supposed to because an integrated circuit containing the software code failed to operate.

*Action Taken To Prevent Recurrence*

*Licensee*—In order to prevent recurrence of the incident as of November 25, 1994, the licensee revised its internal "Policy and Procedure for all HDRs" to require both individuals operating the unit to verify the displayed time factor and compare it to the factor supplied by the manufacturer. Prior to this misadministration, the device operators were required to verify only operator entered data. Also, the unit was evaluated by the licensee's medical physicist and a GammaMed service representative. As a result of the evaluation, the printed circuit board (card) with the read-only-memory integrated circuits containing the defective software program was replaced with a card having the correct software program.

*NRC*—NRC conducted a safety inspection on November 30 and December 1, 1994. An interoffice review of the event was conducted through December 8, 1994, to review the circumstances of the misadministration. No violations of NRC requirements were identified. As a result of the incident, NRC contacted the manufacturer of the GammaMed Ili and sent a letter to all GammaMed Ili users to inform them of this potential problem and tell them how to test their software to prevent similar events.
