

with reviewing and setting primary National Ambient Air Quality Standards (NAAQS) to protect the public health from adverse effects of selected pollutants. The survey results will assist in determining what levels of symptoms and measurable outcomes should be considered adverse health effects, which the standards are intended to prevent. Overall, the project will benefit the Agency as it reviews and sets NAAQS for irritant gases such as ozone, nitrogen dioxide, and sulfur dioxide. The EPA will collect information regarding the significance of health effects resulting from exposure to irritant gases by surveying members of the American Thoracic Society. The survey results will be stored in an OAQPS computer database.

**Burden Statement:** The public reporting burden for this collection of information is estimated to average 0.4 hours per response, including time for reviewing instructions, and completing and mailing the survey.

**Respondents:** Members of the American Thoracic Society.

**Estimated Number of Respondents:** 1,800.

**Estimated Total Annual Burden on Respondents:** 750 hours.

**Frequency of Collection:** One-time.

Send comments regarding the burden estimate, or any other aspect of this information collection, including suggestions for reducing burden, to:

**FEDERAL COMMUNICATIONS COMMISSION**

[Report No. IN 95-12]

**Expedited Processing of International Section 214 Applications**

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice.

**SUMMARY:** The International Bureau will expedite the processing of international Section 214 Applications by using a grant stamp to approve Section 214 special temporary requests, and by calling status conferences in all contested section 214 proceedings.

**EFFECTIVE DATE:** July 25, 1995.

**FOR FURTHER INFORMATION CONTACT:** Troy F. Tanner, Attorney, International Bureau, (202) 418-1468.

**SUPPLEMENTARY INFORMATION:**

**International Bureau Speeds Processing Through the Expanded Use of Grant Stamp and Status Conferences**

By the Chief International Bureau:

1. In response to recent suggestions from the International Practice Committee of the Federal Communications Bar Association, the Bureau will implement the following improvements to expedite the processing of international Section 214 applications. These procedures will go into effect upon publication of this notice in the **Federal Register**.

2. The International Bureau will approve special temporary authorization requests for international Section 214 authorization from applicants that have complied with Section 63.04 of the Commission's Rules, 47 CFR 63.04, through a Grant Stamp procedure. Under this procedure, applications that have been found to be in the public interest, convenience and necessity will be stamped "Granted." This stamp will also provide lines on which staff will sign and note the grant date. Applicants will be notified by Bureau staff that their applications have been granted and will be forwarded a copy of stamped application.

3. The special temporary authorizations granted under the Grant Stamp procedure are subject of the same terms and conditions as currently exist. For informational purposes, these terms and conditions are:

(a) the *Special Temporary Authority* is subject to change in any of its terms or to cancellation in its entirety at any time upon notice, but without hearing, if in the opinion of the Commission circumstances should so require.

(b) the *Special Temporary Authority* is granted without prejudice to action on any underlying Section 214 application.

(c) the *Special Temporary Authority* will automatically expire should the underlying application for regular authority be dismissed or denied.

(d) the *Special Temporary Authority* is effective upon grant and will remain in effect until further order of the Commission, but not beyond either: 180 days from the grant date if the applicant has filed a Section 214 application for permanent authorization; or thirty days from the grant date if no Section 214 application has been filed.

4. If an international Section 214 application is opposed, the Bureau will promptly call a status conference of all parties to discuss the merits of the parties' positions. During the status conference, the Bureau will seek stipulations to agreed upon facts, and explore settlement options.

Federal Communication Commission.

**Scott Blake Harris,**

*Chief, International Bureau.*
