The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to provide additional controlled airspace for Instrument Flight Rules (IFR) procedures at the Clay Center Municipal Airport due to the development of a new SIAP. The additional airspace would segregate aircraft operating under VFR conditions from aircraft operating under IFR procedures. The area would be depicted on appropriate aeronautical charts thereby enabling pilots to circumnavigate the area or otherwise comply with IFR procedures. Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9B, dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71
Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment
Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) as follows:

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9B, Airspace Designations and Reporting Points, dated July 18, 1994, and effective September 16, 1994, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

DEPARTMENT OF THE INTERIOR
Office of Surface Mining Reclamation and Enforcement

30 CFR Part 935
[OH–229; Amendment Number 66]

Ohio Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.
ACTION: Proposed rule.

SUMMARY: OSM is announcing the receipt of a proposed amendment to the Ohio permanent regulatory program (hereinafter referred to as the Ohio program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The amendment was initiated by Ohio and is intended to make the Ohio program as effective as the corresponding Federal regulations concerning the number and frequency of premining water quality samples required for previously mined permit areas.

This document sets forth the times and locations that the Ohio program and proposed amendments to that program will be available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendment, and the procedures that will be followed regarding the public hearing, if one is requested.

DATES: Written comments must be received by 4:00 p.m., E.D.T. on August 24, 1995. If requested, a public hearing on the proposed amendment will be held at 1:00 p.m., E.D.T. on August 21, 1995. Requests to speak at the hearing must be received by 4:00 p.m., E.D.T. on August 9, 1995.

ADDRESSES: Written comments and requests to testify at the hearing should be mailed or hand-delivered to Ms. Beverly C. Brock, Acting Director, Columbus Field Office, at the address listed below.

Copies of the Ohio program, the proposed amendment, and all written comments received in response to this document will be available for public review at the addresses listed below during normal business hours, Monday through Friday, excluding holidays. Each requester may receive one free copy of the proposed amendment by contacting OSM’s Columbus Field Office.

Office of Surface Mining Reclamation and Enforcement.
Columbus Field Office, 4480 Refugee Road, Suite 201, Columbus, Ohio 43232, Telephone: (614) 866–0578.
Ohio Department of Natural Resources, Division of Reclamation, 1855 Fountain Square Court, Building H–3, Columbus, Ohio 43224, Telephone: (614) 265–6675.

FOR FURTHER INFORMATION CONTACT:
Ms. Beverly C. Brock, Acting Director, Columbus Field Office, (614) 866–0578.

SUPPLEMENTARY INFORMATION:

I. Background on the Ohio Program

On August 16, 1982, the Secretary of the Interior conditionally approved the Ohio program. Information on the general background of the Ohio program submission, including the Secretary’s findings, the disposition of comments, and a detailed explanation of the conditions of approval of the Ohio program, can be found in the August 10, 1982, Federal Register (47 FR 34688). Subsequent actions concerning the conditions of approval and program amendments are identified at 30 CFR 935.11, 935.12, 935.15, and 935.16.

II. Discussion of the Proposed Amendment

The Ohio Department of Natural resources, Division of reclamation (Ohio) submitted proposed Program Amendment Number 66 (PA 66) by letter dated July 3, 1995 (Administrative Record No. OH–2143). In this amendment, Ohio is proposing to revise one rule at Ohio Administrative Code (OAC) section 1501:13–4–15 to make the Ohio program as effective as the corresponding Federal regulations concerning the number and frequency of premining water quality samples required for previously mined permit areas. Ohio is revising paragraph (D)(2) of this rule to require that permit applicants submit data from a minimum of 12 water quality samples from each sampling location to determine the base line pollution load of the proposed pollution abatement area. These samples shall be taken at regular intervals and shall be collected over a period of at least 12 months or longer, as determined by the chief of the Ohio Department of Natural Resources, Division of Reclamation.

Also as part of PA 66, Ohio is proposing to revise two of its Policy/Procedure Directives (PPD) to reflect the rule changes described above. Ohio is revising PPD Permitting 92–3 to require the 12 water quality samples, to specify that sites may be sampled more frequently than once per month, and to change the name of Ohio’s Remining Program contact person. Ohio is revising PPD Regulatory 93–4 to clarify that pollution abatement areas can include contiguous undisturbed areas which must be affected to improve the base line pollution load, to clarify the definition of “no longer exceeding,” and to change the name of Ohio’s Remining Program contact person.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is now seeking comment on whether the amendment proposed by Ohio satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Ohio program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter’s recommendations. Comments received after the time indicated under “DATES” or at locations other than the Columbus Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to comment at the public hearing should contact the person listed under FOR FURTHER INFORMATION CONTACT by 4:00 p.m., E.D.T. on August 9, 1995. If no one requests an opportunity to comment at a public hearing, the hearing will not be held.

Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to comment and who wish to do so will be heard following those scheduled. The hearing will end after all persons scheduled to comment and persons present in the audience who wish to comment have been heard.

Any disabled individual who has need for a special accommodation to attend a public hearing should contact the individual listed under FOR FURTHER INFORMATION CONTACT.

Public Meeting

If only one person requests an opportunity to comment at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendment may request a meeting at the Columbus Field Office by contacting the person listed under FOR FURTHER INFORMATION CONTACT.

All such meetings shall be open to the public and, if possible, notices of the meetings will be posted at the locations listed under ADDRESSES. A written summary of each public meeting will be
made a part of the Administrative Record.

IV. Procedural Determinations

Executive Order 12866
This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Executive Order 12778
The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15, and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR parts 730, 731, and 732 have been met.

National Environmental Policy Act
No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Paperwork Reduction Act
This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 et seq.).

Regulatory Flexibility Act
The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The State submittal which is the subject of this rule is based upon corresponding Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the corresponding Federal regulations.

List of Subjects in 30 CFR Part 935
Intergovernmental relations, Surface mining, Underground mining.

Allen D. Klein,
Regional Director, Appalachian Regional Coordinating Center.

BILLING CODE 4310–05–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 260, 264, and 265
[FRL–5263–3]

Hazardous Waste Management System; Testing and Monitoring Activities

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA or Agency) is proposing to revise certain testing methods used in complying with the requirements of subtitle C of the Resource Conservation and Recovery Act (RCRA) of 1976, as amended. EPA also is proposing to add several new testing methods that may be used in complying with the requirements of subtitle C of RCRA. These new and revised methods, designated as Update III, are proposed to be added to the Third Edition of the EPA-approved test methods manual “Test Methods for Evaluating Solid Waste, Physical/Chemical Methods,” EPA Publication SW–846. In addition, EPA proposes to delete several obsolete methods from SW–846 and the RCRA regulations. The intent of this action is to provide state-of-the-art analytical technologies for RCRA-related testing and thus promote cost effectiveness in choosing analytical test methods.

DATES: Comments on this proposed rule must be submitted on or before September 25, 1995.

ADDRESSES: The public should submit an original and two copies of their comments on this proposed rule to the Docket Clerk (OS–305), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460.

M Street, SW., Washington, DC 20460. The official record for this rulemaking (Docket No. F–95–WT3P–FFFFF) is located at the above address in Room M–2616, and is available for viewing from 9 a.m. to 4 p.m., Monday through Friday, excluding Federal holidays. The public must make an appointment to review docket materials by calling (202) 260–9327. The public may copy a maximum of 100 pages of material from any one regulatory docket at no cost; additional copies cost $0.15 per page.

FOR FURTHER INFORMATION CONTACT: For general information contact the RCRA Hotline at (800) 424–9346 (toll free) or call (703) 412–9810; or, for hearing impaired, call TDD (800) 553–7672 or TDD (703) 412–3323. For technical information, contact Kim Kirkland or Barry Lesnik, Office of Solid Waste Coordinating Center.
